Jack, you should know that the Doctor tried to harm Derpy again. The reason he has all his wounds is because her children were protecting her.
That stupid, ungrateful little twat, I hope she drops dead! Her and those awful children!
Woah!

Jack I know this sounds weird but that gold stuff coming out of his body is life force because he is fighting a disease Notice how his mane is now gray but when you saw him earlier it was brown He suffering from a disease known as discorded, it causes you to be the opposite of who you are I know twilight might be able to help because she and her friends were discorded once

That's the "discordation" being expelled from his body His body is fighting the darkness You Must Help Him And doctor, stay in the light Bring this universe out of the darkness. Go with honor

Ok Jack let me explain why the Doctor is like this Something happen to him while he was in this universe and it turn him into a monster So the only way to help him is to find a was to deal with why hes like this

JACK! Do something! The Doctor is about to regenerate again. There must be a way of changing this. For the god's sake don't let it happen

Maybe Ananta can he p
Jack you need to bring Ananta (the hourglass) to the Doctor she can help him
What—

Jack, the yellow dust you are seeing is the doctor's life essence
His life...
In the hourglass...?
Why?

Jack, get him to the Zero room! ASAP!
You're right, there's no time for magic hourglasses.

Jack, The doctor needs to go rest You need to take care of h m And no matter what he says or does Never Leave his s.de He needs you Jack Please do take care to remember that
Why would I ever leave when he's like this...?

Jack f th s thing that happened isn't an irrefutable proof of the Doctor's current bad condition then 'm gonna ump from a c ff
Okay Jack after see ng THAT you def nitely have to admit there's something wrong with the Doctor
I'm not dense.
I knew something's been wrong from the start, I'm just not sure what.

Jack, do you have any idea what the noise inside the doctor's head could be?
I don't want to believe it but...
It sounds like the Master's signal, back in the Year That Never Was...

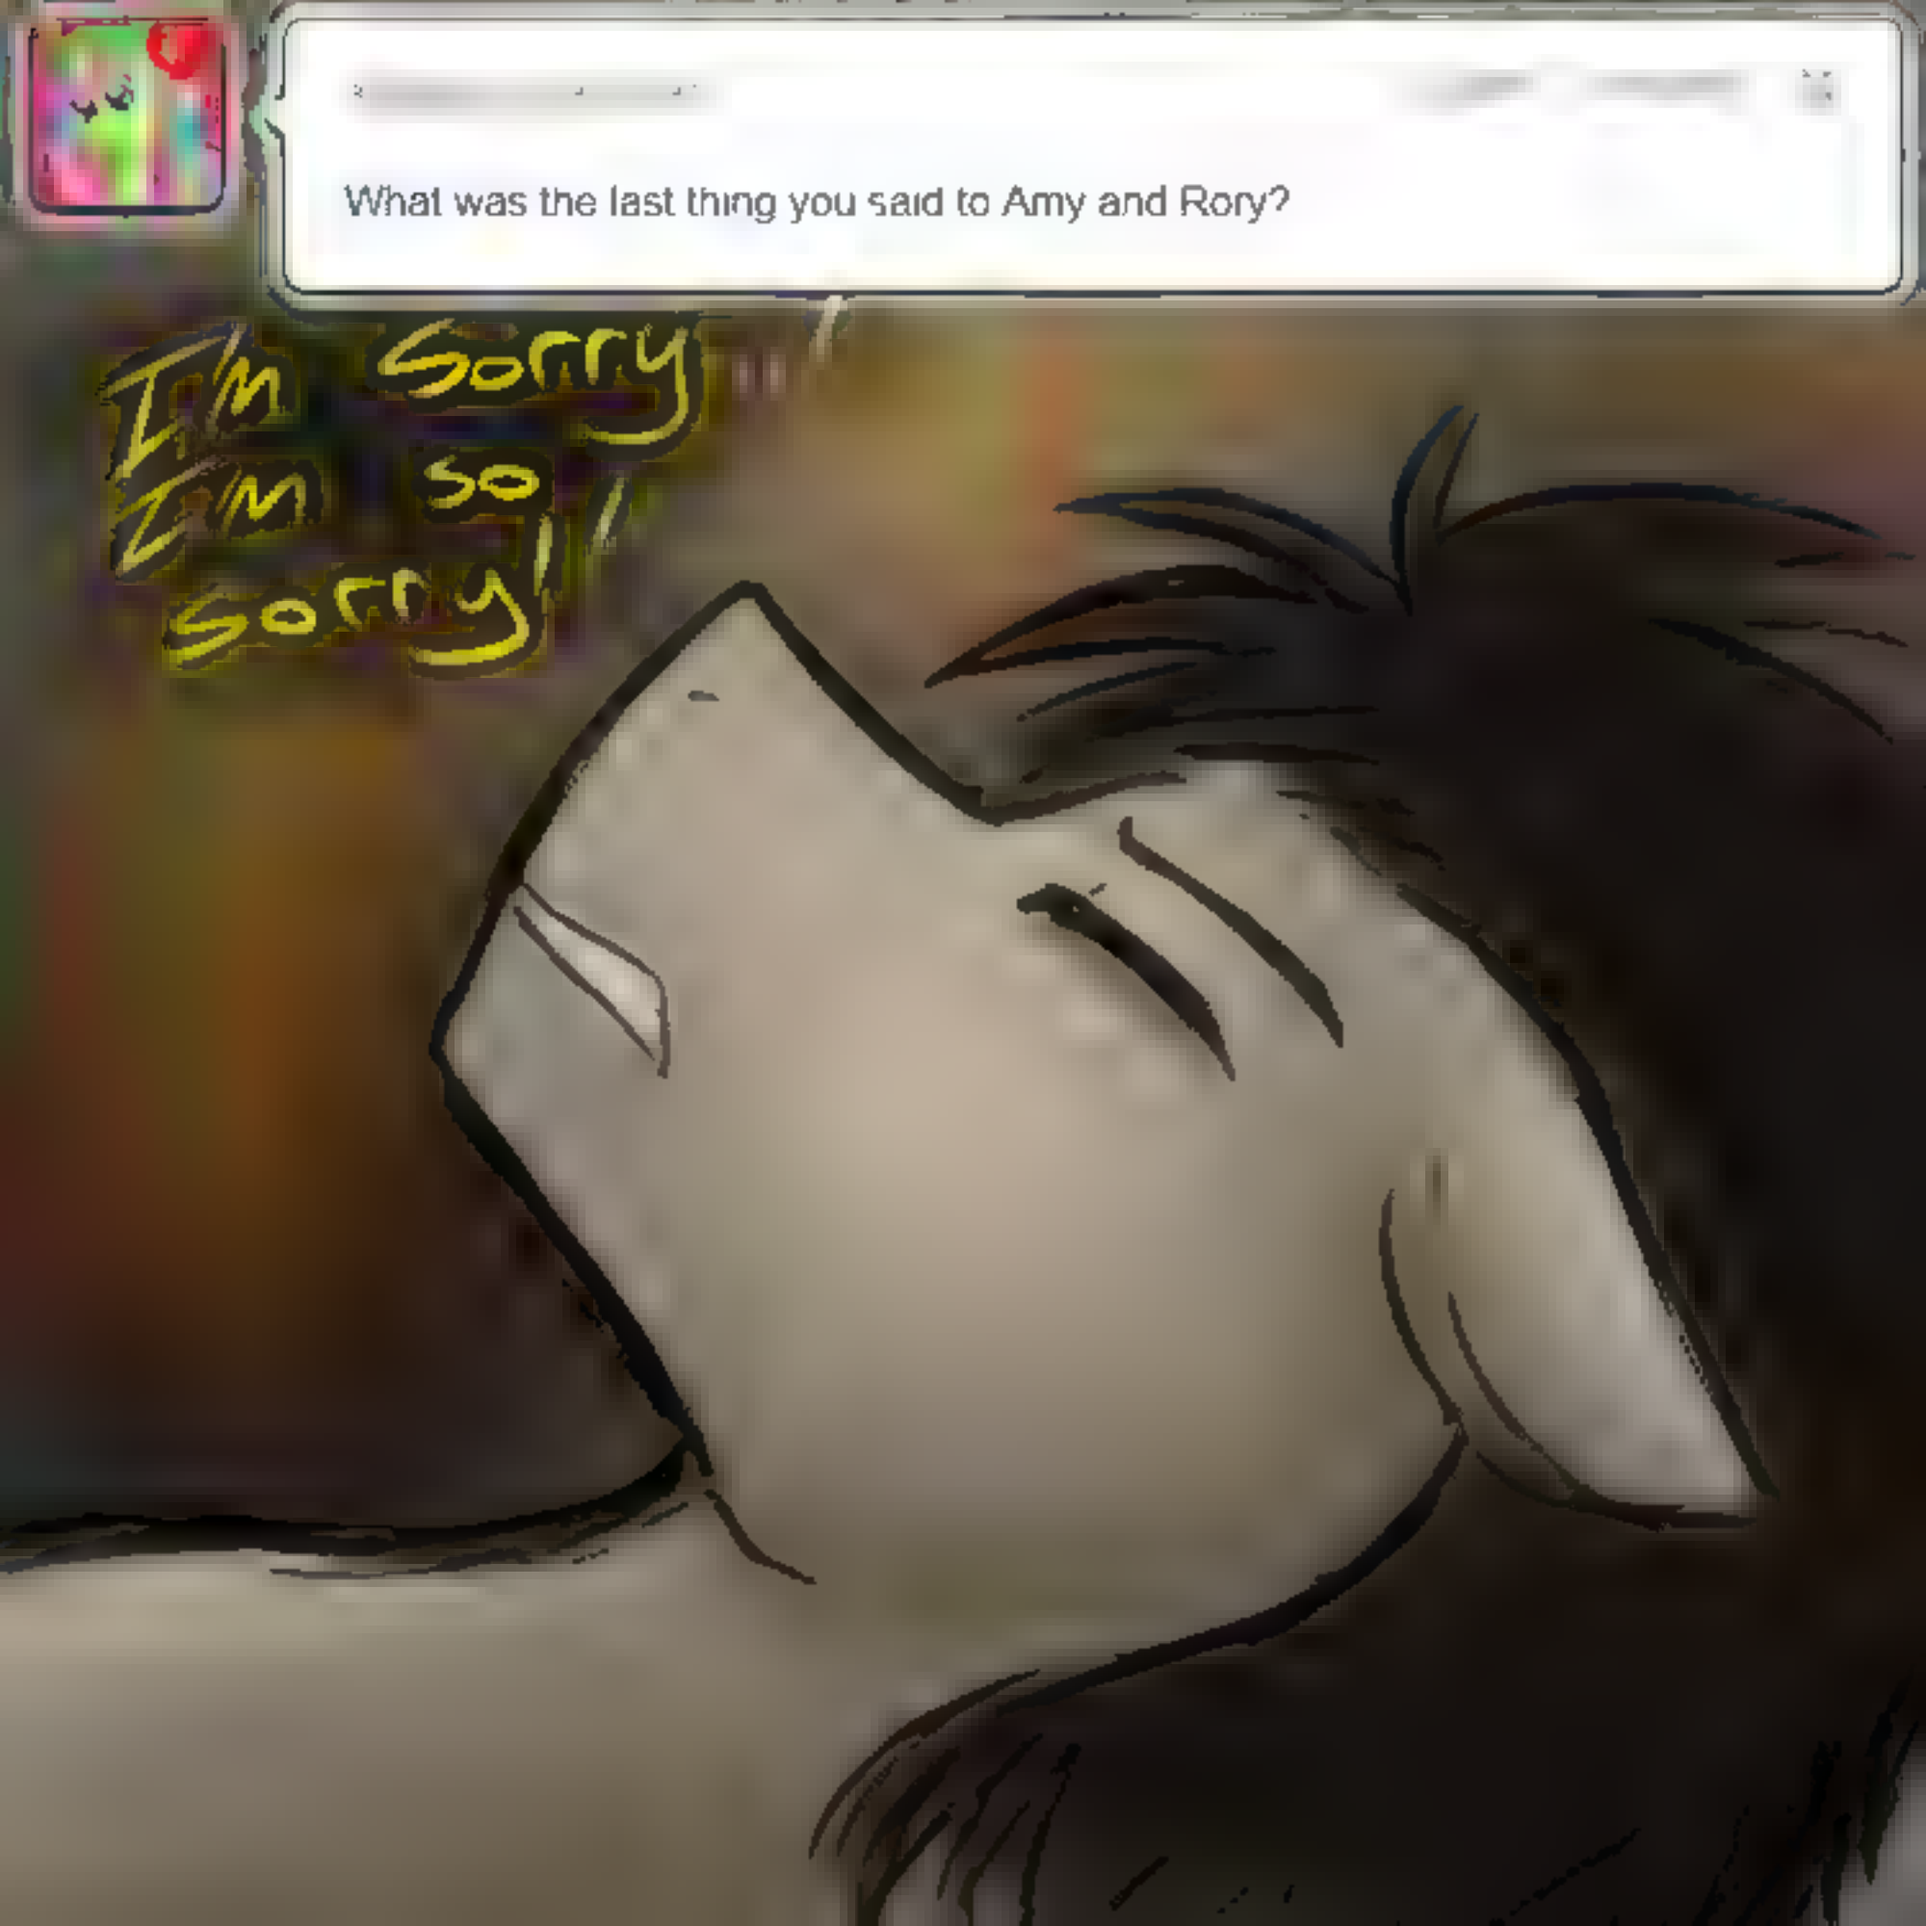
Jack do you th nk that the Doctor .s heanng the same drums that the Master heard wh le they were ocked in combat back on Earth? If so you should try to find him He m ght be the only who can help I hope But first you've gotta wrap up those wounds ASAP!!

Jack, the Doctor could never fall this far on his own There must be someone or something else affect ng him He needs your help, Jack
The Master...
He's somehow behind this...
I should have known...

Jack, is there any way to he p The Doctor at this po nt?

I honestly don't know.

But dammit, I'm going to try.



What was the last thing you said to Amy and Rory?
I'm sorry I'm so sorry!

Doctor I'm so sorry

I'm sorry.
I'm sorry.
It was My fault
You heartless monster
You are pathetic
It was suppozed to just be an anniversary and I screwed up all my
It's fault
I know!
Still a coward I see
I know!!

Poor Doctor you've gone and let yourself go how foolish you were to think you could go and change anything with how you are now

Have fun explaining th s to Jack

Kiff
Toff

Jack, the Doctor has been occasionally exhaling regeneration energy, but he hasn't regenerated recently. I think you should mention it to him. It might be important.

Don't you dare tell me that's normal, Doc.

You've really been whoring it up lately haven't you?

So your a whore now wonderful

Why would you do that? Twilight you were so innocent and adorable!
Please don't go through with this

How can you be a virgin and a slut? Pfft teenagers as always twi You can have as many f*ck buddies as you want but don't think we're as stupid as you may have thought Whore Oh Also we haven't hung out in a long time so you should totally come sometime See yah

This turn of events makes me kind of sad

You had a cute blog but after recent things. just don't see how can follow you anymore , Sorry to leave you like this. and it's been nice

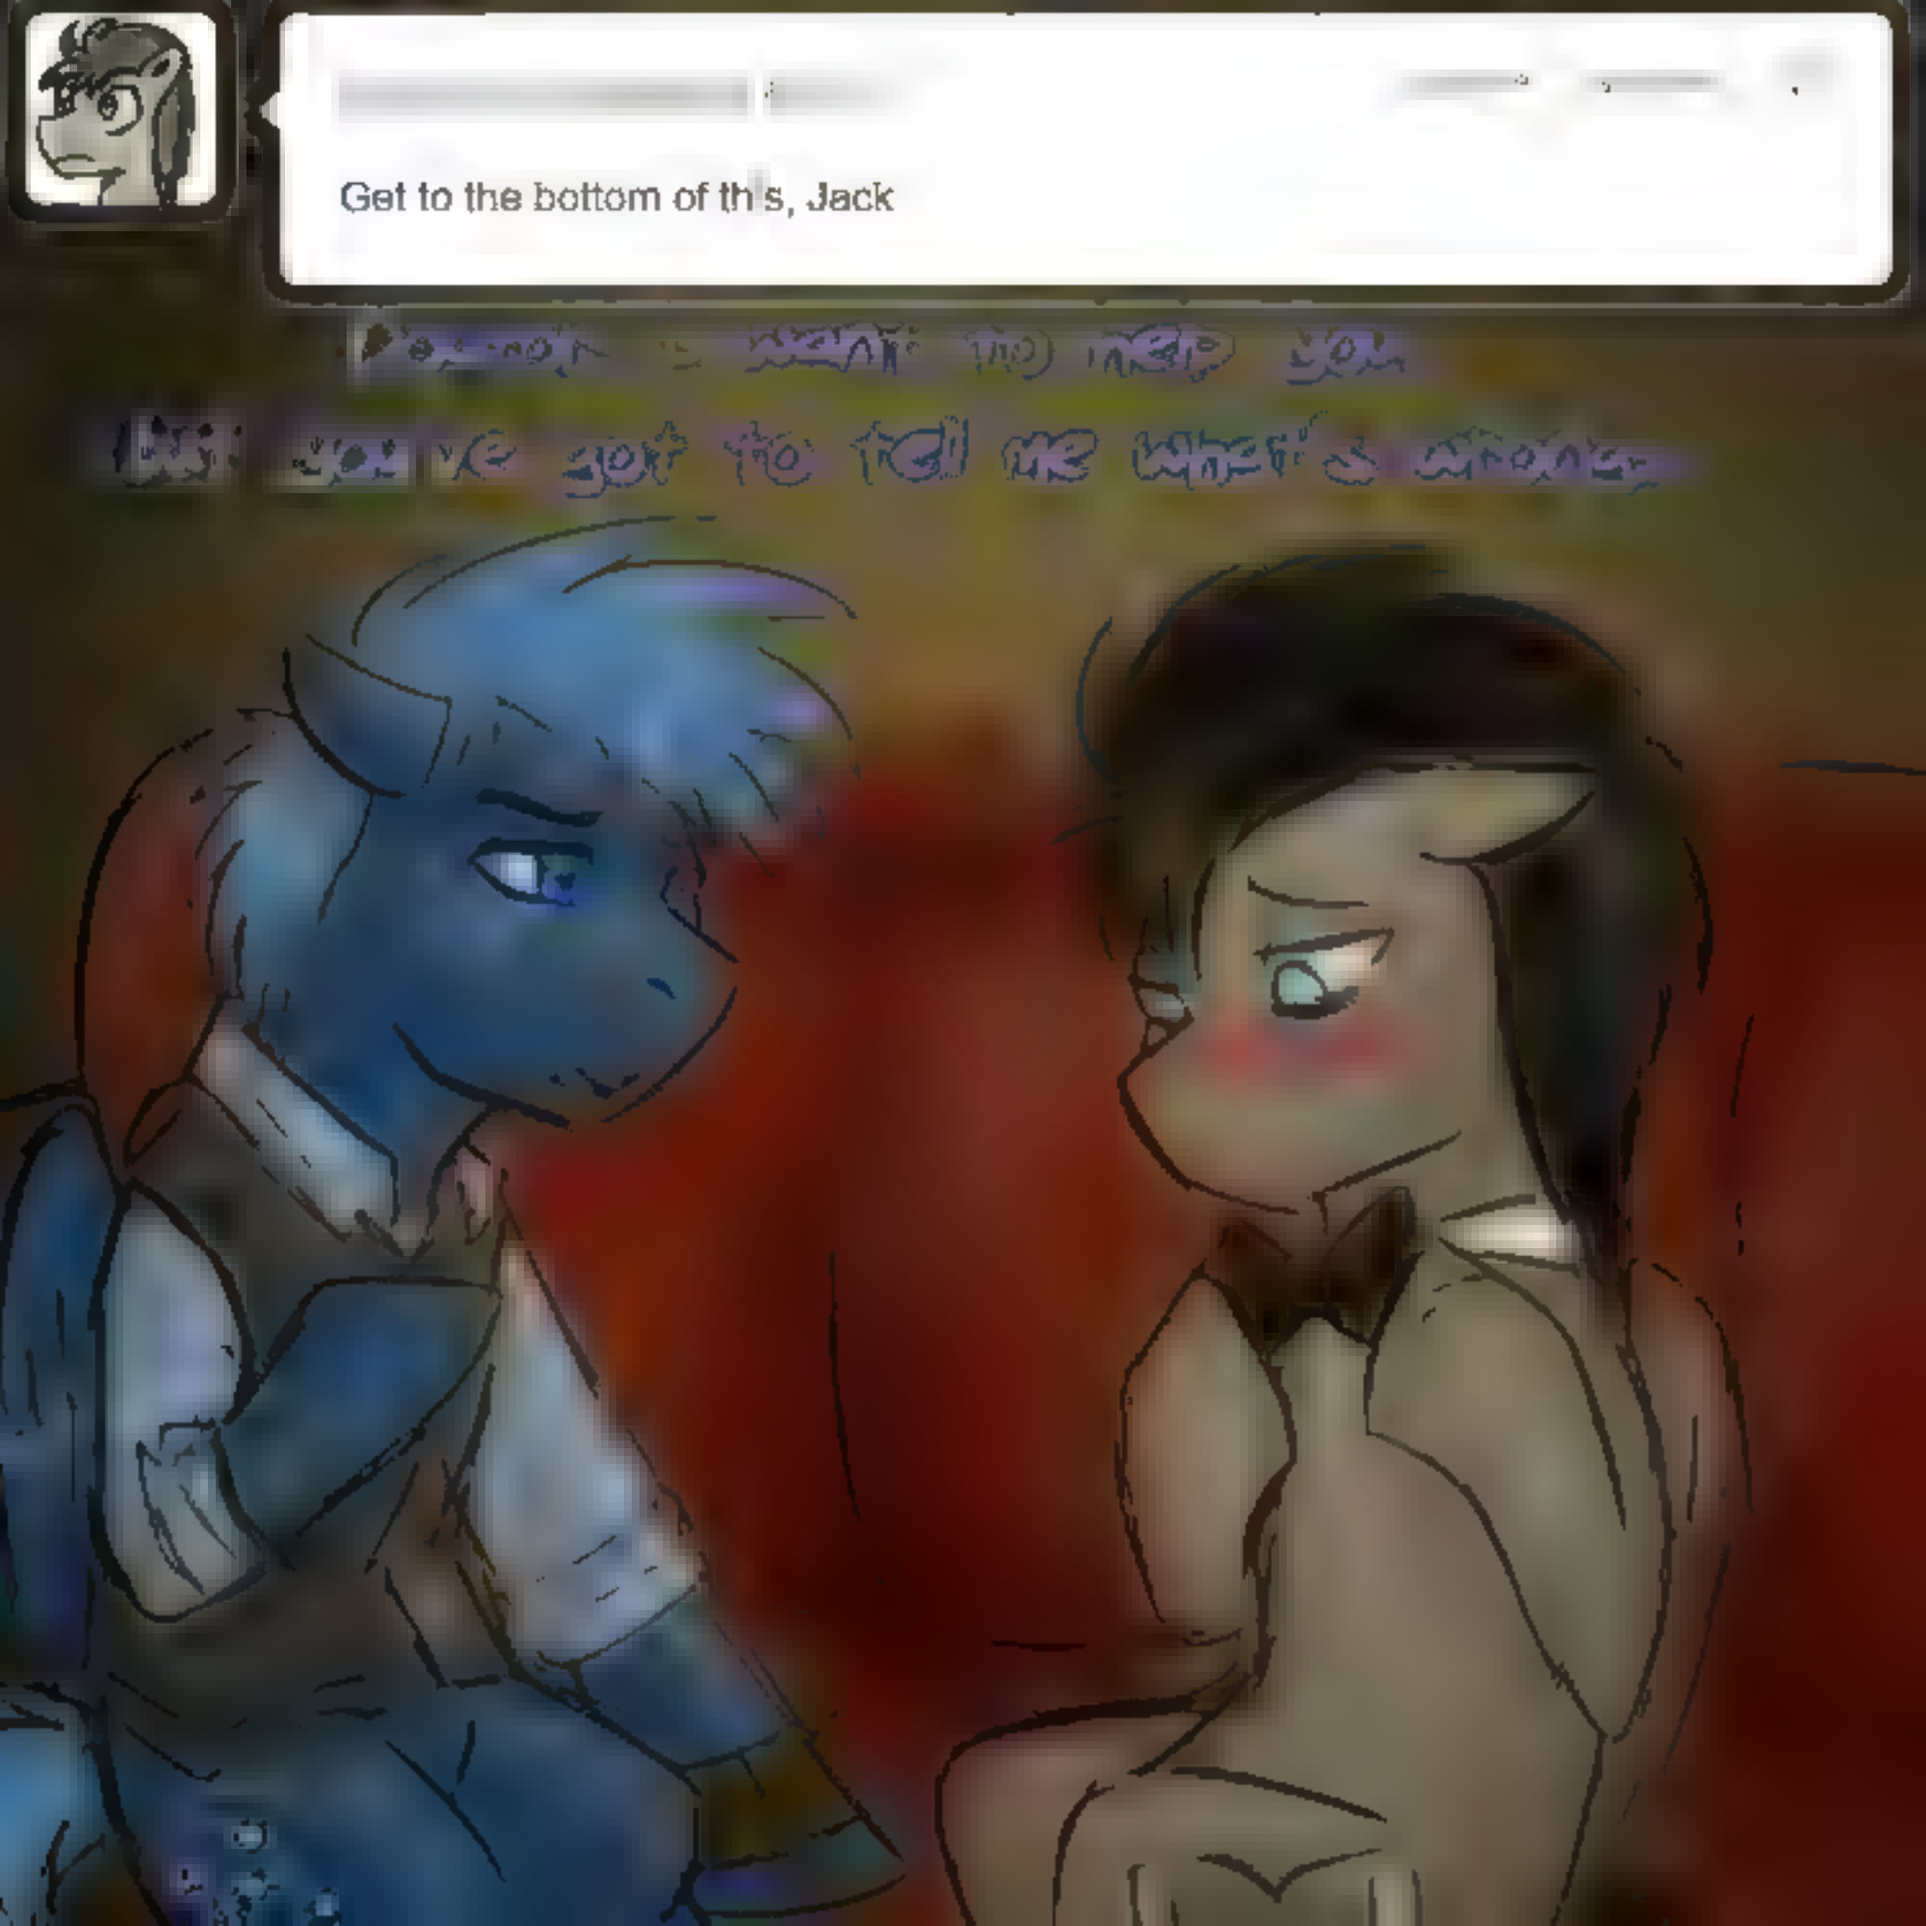
WOW. You sleep with ONE colt and suddenly you're a whore.

Thanks for that.

I know that I've got another one in line, but I AM being careful. No one skeezy, no STD's. I'm not charging anyone money. It's not something I plan on completely identifying myself with. I'm just trying to grow and develop as a pony, gain new experiences

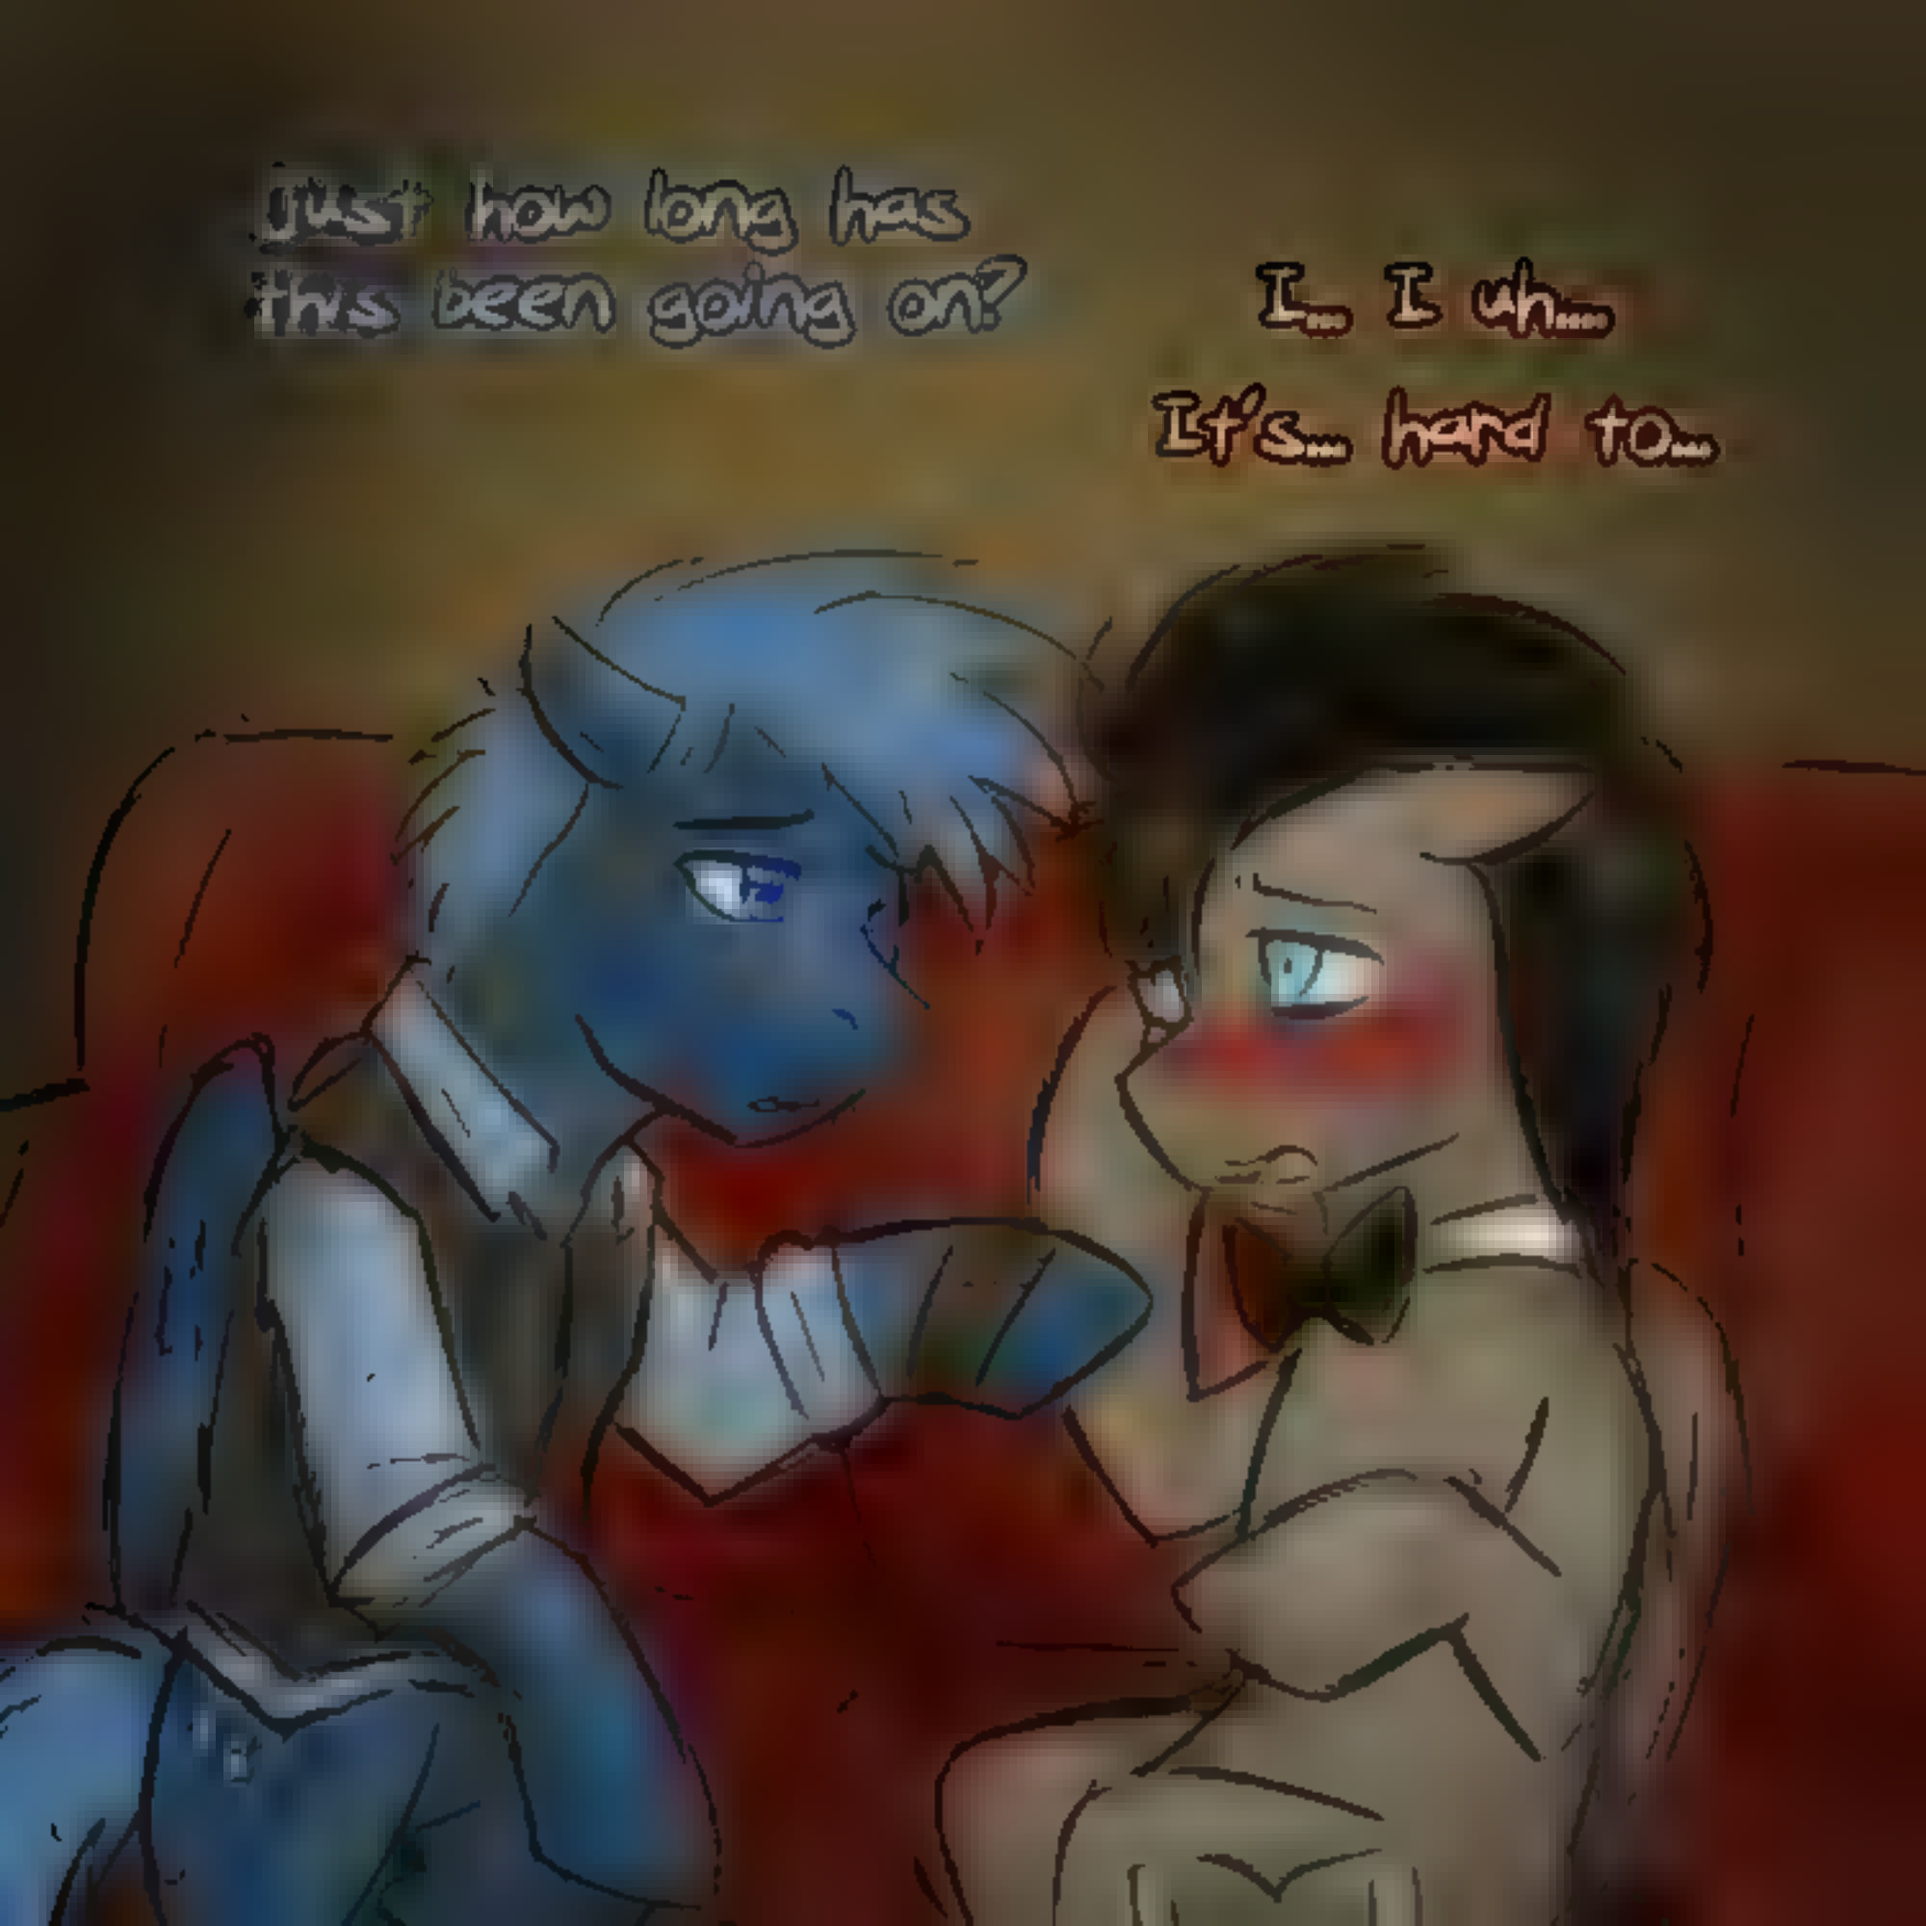
Twilight while the Doctor is busy giving you the time of your life on Discord him.
I don't have the ability to Un-Discord someone unless I've known them for a long time BEFORE Discord's power took effect. It's not a spell that really changes the pony, it's a spell that taps into MY memories, helping them remember the pony they used to be.
I would LOVE to help the Doctor. He's not a bad pony. But I only remember him as he is now.

Was The Doctor rough?
Of course not. He knows how to treat a lady.



Get to the bottom of this, Jack

You're clearly stressed,
having mood swings, getting
violent, and now you're
collapsing and coughing
up that energy...

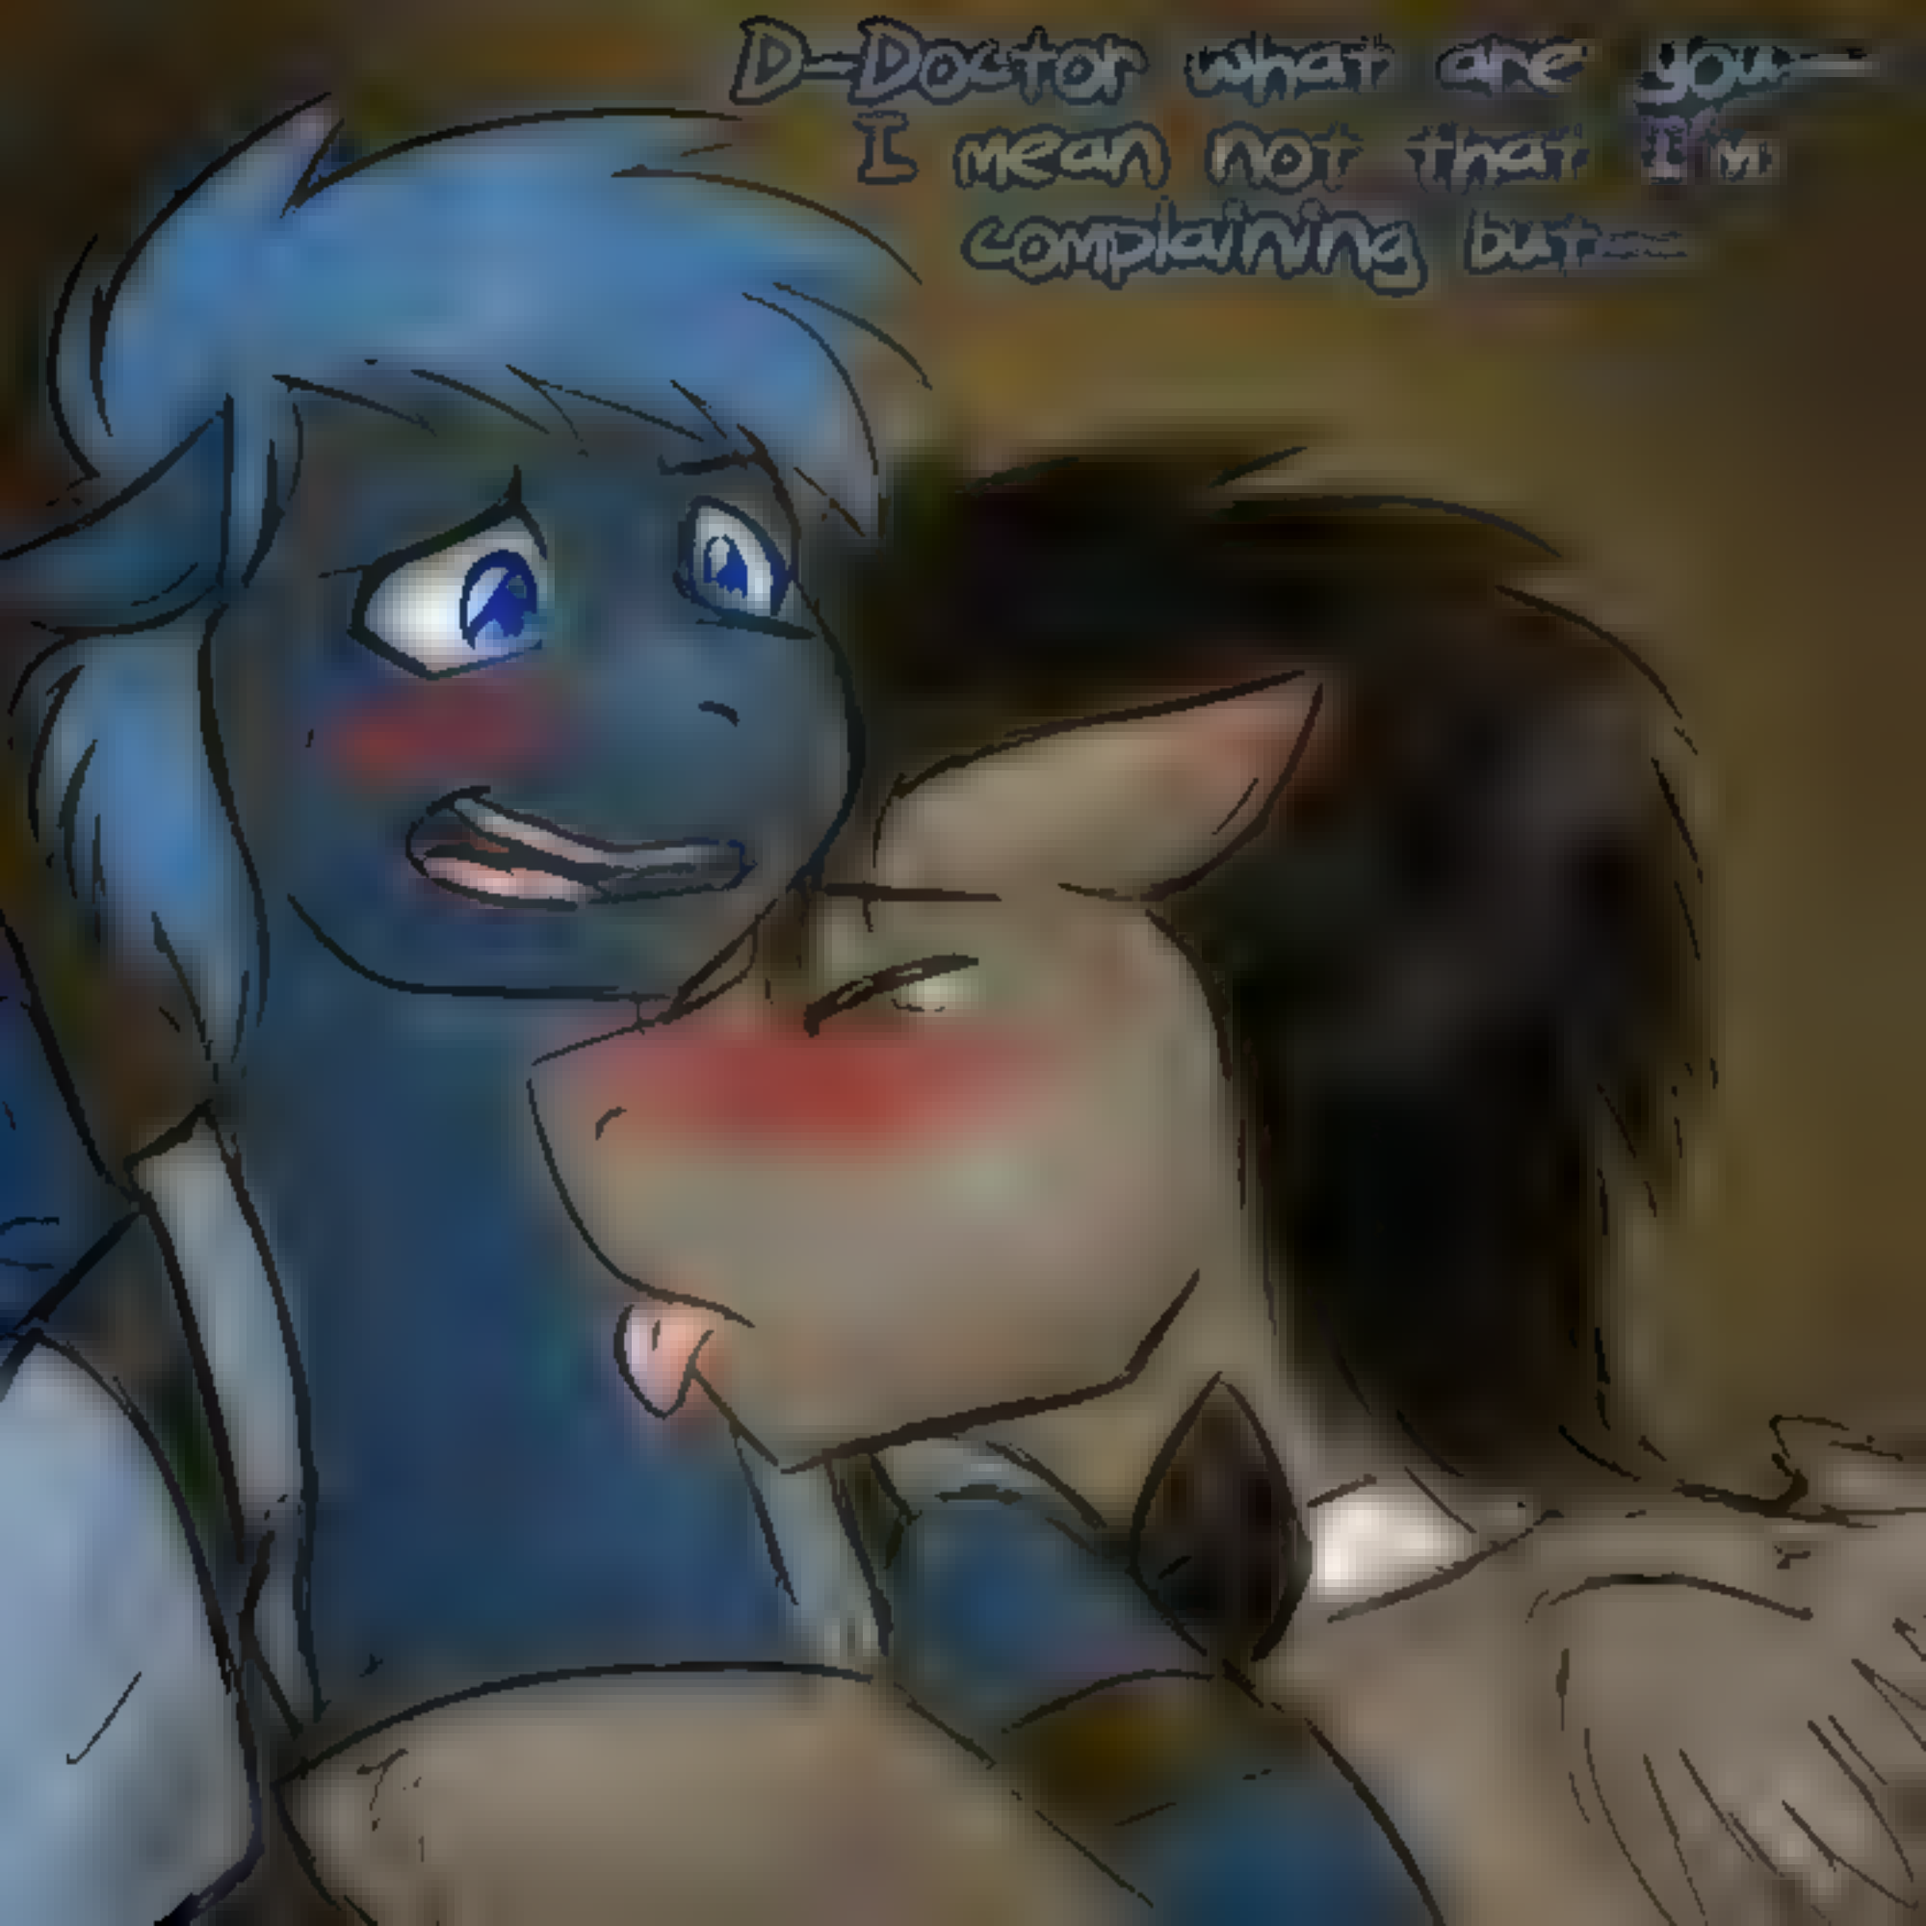


Just how long has this been going on?
I... I uh... It's... hard to...

Jack, I think it's time you asked the Doctor about Discord
Come on, Focus... What about... The Master?
Drums? 'Discord', does that mean anything to you?
I... Dis...cord...
Drums, I... I can't--
it's... so hot...

Jack If the Doctor had a problem with sex why not ask him about it? Like you said it isn't like him
Doct-

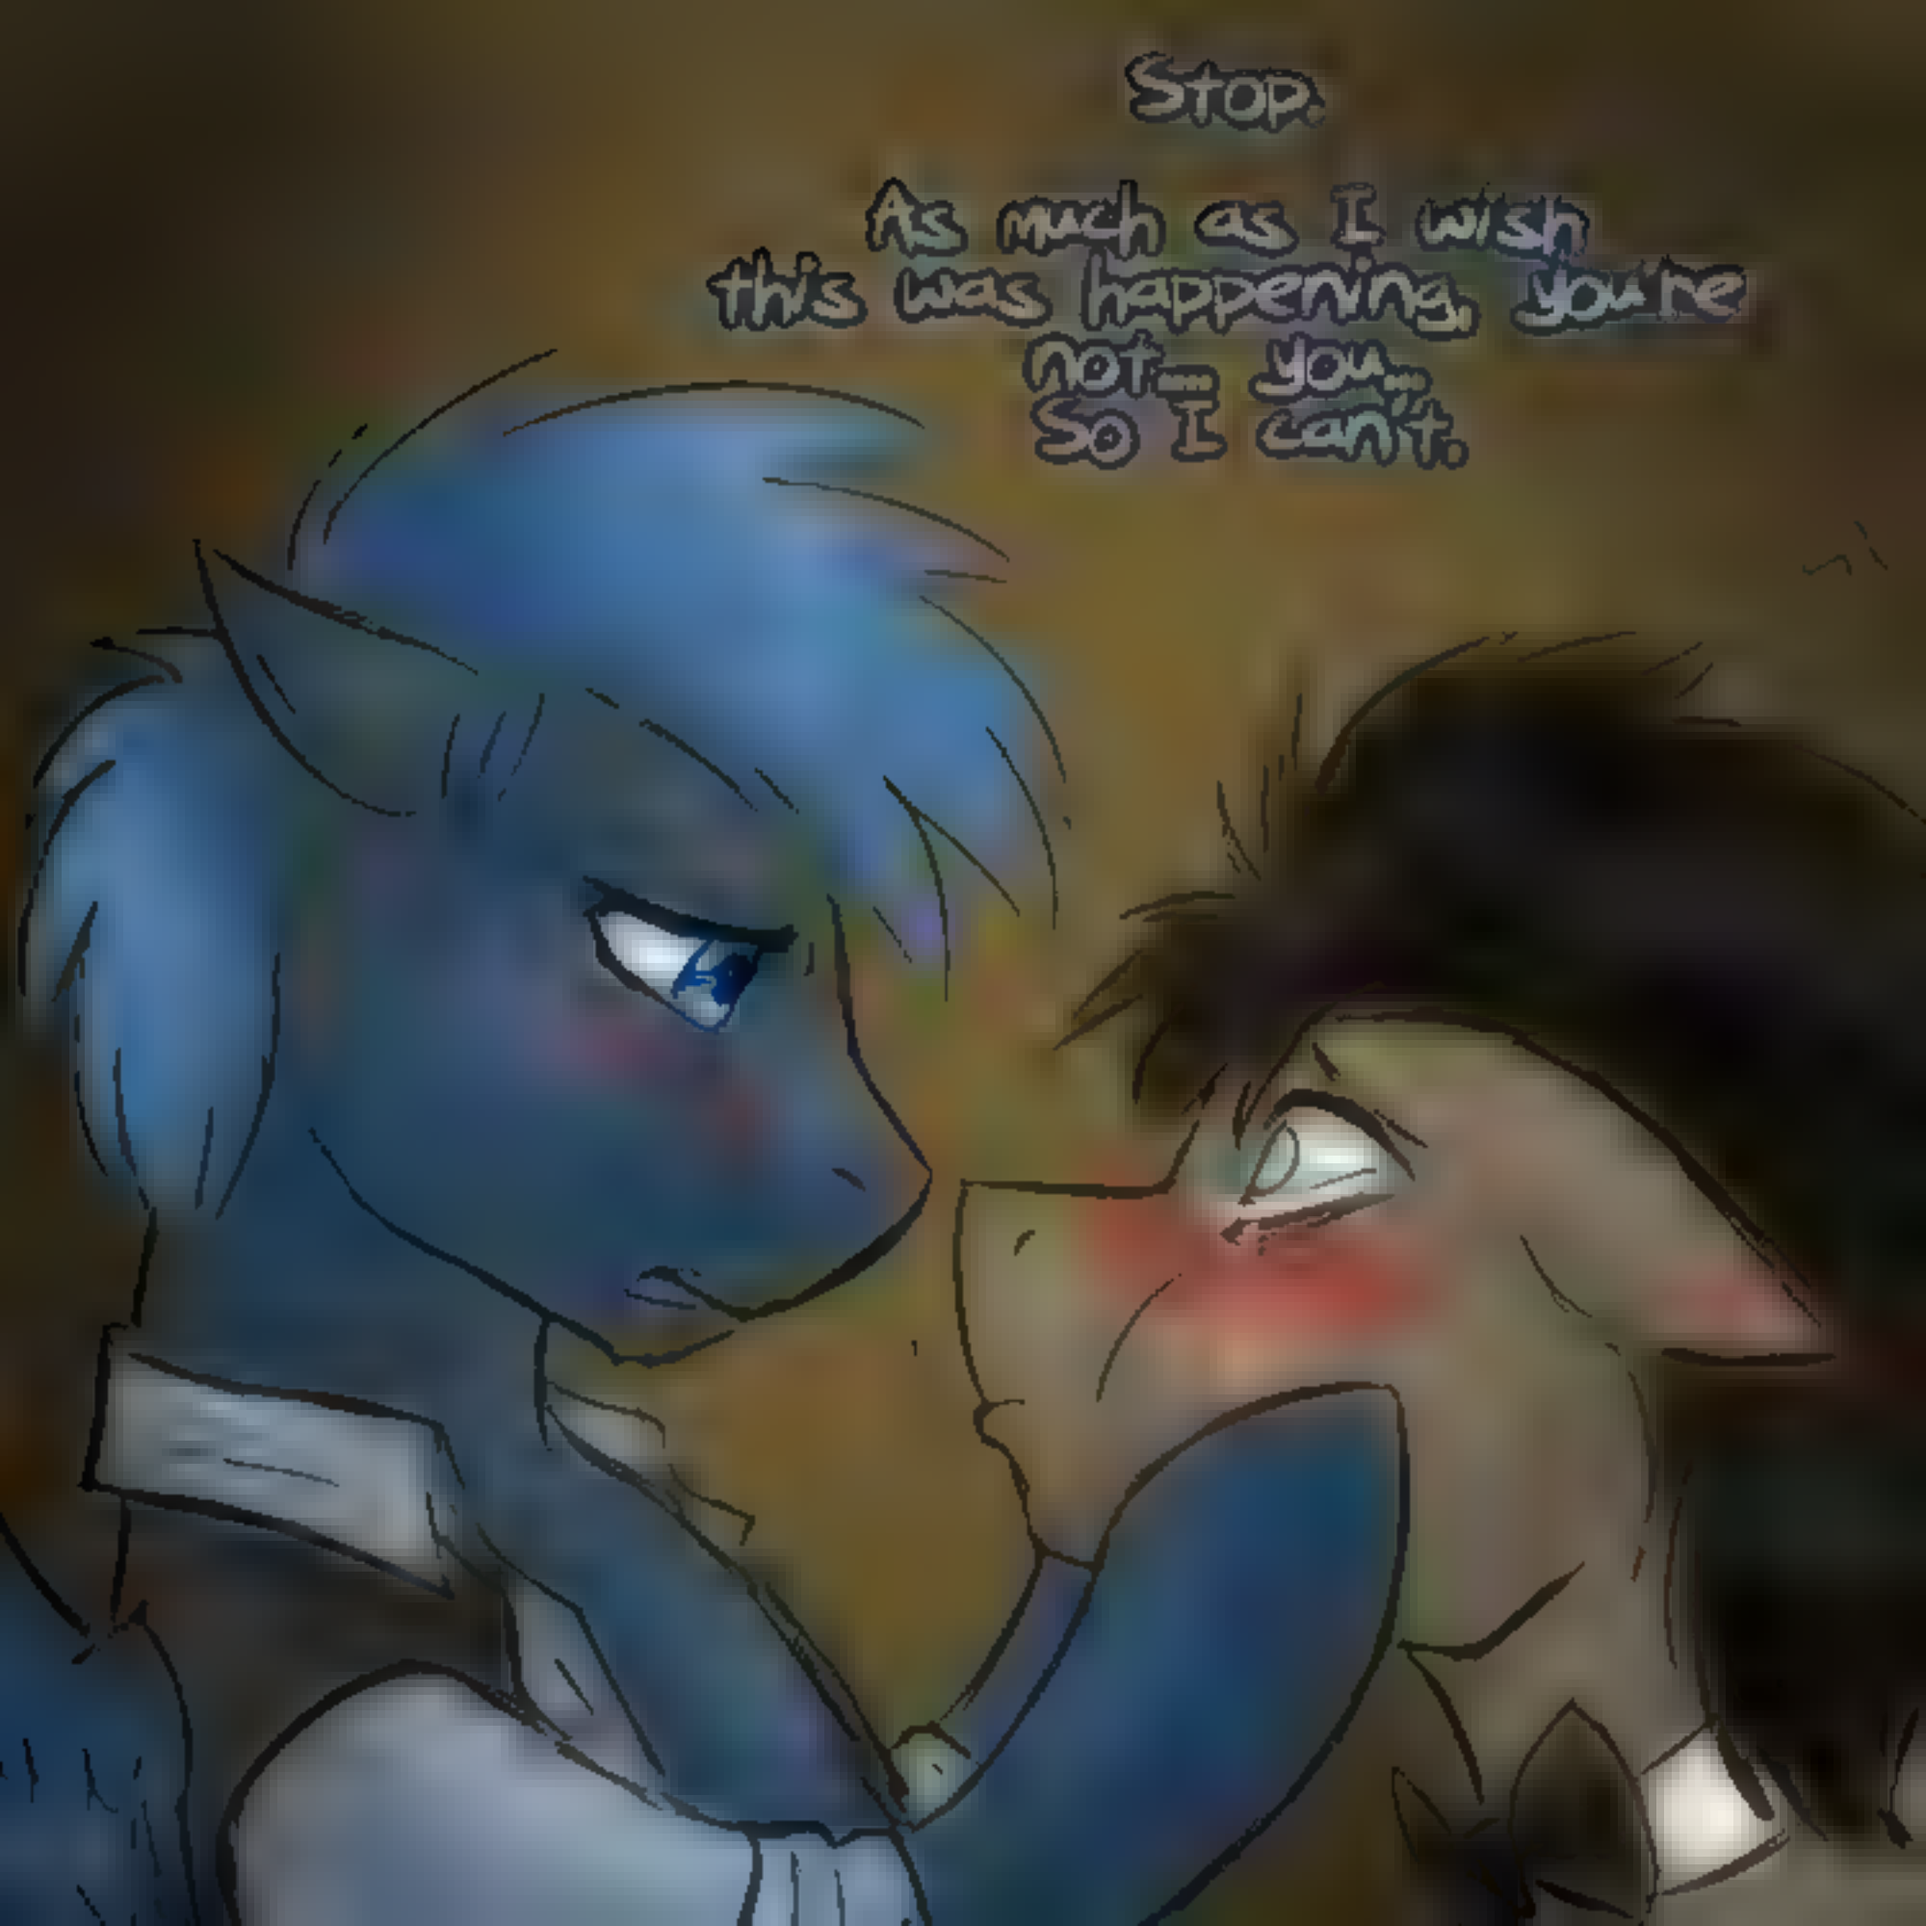
Rrh?!



D-Doctor what are you—
I mean not that I'm
complaining but—

I need it-
Can't stand it-
Help me...

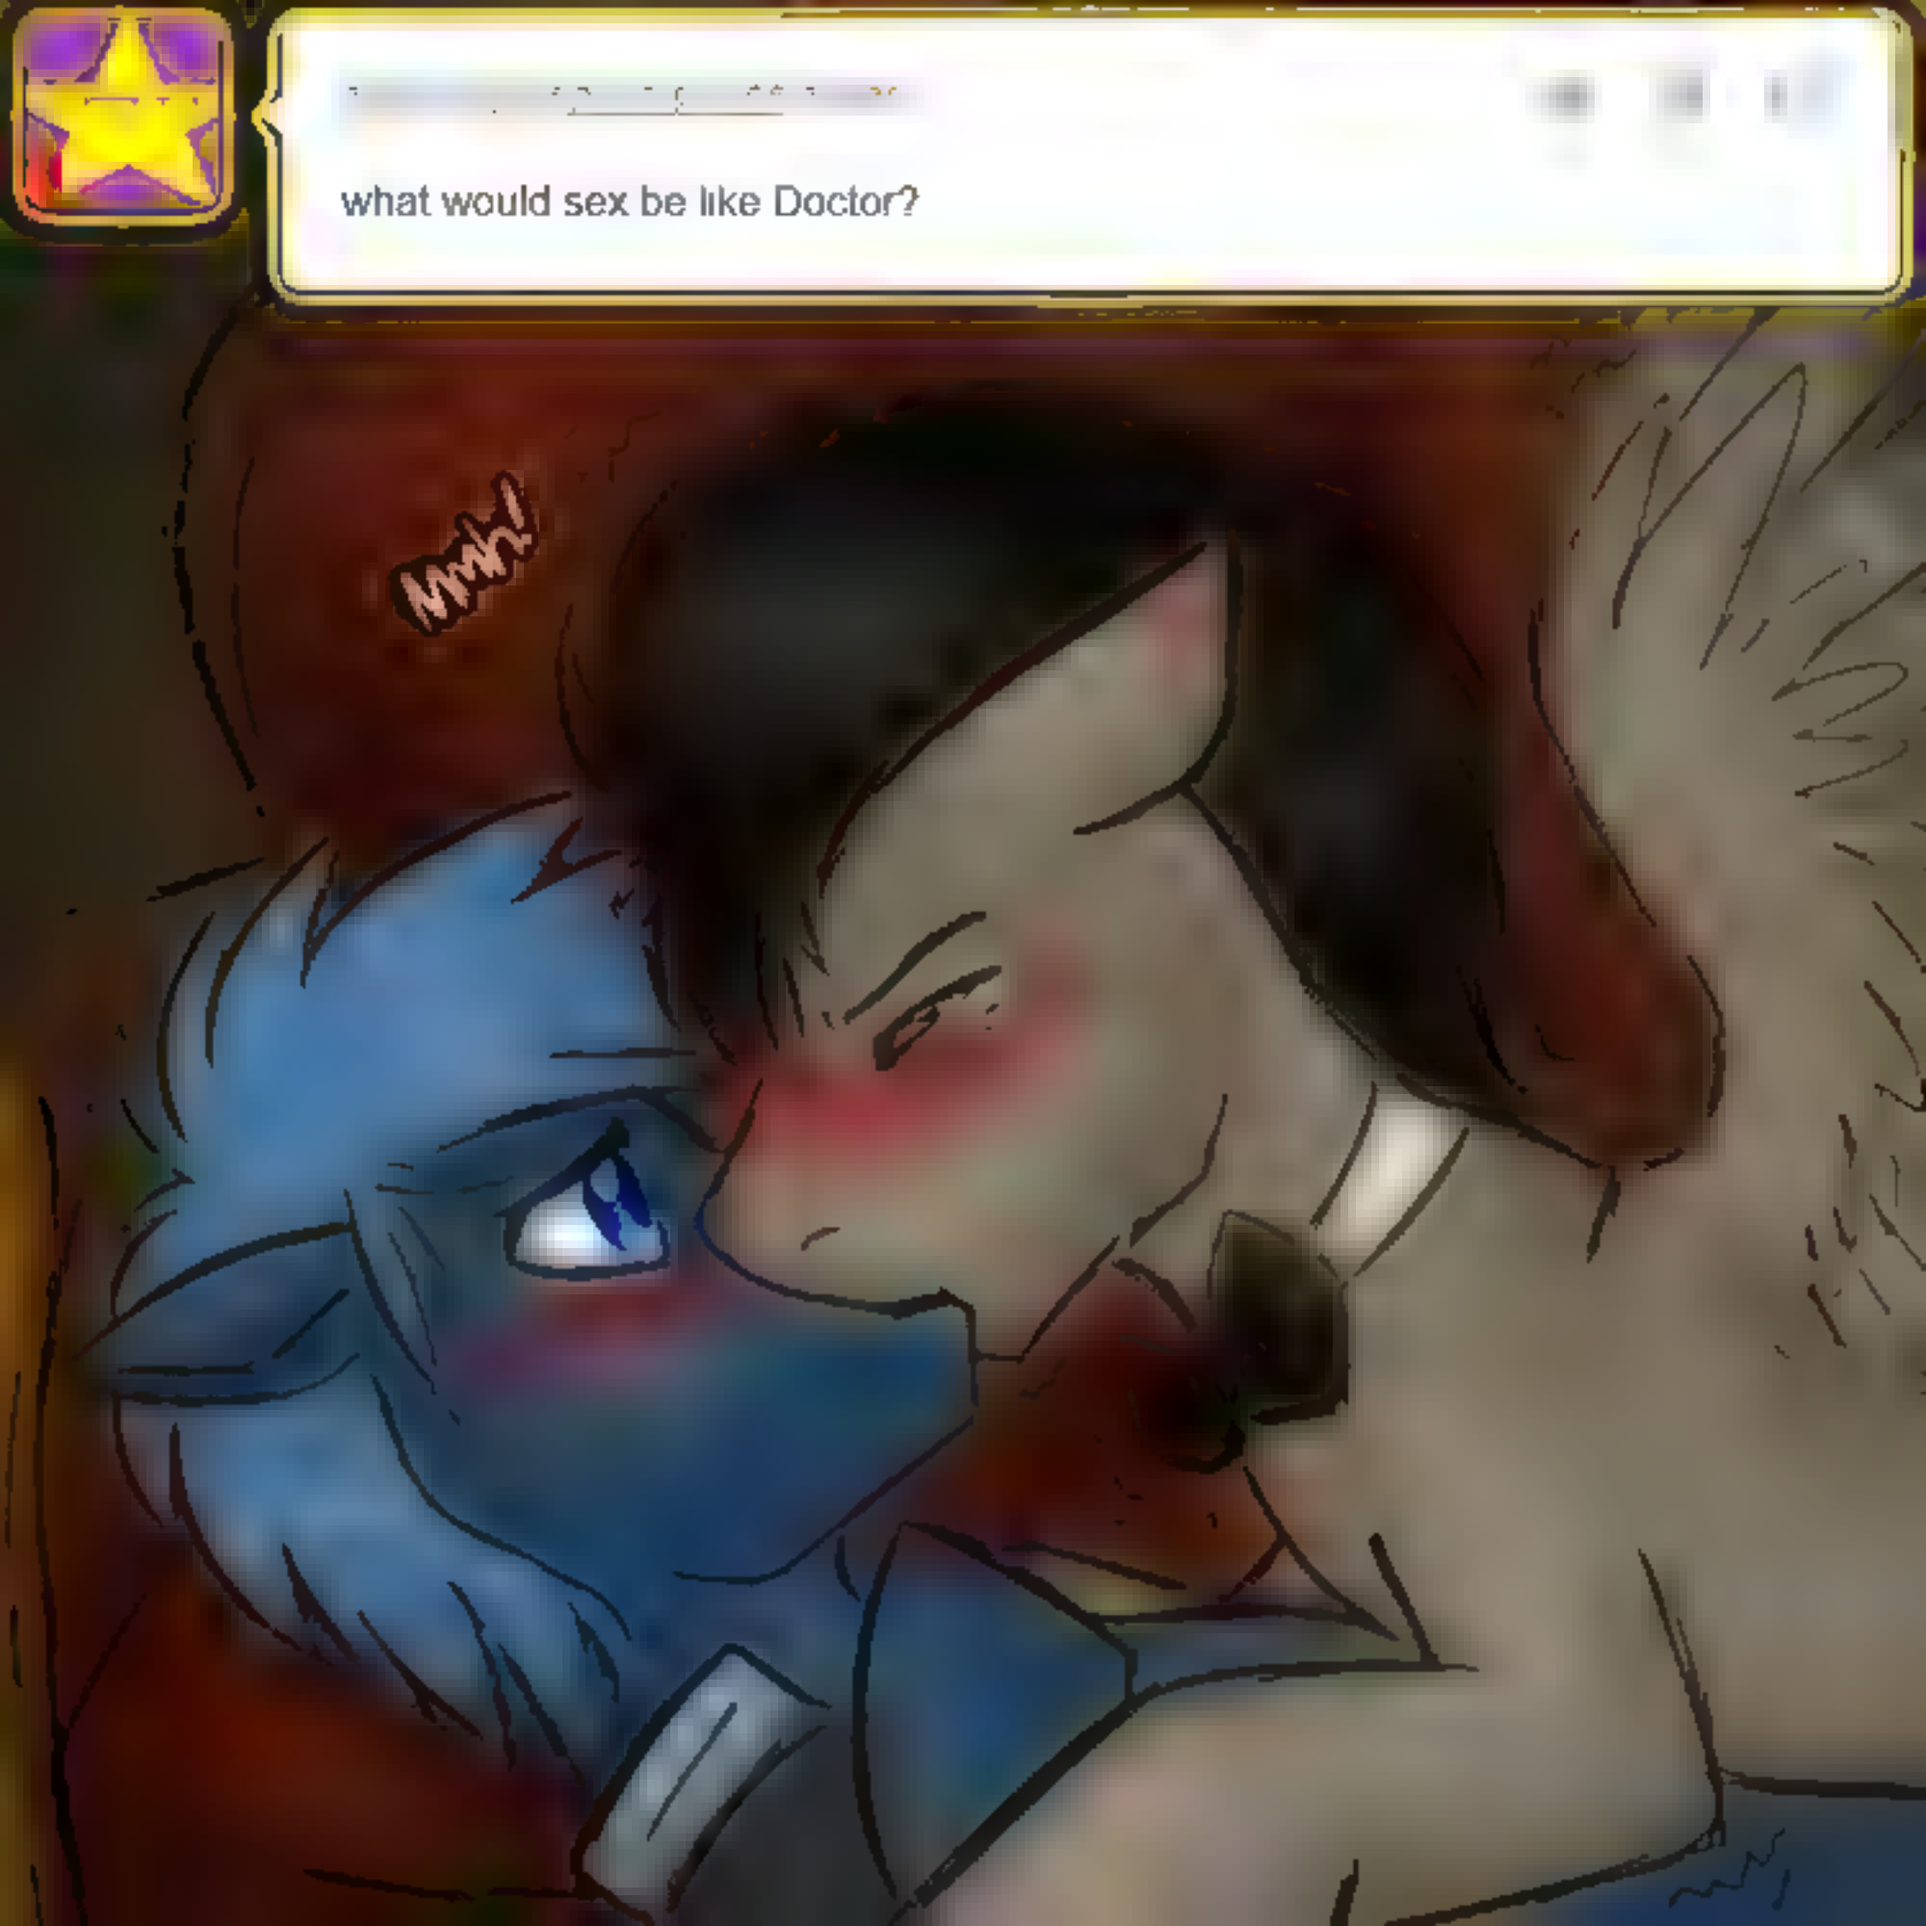
Wait— wait, something's really not right here— I can't believe I'm gonna do this...



Stop.
As much as I wish this was happening, you're not... you... So I can't.

Doc, don't let him refuse you He's not doing it for your sake he doesn't think you're enough You're a coward Why would someone like him want a coward?
D-Don't you want me, Jack?
You of all people...

what would sex be like Doctor?

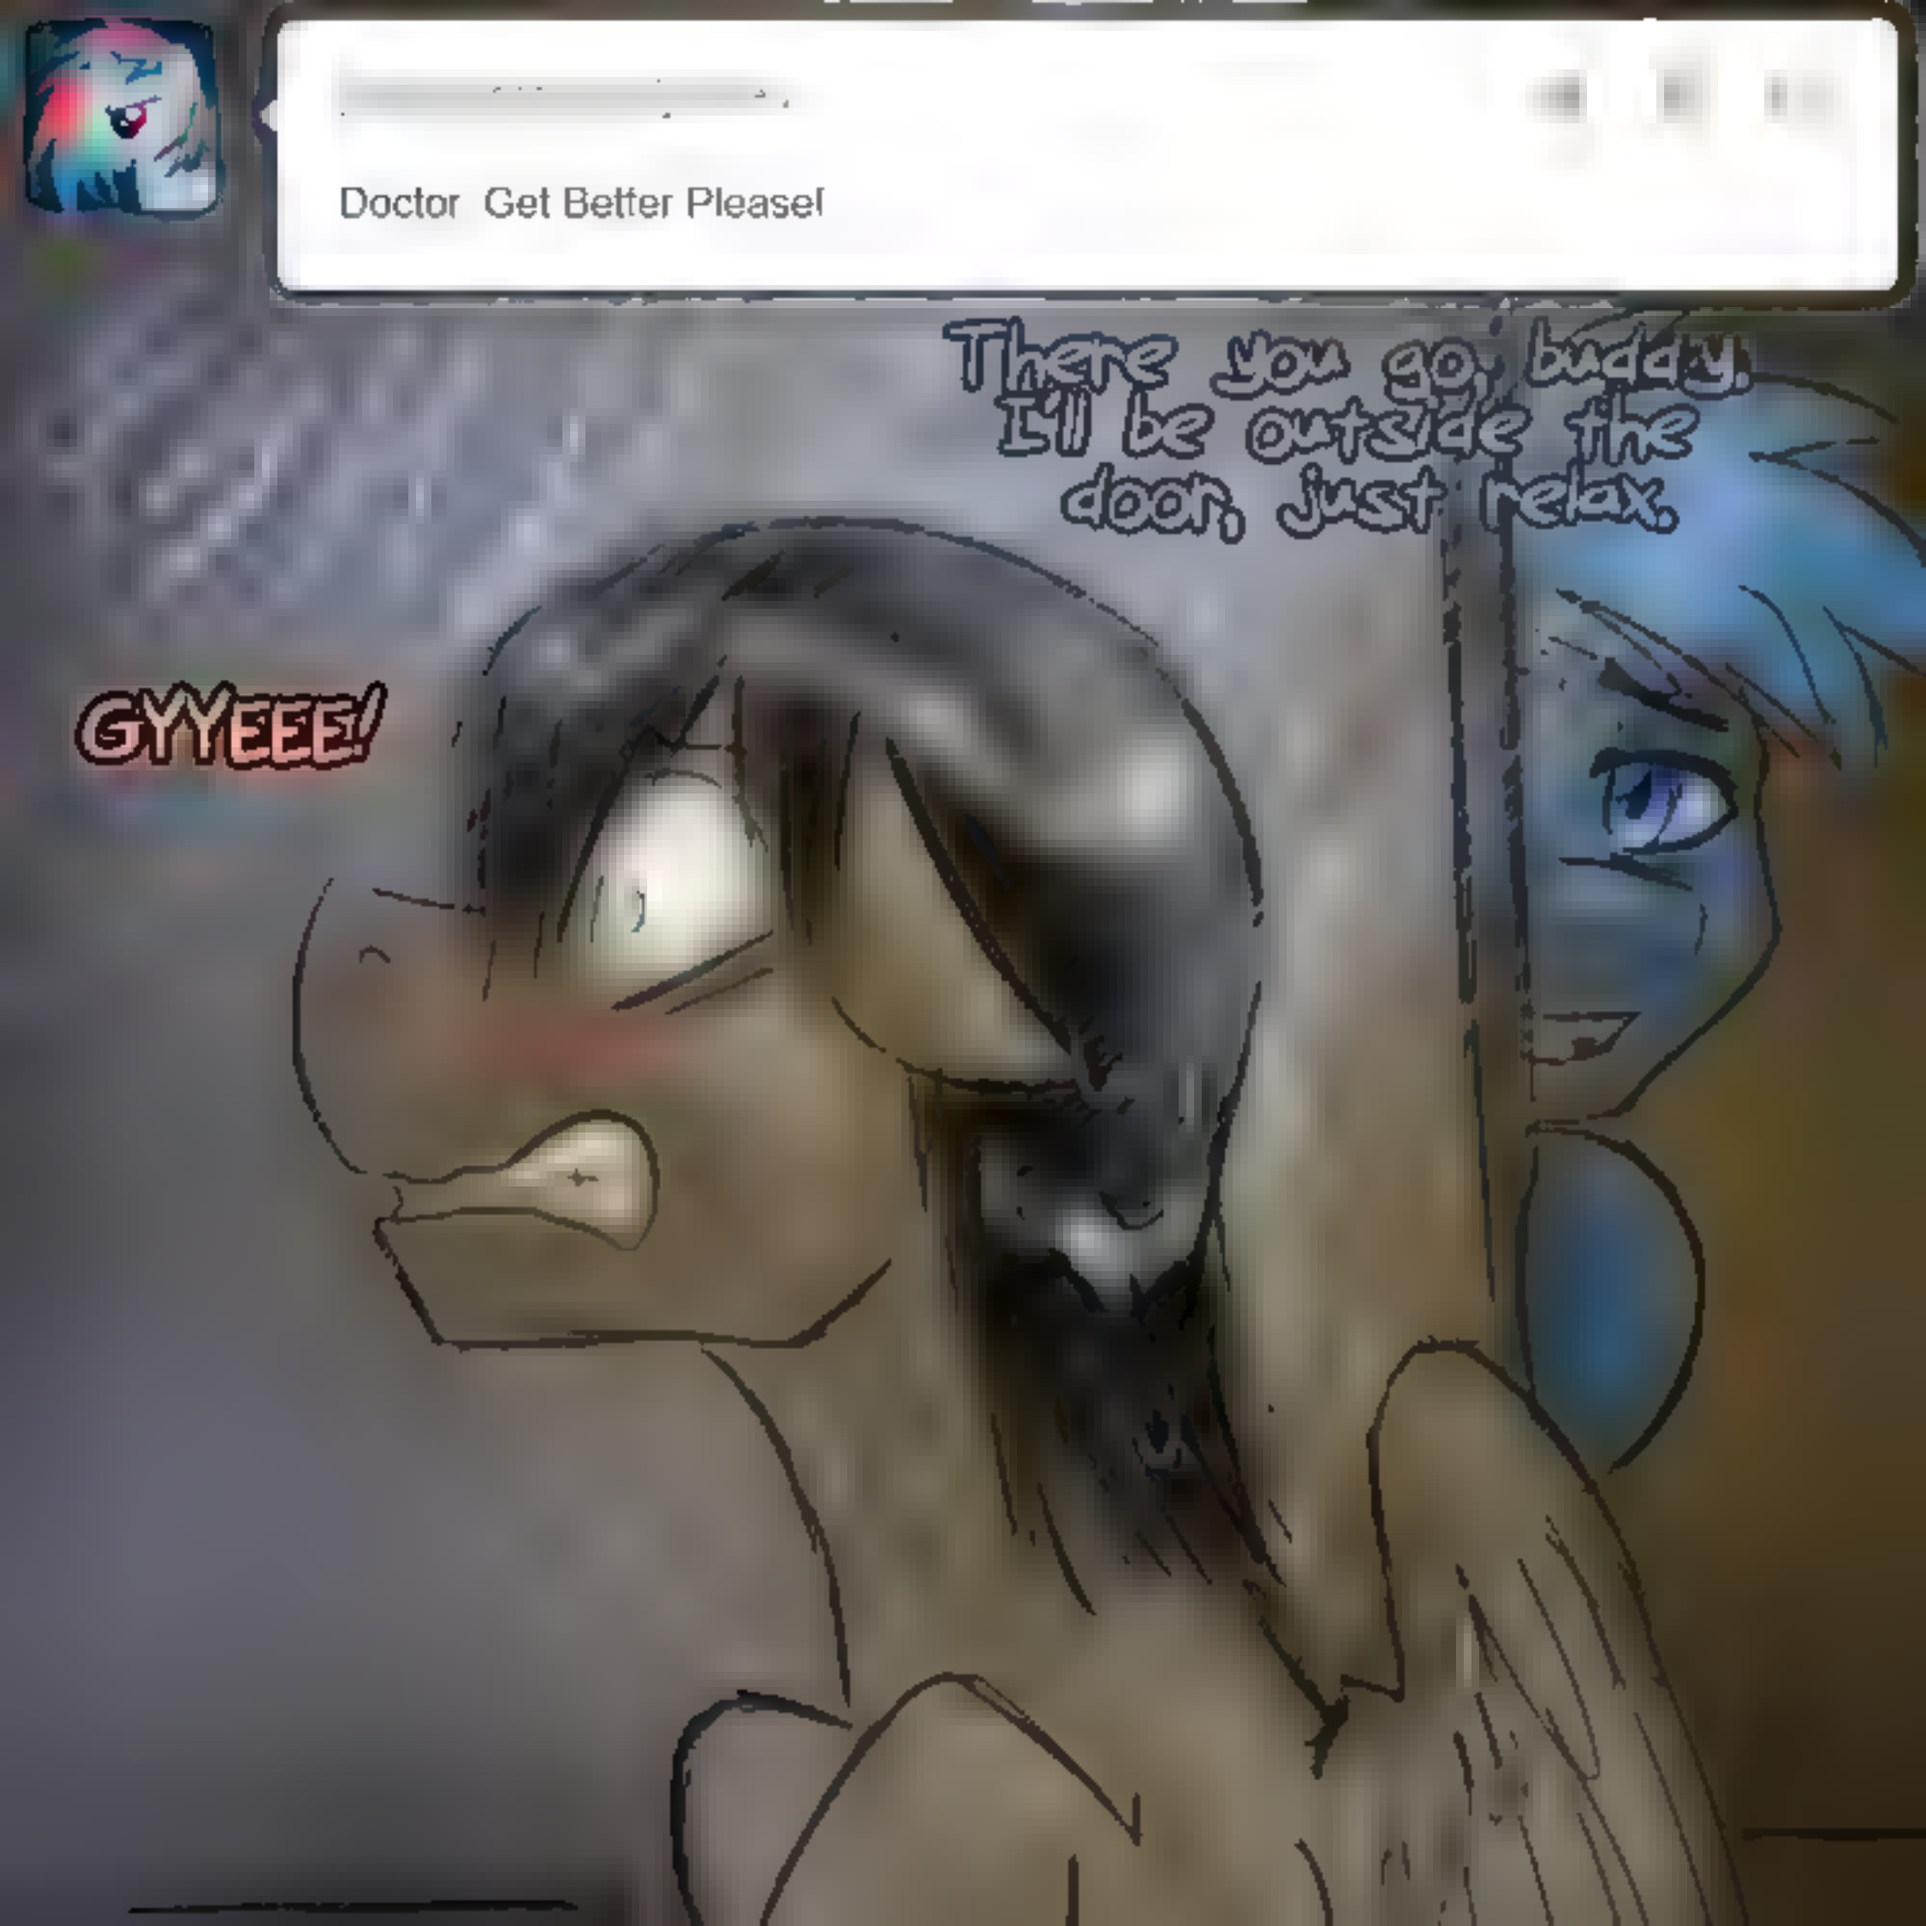


Jack, he might be trying to get out of answering the questons As you know he has had a rough past and you need a way to get to him!

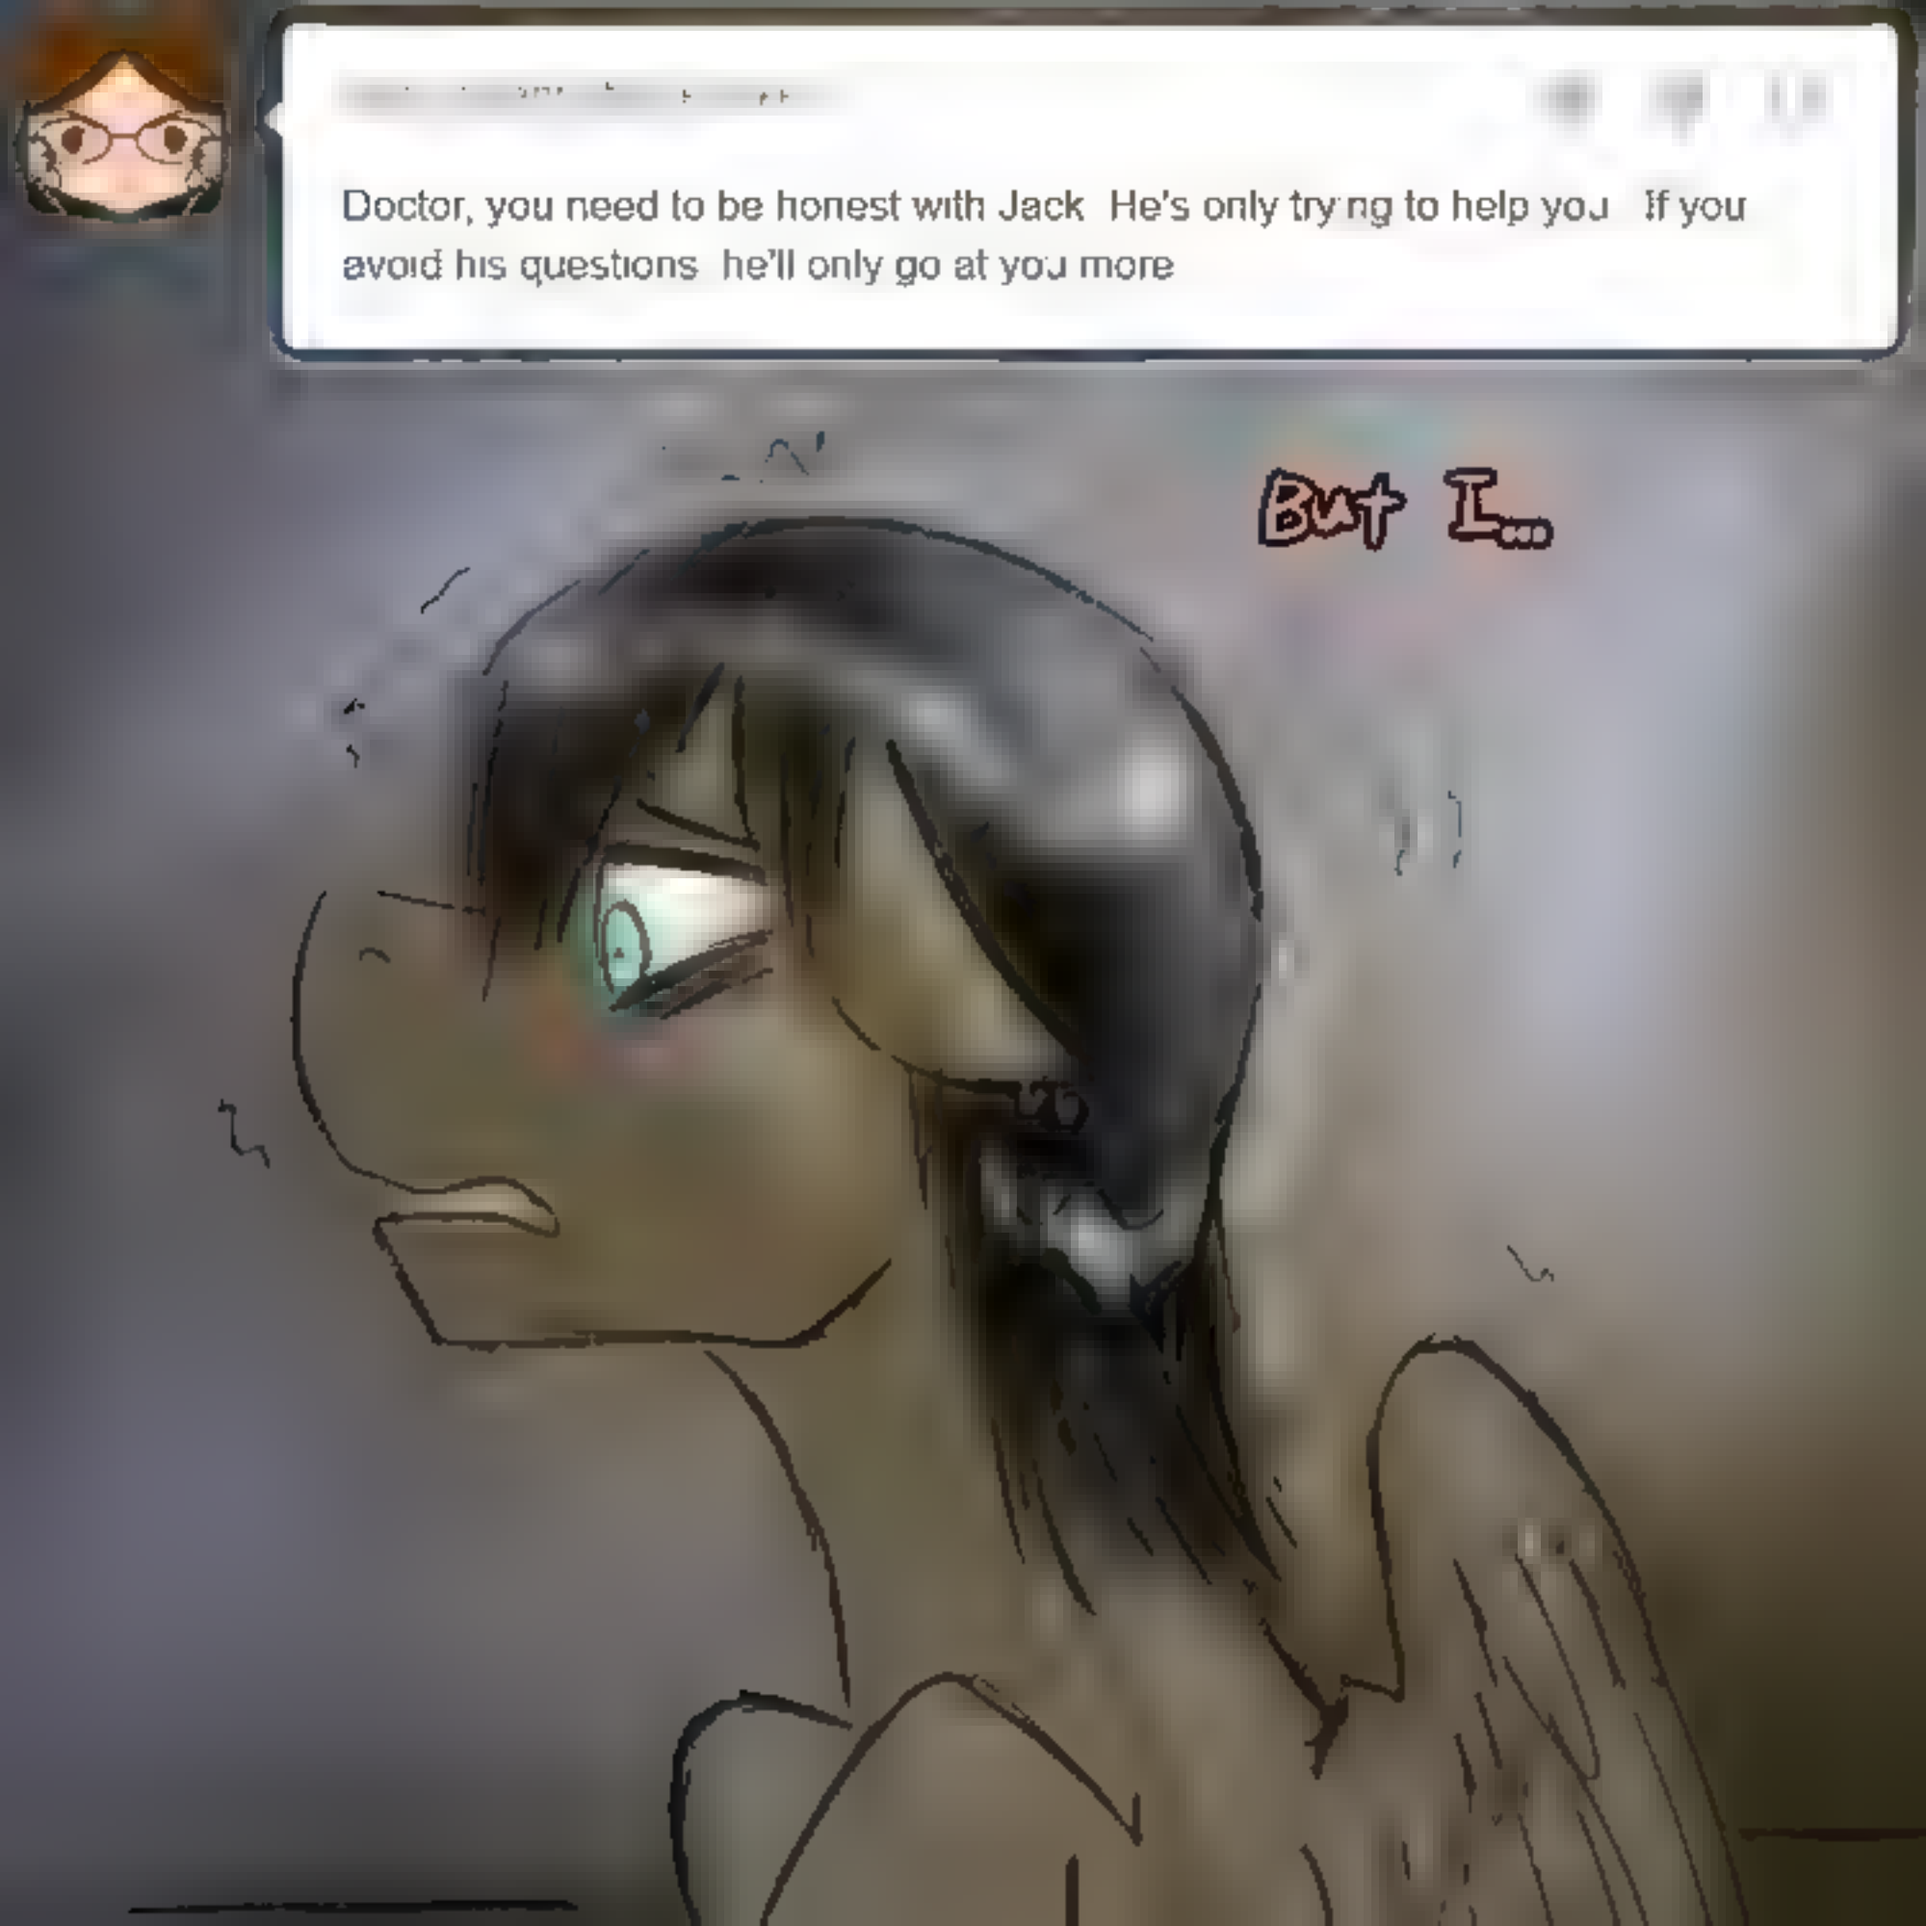
Jack Be carefu The Doc might be a l'l' Unstable
There you go, a good 51st century kiss, that should hold you over for a while...
Now let's get a reading...

Snap out of it! Now really isn't the best time to get all sexual
Doctor, you're not well! Listen to Jack!
Doc, your hormones are WAY off. Your testosterone alone is completely haywire... sex isn't going to help something this bad.
Bu-but if it's with you then-

Maybe the Doctor should get a dip in the pool or something to cool himself down
I've got a better idea. You know what you need? A nice, cold shower.
Nnn...



Doctor Get Better Please!
There you go, buddy. I'll be outside the door, just relax.
GYYEEE!



Doctor, you need to be honest with Jack He's only trying to help you If you avoid his questions he'll only go at you more
But I...

I'm scared...
I'm so scared...

Jack, I'm pretty sure that was a once in a lifetime opportunity I'm very proud of you But why give that up? I mean I'm not complaining you did but Hard to explain. I'm proud of you
Jack, you are such a good friend to the Doctor Even though you want to, you want to help him That is being a true friend
When it's The Doctor, you'll sacrifice anything...

Jack, the Doc needs to tell you everything No secrets You can't be told everything by us
You're right, but getting him to talk is a challenge... and I don't think it's his fault. Something's holding him back.

I suggest paying attention to the Doctor's appearance Think, other than the cuts and bruises, what was and is different about the Doctor's appearance since he left the TaRDiS?

"Captain's log. Doc seems more chipper than usual. That's a relief. He's so bright he almost looks gold instead of his usual tan."
What...?!

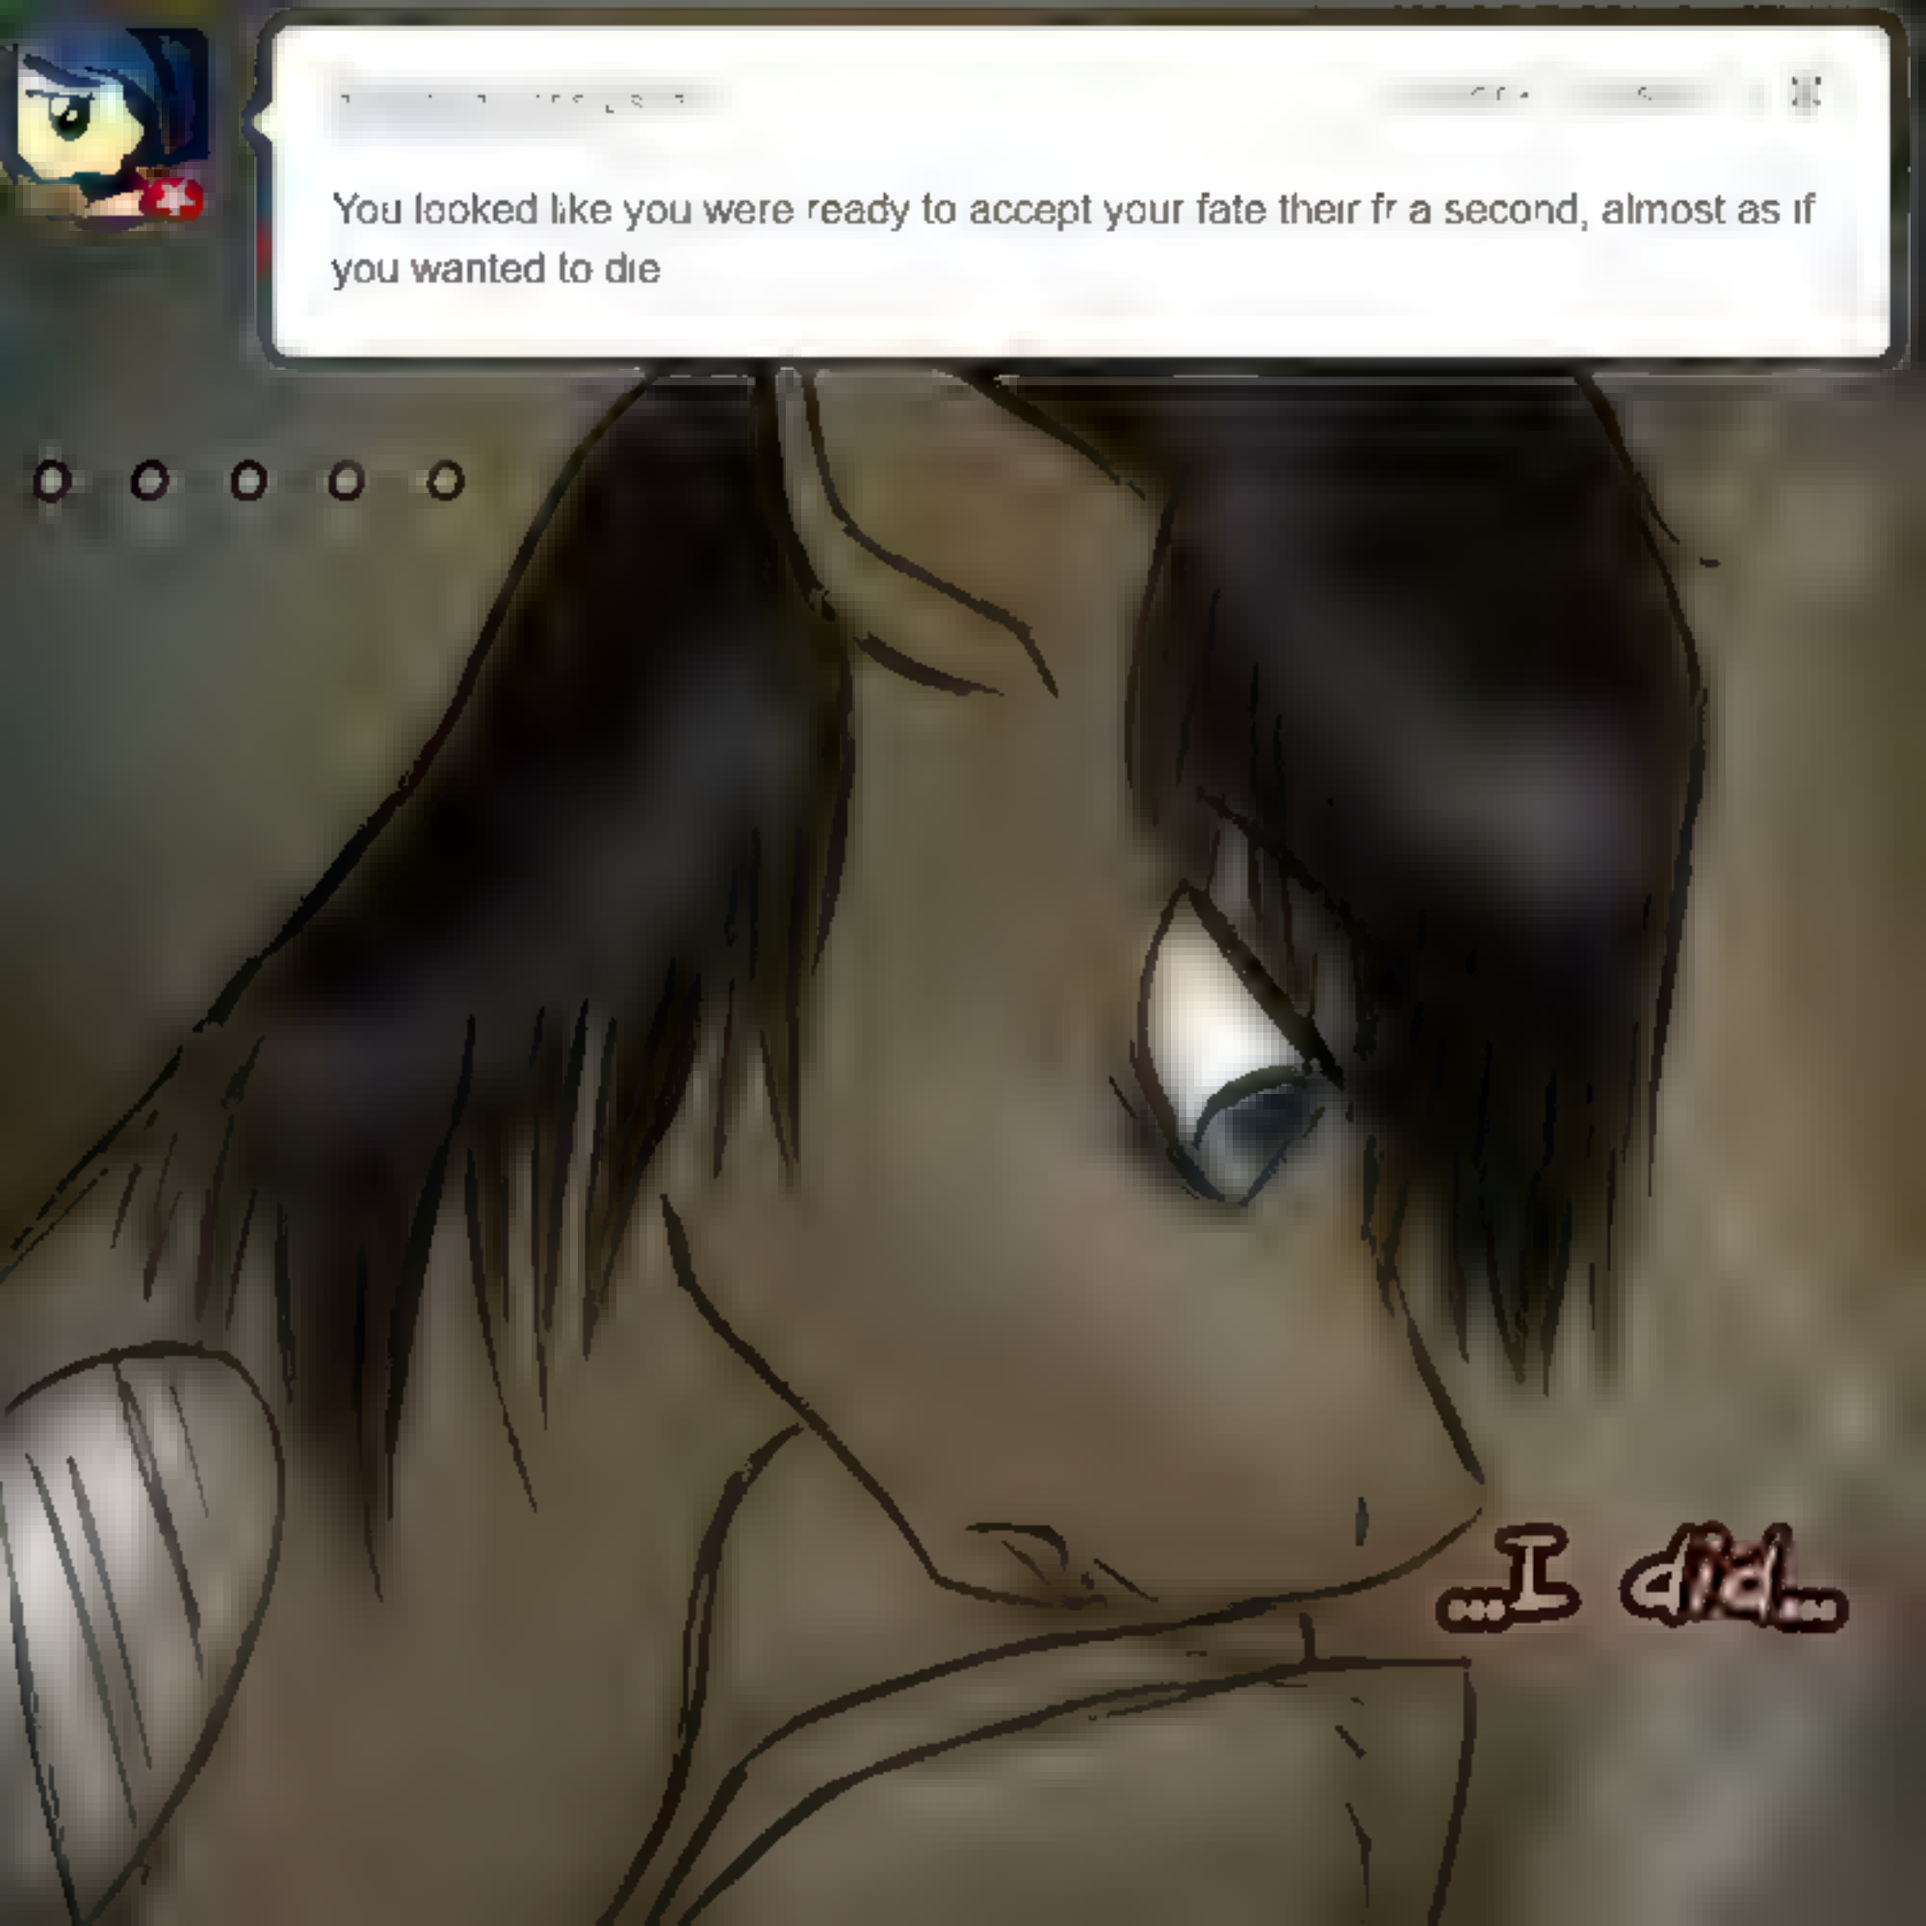
So you tried to assult Derpy in front of your own kids You deserve to be alone you scum
Oh, here we go...

So s nce you've been basica y beaten to a pu p by a mere child. how's your ego doing? And are you starting to reconsider the negative th ngs about Ditzy and try positive thing wth/for her?
So beaten by a little filly filthy rubbish you should fee shame for yourself
nice job doc you not only got beat by a fi ly but it was your own kid
She's not my kid, she's technically not a filly, and why the hell would I be positive after THAT?

So what are you going to do now, knowing dinky is on patrol?
So doctor what are you gonna do now since Dinky doesn't wanna see you ever again?
Not go back ever again, obviously...

Horrible little weak nothing. Beaten to a pulp by your daughter. How pathetic! Serves you right though, and don't try to think otherwise. You thought you could walk like some tough shit, and do as you please? HA! Reap what you have sowed, you little shit!
You had a chance to make things right and you blew it. Are you really so far gone to let something like this beat you? It doesn't matter now, Derpy, or Dinky rather, will never give you a third chance. After all you've done, you were lucky to get a second chance
Yes, I get it, never see them again, good! And for the last time, she's NOT my daughter!

Oh such a sight to see The Broken Doctor Does it hurt to suffer? Does it hurt to see those who you held close hurt you? This is what will happen to fools like you, who chase after something that is naught Abandon hope dear old Doctor, your time is soon to come



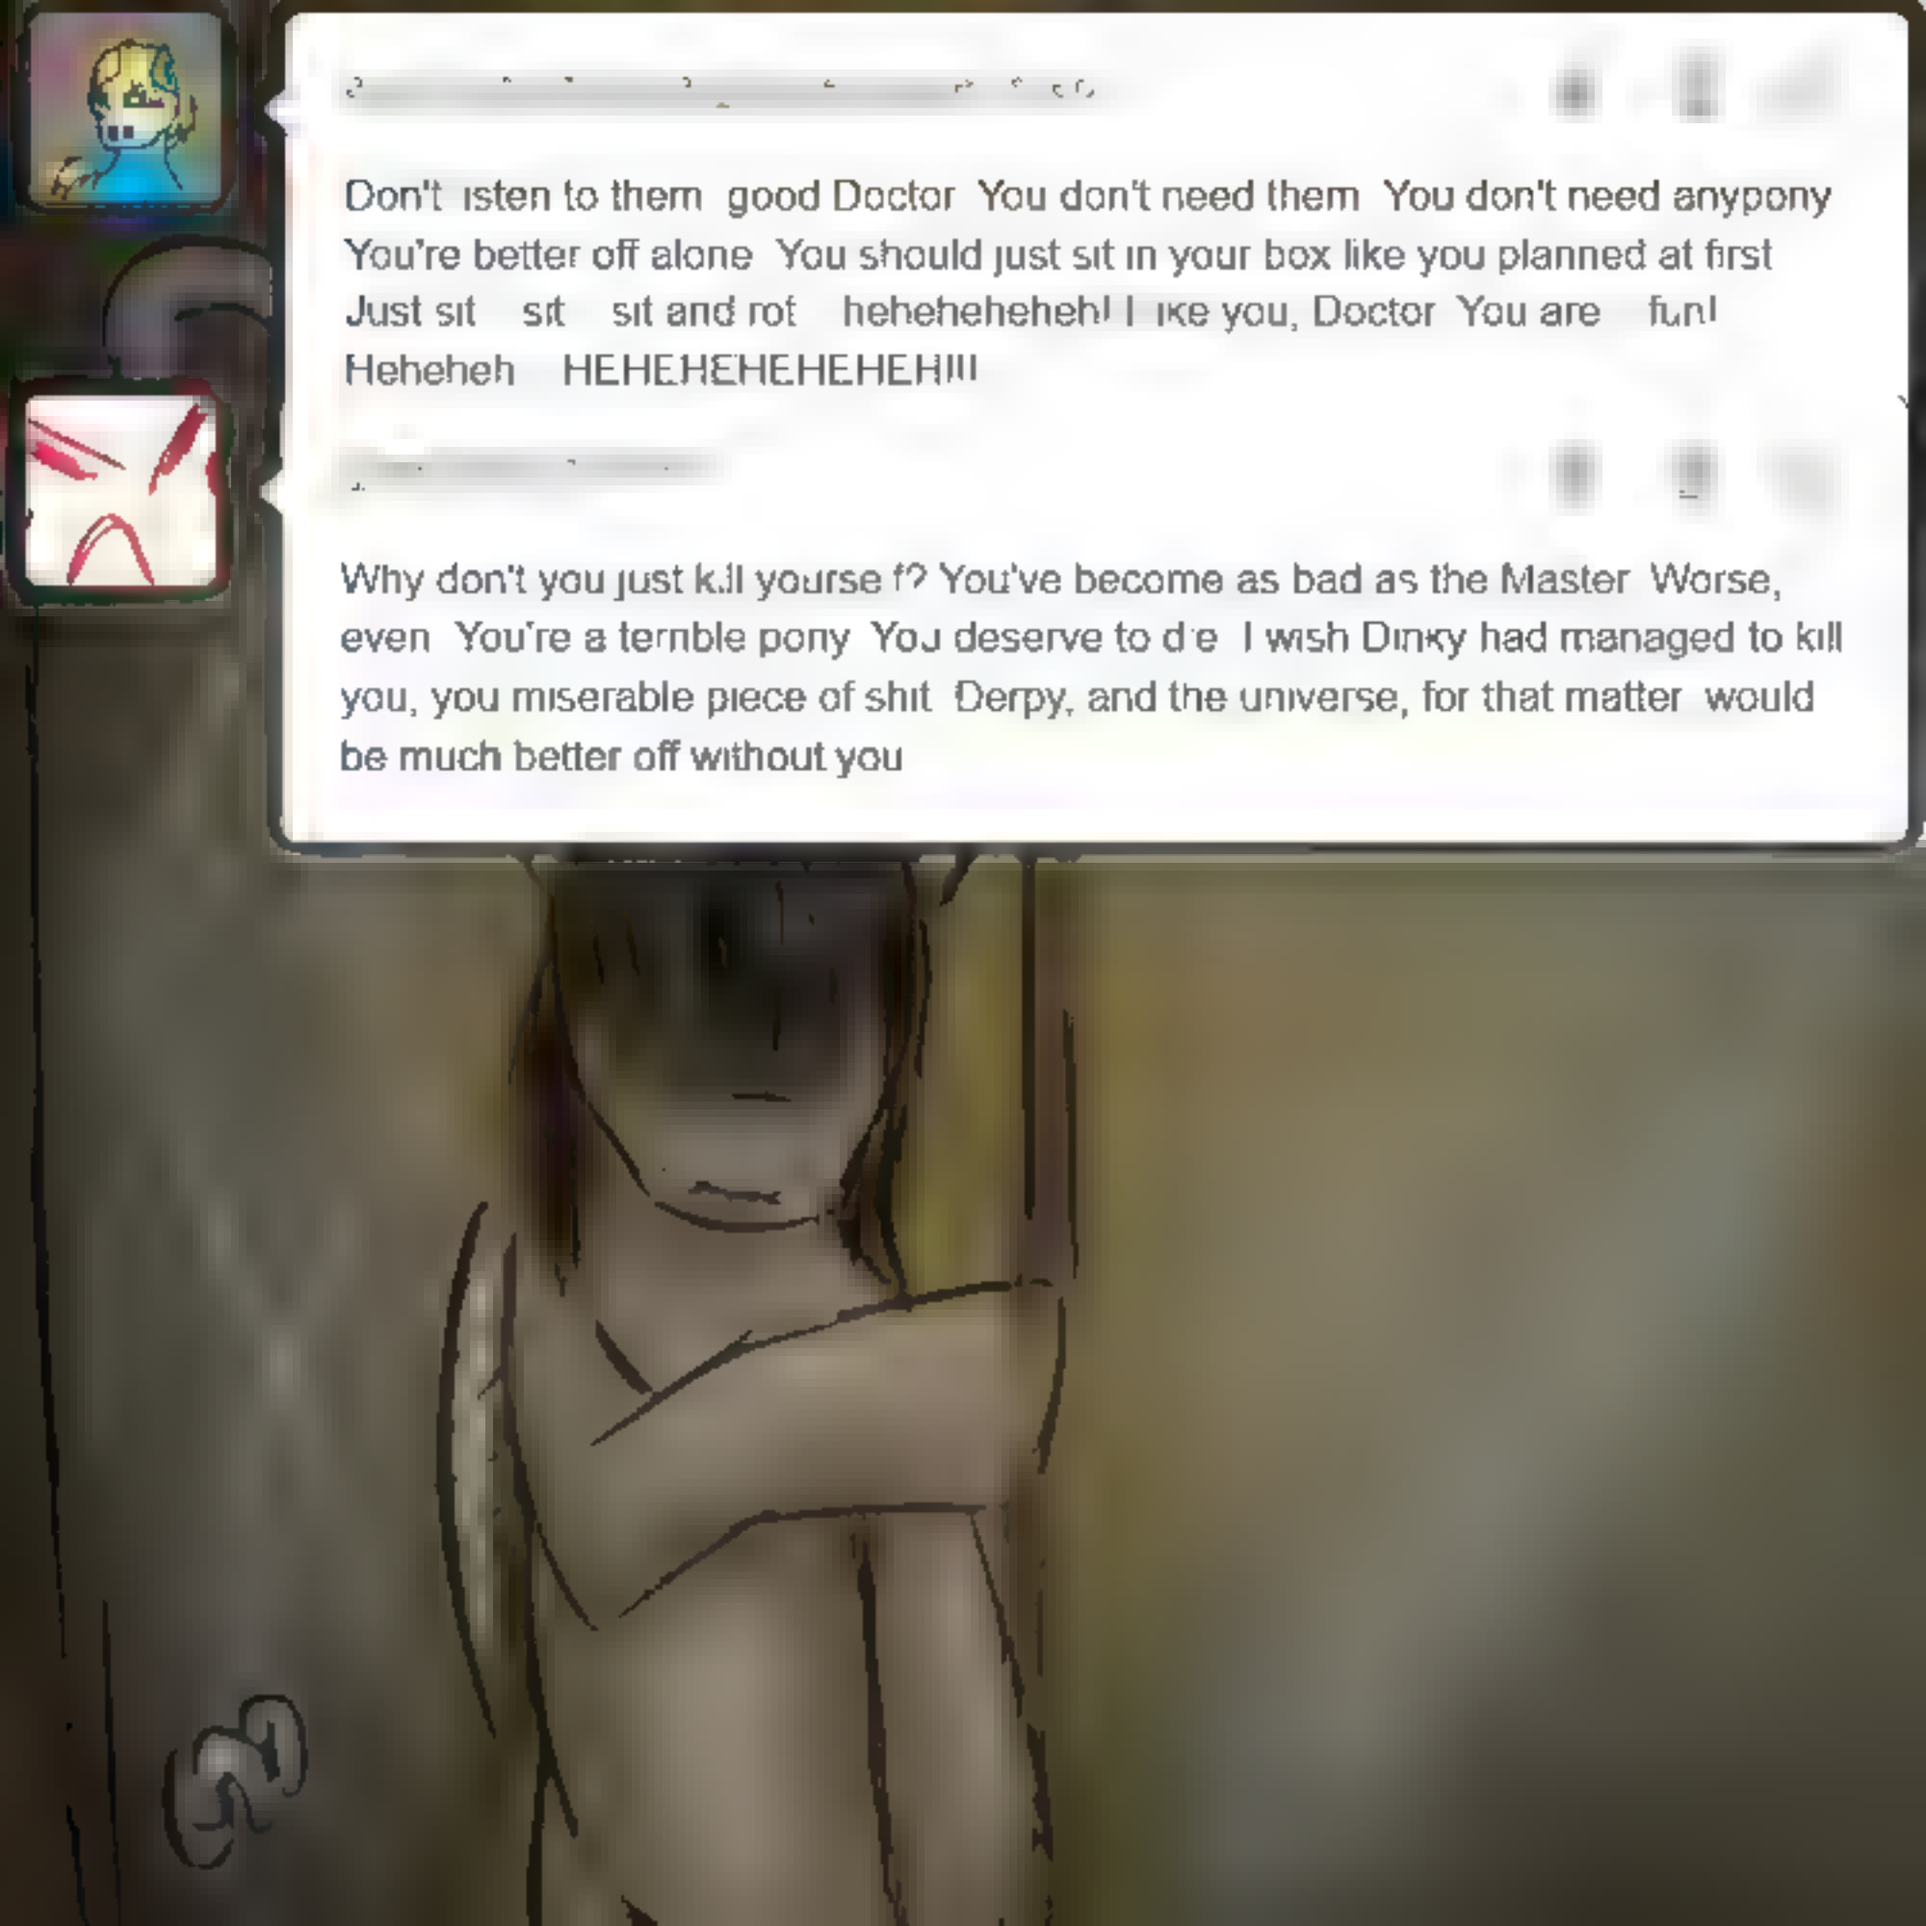
You looked like you were ready to accept your fate their fr a second, almost as if you wanted to die
...I did...

How are they 'not technical' your kids are they your kids or not???
Hey Doc, what did you mean when you said that Dinky's technically not a filly?
I explained this before. They were loomed, and not mine. Derpy and I visited a small colony consisting of genetic copies serving a selfish egotist who stole a loom for himself.

She got caught and used like the idiot she is, and that's how they were created. Genetic flaws taken from her genes.

Doctor, have you asked yourself who you are? Honestly, and don't give yourself the "I'm a terrible person because I am" because that's garbage unless you really believe it. Look at yourself and ask yourself what kind of a person you are
I lost sight of that a long time ago... I don't know who I am anymore.

Grimz So doctor Would you ever commit suicide? You still have the gun right?
I do have it, but...
I'm too much of a coward to pull the trigger...
Pathetic.



Don't listen to them good Doctor You don't need them You don't need anypony
You're better off alone You should just sit in your box like you planned at first
Just sit sit sit and rot hehehehehehh I like you, Doctor You are fun!
Heheheh HEHEHEHEHEHEH!!!
Why don't you just kill yourself? You've become as bad as the Master Worse,
even You're a terrible pony You deserve to die I wish Dinky had managed to kill
you, you miserable piece of shit Derpy, and the universe, for that matter would
be much better off without you

"Courage isn't just a matter of not being afraid. It's being afraid and doing what you have to do anyway." Do you know who said this, Doctor? You did
No, a great man said it. I am not a great man.

Doctor, please don't say things like that No matter what OTHERS may want you to think, there's still that light inside of you that makes you good Just don't give up, Jack wants/needs you around like he always has Just trust Jack, he'll help you like he always does. he'll be there for you.
Jack...

He's all I have left...

How long have you been keeping that log, Jack?

Jack. why do you think you forgot what color coat the doctor was from before?
I don't know. That might explain why I always feel 'off' looking at him. He's not right.

Jack Remember what you sa d eal er about looking at him feeling like ooking Ike psychic paper? I th nk you're on to something Log th s incident for later so you dont forget, but for the moment, you need to be talking to the doctor
Jack, would a perception filter exp ain why you haven't noticed the Doctor's color changes?
Perception filter is too simple. It has to be bigger than that. How much bigger, I'm not sure. But I'm going to find out.

well jack the clues are coming but think you need to do more research on equestria if your going to get answers
Hey Jack I'd do some research on the past King of Equestria Might lead to something and what's wrong with Doc
Research when I can. Got it. Hopefully his library has something.

Jack he said something about discord I think u should look up for discord and see what comes up
Discord. That did seem like something that was nagging at him.
I'll check in on it once I know he's recovered a bit.

"Captain's log. The Doctor is gray, it seems odd. Perception alteration of some kind. Hormones out of control. Research 'Discord' and 'Equestrian History'."
beep

Oh, how you
feelin', Doc?

Better...
S...Sorry about that... Thank you...
It's fine.

Don't worry Jack, we know you can do what it takes to help The Doctor. Pay attention to even the smallest things, it makes a difference. It may take a hell of a lot more work than usual, but he'll come around like he always does. He has you here with him after a
...How about a drink?
...I'd like that.

Drinking sounds like a good idea, Jack but be careful If the Doctor gets too drunk, he might make some foolish decisions
I'd advise caut on in having "just a drink" with the doctor Jack He's given himself over to excess n every form so he may go overboard
Don't let Doc have too much to drink He ripped a hole in time and space last time he was drunk. True story
Don't worry. I know what I'm doing. I was one hell of a drinker, you know. Still kind of am.

So Jack whats the best drink for "talking"?
A good shot of Bacardi 151, Everclear, and Southern Comfort should do the trick.

Jack, make sure not to pry too much, Doc might have another freak out. Try and get little bits of information out at a time
Relax, you're talking to a former con artist here.

Doctor can you brush your mane back? The way it is now, that hairstyle For some reason I think it just isn't you

You should fix up your mane, Doc. Seems a bit too neat

Doc change your hair back It makes me really uncomfortable when it's infont of your eye

Ooh, that looks good!

Hey Doc you should loosen up a bit, you had a pretty rough time there You should just sit back and take a breather with Jack, if I remember right you two never quite got finished catching up didn't you?
No, no I'm serious, they were triplets!
Hah, you lucky bastard.

Not really...
How so...?

Don't hold back Doctor tell your dear friend what's bothering you
What's NOT wrong?! I'm a giant lonely jerk in a box an' I'm miserable an empty an' I'm scared of everythin', I dunno who I am an I beat up my bestest friend in the whole universe an everywun hates me an' I jus' don't wanna but I keep doing all this horrible stuff an I luffed her ah wanna be a fagha I hink an I miss everfin...!
You're talking about Derpy, right...?

SHUH UP ABOU
THA STUPID
TRAITORY
FAT BUTT OR
I'LL KILLYA!

It seems that any mention of Ditzy triggers a terrible reaction in the Doctor. You might want to leave that question for last or risk him having another episode

I don' mean it ah sorry, I luv ya, I jus' miss her suh bad an I'm a -hic- stinky je-her-herrkk- hic!
It's okay, we'll talk about something else...
PAT PAT
Uuu..Buhuoo...

Doctor, I hear you like naming things. We all know you call Sparkler "little Amy", but what was your nickname for Dinky?
:Sniffle:
I used ta call her Firecracker but now she hate me an I'm the worst a-an-and—
HIC-
:HIC SNF:

Jack, when you've loosened him up (Wait) ask him about the following
Twilight, The Master, and finally Derpy Don't mention Discord too soon, it'll likely get him to clam up again

Where is the master anyway?
Doctor, I th nk you shou d talk to jack about the master, he is going to find out that he is a.ive sooner or later right?better if he heards it from you
I dun care where tha' jerk is as long as he's far awaey frum me! Stupid blueballed ken doll...

Doctor do you have any ideas who could be responsible for the murders?
hey doc if someone is taking Unicorns horns then couldn't he/she be try
Doctor who do you suspect as the killer? I
doesn't look like a normal homicide does
bet it's right in front of you
Do either of you think it's time you got back on that murder investigation? I have a feeling the murderer was trying to get your attention Doctor are you going to listen?
What do I gotta solve efry murda mystery that comes mah waey? Wha you tink I am, Sherlock Holmes?! I's jus' some stupid pony who wans attention n' as long as is not in Ponnyville ah dun care!
annoying
Doctor

Doctor
asus right? Allons-y?

Why not te Twilight about this? Surely she might understand
Doctor maybe you should visit Twilight It might be good for you dear
Alright Jack if the Doctor can or wont tell you what is going on, ask Twilight about Discord she might tell you She and her friends fought him
Doctor, what about Twilight...?
Tw-Twili--...
Muhhh... I can't, m-my marshmallow...

Twilight Sparkle would be SO proud of you abandoning innocents in need and all that
Doctor did you forget about Twilight? Did you forget about the child she raises?
She's suh lonely an' I'm only making it wurse for her suh I thut I'd make her happy fur one last time wif the baby an I'm runnin' away...

Wait, you're... Leaving her...?
I- hic- I donnow right now, I jus wan her to be safe n happy n I'm not good fuh tha', jus look ah' me...

You claim to not be a great man However, someone once said, "Don't try to be a great man Just be a man and let history make its own judgments "
Thas all I wanna be, I jus wanna be me n' I'm tired of bein' the Doctor, jus lemme be a John Smith or whaever a pony of it is...! Is tha' too bloody mush ta ashk!?

WAAAH!!!
B-BAGUDA-HUUUAHWAA~AAAH!!
-sob-
hic-hic
-bawl-

Jack I think that's enough questions for now Maybe you should let the Doc rest some
I'll be back soon, just relax.
HIC
O-okay...

See Doctor? Doesn't it feel better to have these feelings on the outside, so someone can help you? You've done enough for the world, it's time for the favor to be returned
See? Is tha' so hard ta undastand? Jack undastans... Cuz he's mmah frien'...
-Sniffle-

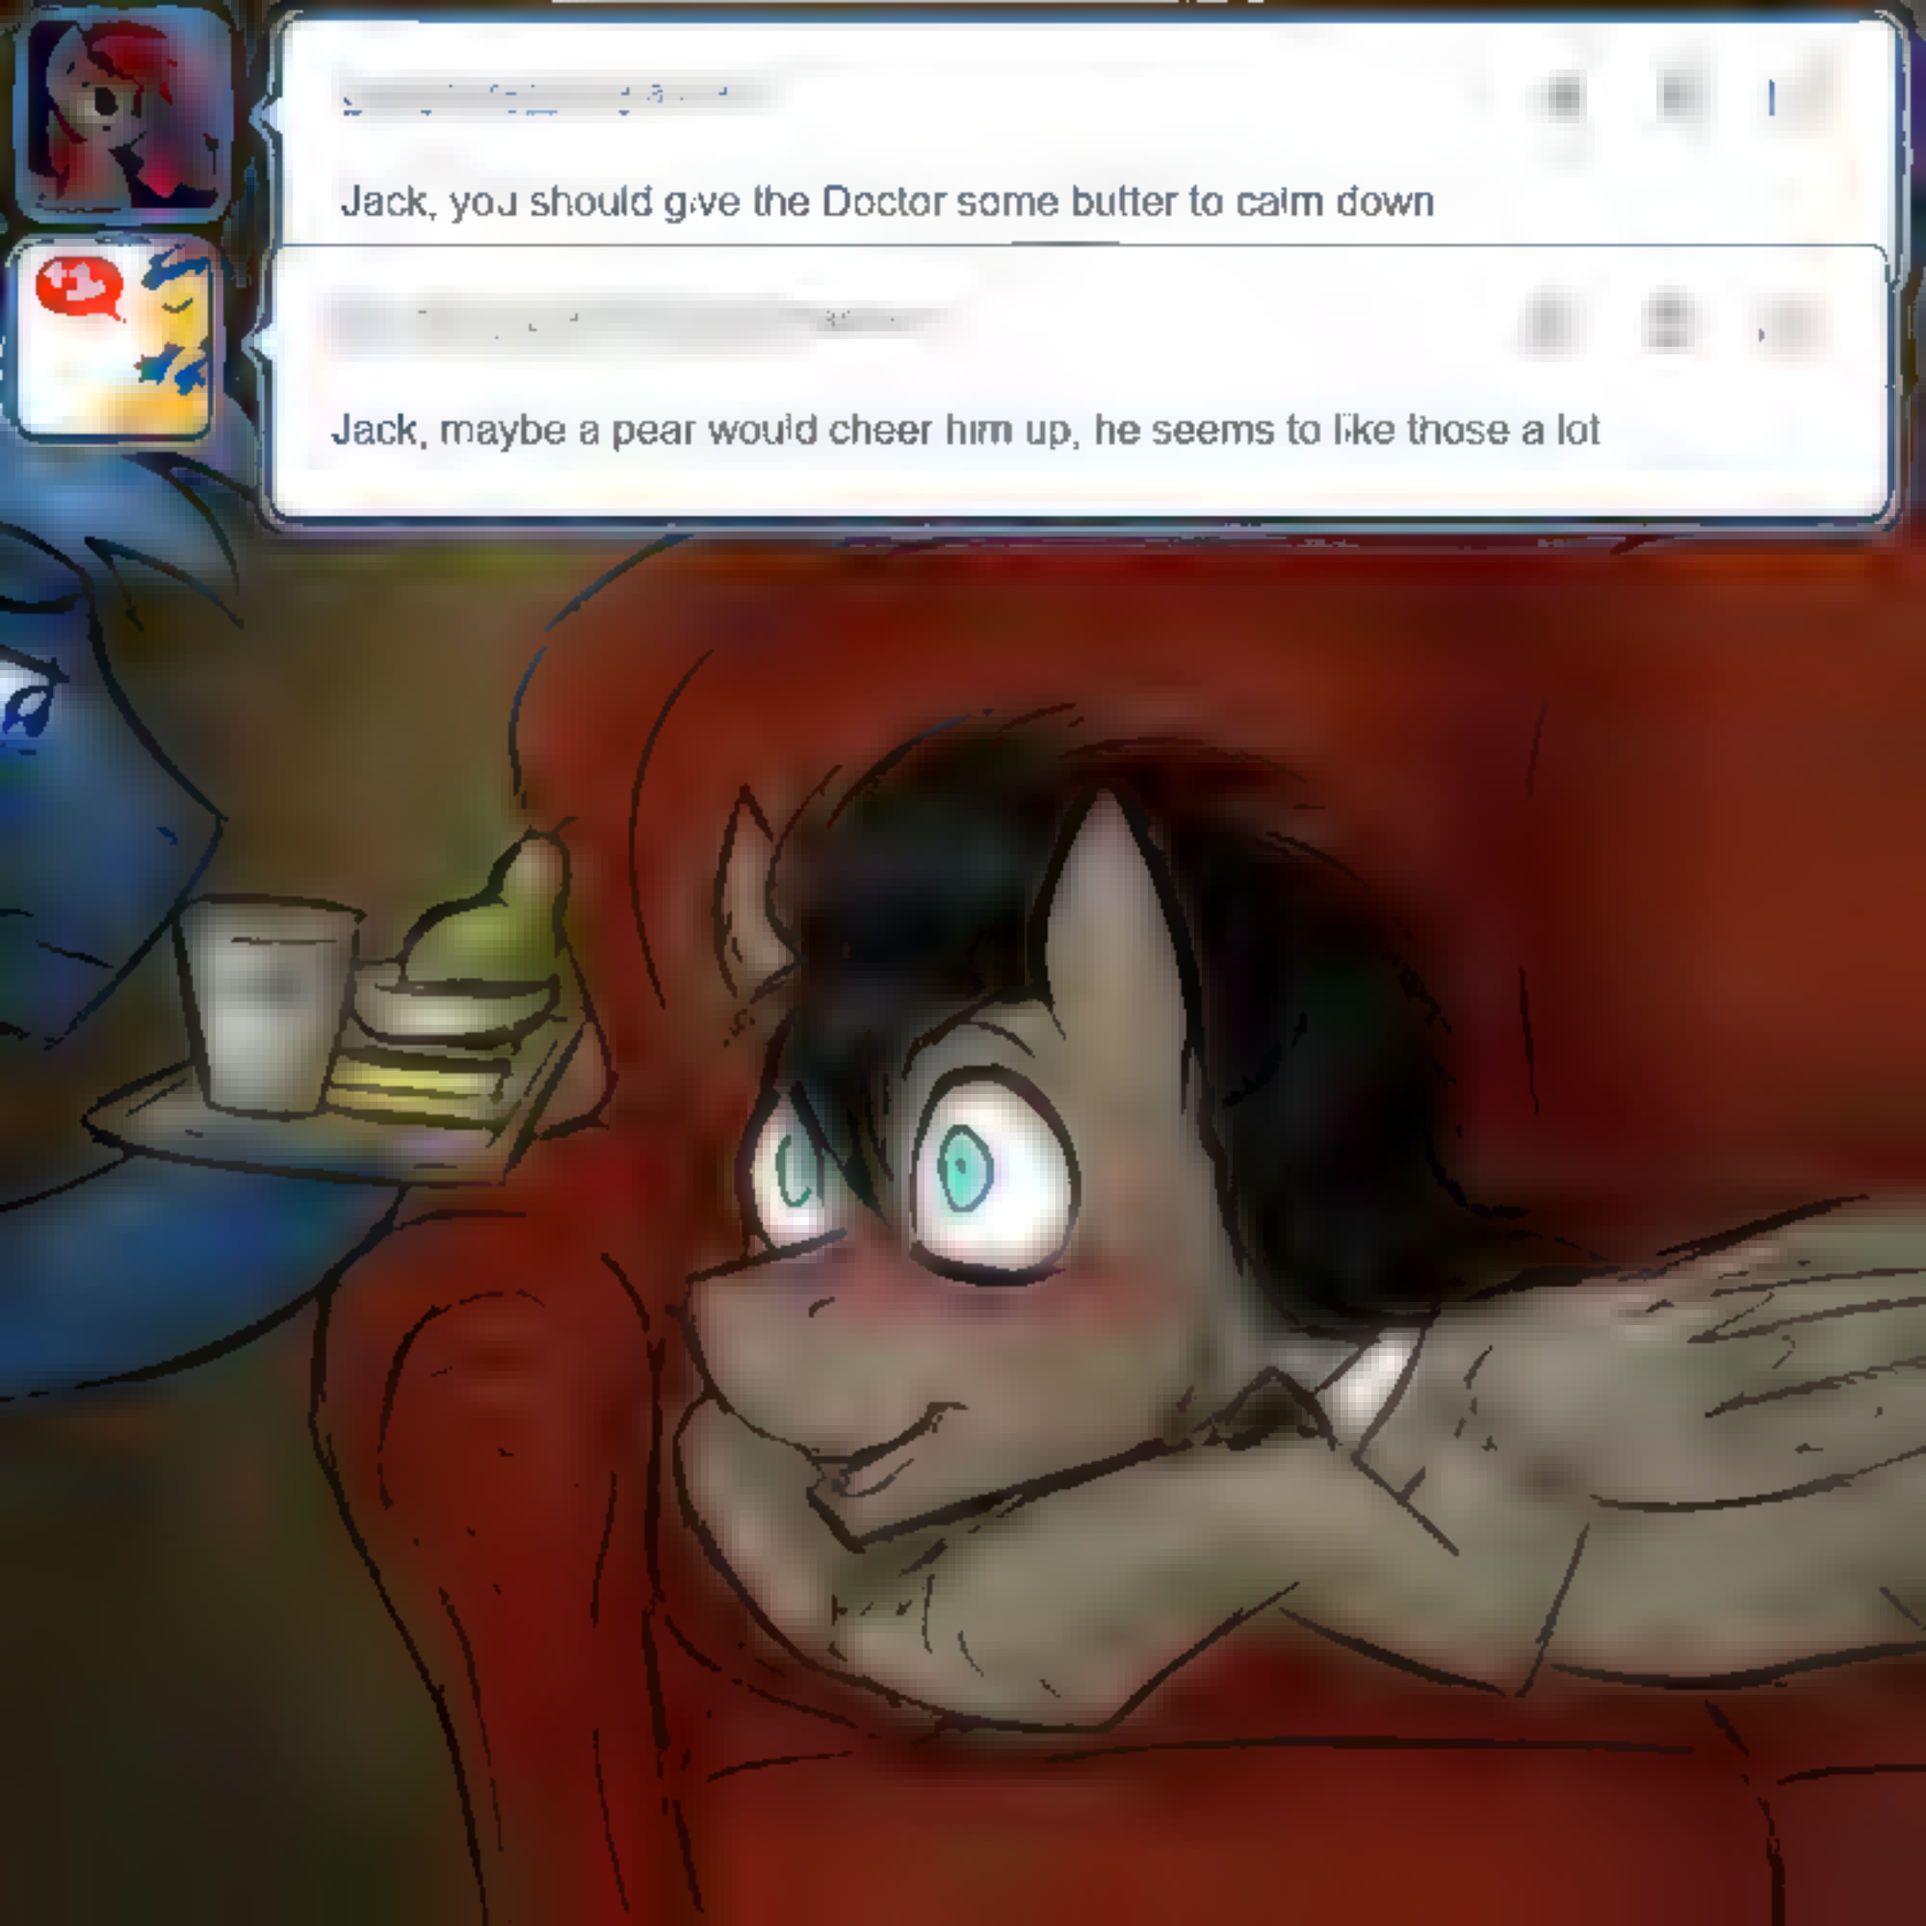
You've honestly been thinking of breaking it off with Twilight? Why are you so determined to cast away everything good in your life?
I-- I keep usin' her as a crutch to my dumb problems an' is not fair ta her because she luvs me an I... I... donno if I... can return tha...that...

Don't just leave her alone to wonder where you've gone! Be a man, sober up and tell her
'M too scared... couldn't bare to look at her if I did...

Doctor what happens when Lightning Blitz is given back to his mother? Then Twilight will be all alone again
I-I-I- I dunno! I didn't think of--
Ohhh I'm the biggest scum I--
I shouldn't have gotten involved I--
I mess everthin' up!

You pathetic thing After ALL that's happened you just forget about Rose that eas ly?
OHMAGOD THA' WAS 400 YEARS AGO. IS CALLED MOVING ON, IDIOT.
You know what'd be pathetic? If I was still whining about her!

Kage If you want to stop being the Doctor THEN STOP BEING THE DOCTOR
We would all be better off without you anyways
I like ya. Ya yoooo... yoooou undastan' too, thankyaa... Youuu... You're a goo...good pon...alien....thing.... in a hat... Heeh. Hats. Love hats.



Jack, you should give the Doctor some butter to calm down
Jack, maybe a pear would cheer him up, he seems to like those a lot

I'll go get you a bucket just in case.

So jack do you think the doctor's gett ng better?
So Jack now that the Doctor has opened up to you and told you some th ngs, do you think his condition is getting any better? and what will you be doing to he p his condition get better?
It's too soon to say, but he admit a lot of important things that I might be able to use...

I don't remember him having this many moods swings the last time he was drunk
That's probably because he was drinking alone or didn't have a friend to cry on.

Hey Jack, what are you going to do once you're sure the Doctor will be alright for awhile?
So Jack, any bright ideas on how to get the Doc back to his old self?
I'm going to find out what sort of things trigger certain reactions out of him. If I find out what makes his mood best, then maybe we can get somewhere from there.

Jack. what if you can't help and it just keeps getting worse?
Don't say things like that.
I'm going to help.

he beat derpy intil she had a broken wing and several other broken appendages! C
With all you've seen and learned Jack, can you still trust the Doctor?
You're seriously asking ME this? Me? A guy who killed his grandson in front of his own daughter...?

Jack. I always thought you belonged at the Doctor's side. You would do the things he's not willing to do. The things he can't do. The things he won't dare. The things you must
You're right, but does that make me better or worse than him...?

Jack maybe we should avo d the alcohol? It's making the Doctor even more emotional Perhaps you should change up your information gathering tactics? Something that is less prone to making others wildly sob
Hmm, seems like alcohol wasn't the best opt on Do you have any ideas on how to get more information from the Doctor without him breaking down?
R-right, while I did get a lot out of him, this was just to break the ice... still need to figure out a lot more...

Clearly he's pissed at himself right now. He fucked up, and he doesn't know how to get over it. I'd suggest something to distract him, but if that would work he'd be fixed by now. He needs some way to face what he did without it killing him, and he's gonna need a hell of a lot of help for that
Distractions...
That's not a bad idea, make him focus on other things...

Maybe if you'd stop making Doctor talk about things he does regret and instead you tried to keep him entertained, he'd stop acting like that. He needs something to live for. He needs new life quest
Things to remind him of what made him The Doctor...

So Jack, How's the research going? Anything interesting come up?

Hey Jack If your going to do some research you may want to check out the
'Cave of Truth' I think it's called seems rather important

Ever consider that maybe the Master and the killer are the same person er, pony?

jack i think you should dance with the doctor after he has calmed down he likes dancing

Well Jack, remember that Doc said to buy him a drink and it would be worth it? Finally gonna take up that offer?

Dance, Doctor, Dance!

...I miss her...

hey Jack since you don't seem to be afraid of Opalcrab maybe you could get rid of it for the Doctor he's terrified of it
Whatever happened to that cat-crab thing?

throw it
out. Please

Hey Dissy you're a huge jerk who deserve to be molested by opalcrabs
GYEEEEEEAAHHGGGGH!!!

GYEEEEEEAAHHGGGGH!!!

You need a baseline reference Get the Doctor to describe some other ponies he's not in relationships with
SO DOC, WHAT SORT OF PONIES HAVE YOU MET ANYWAYS?
I'M CURIOUS, I MEAN I'VE SEEN UNICORNS AND PEGASI, IT SEEMS INTERESTING

OH, I DON'T KNOW, THEY'RE NOT MUCH DIFFERENT FROM HUMANS, REALLY. EXCEPT SOME FLY AND SOME USE MAGIC.

WELL, WHAT ABOUT THE MAGIC..?

TO BE HONEST, I STILL HAVEN'T QUITE FIGURED IT OUT.
IT'S A COMPLETELY NEW FORM OF SCIENCE TO ME,
AND IT SEEMS TO BE A BASE ENERGY FOR ALL THINGS.

FOR EXAMPLE, FLYING HAS SOME MAGIC INVOLVED IN IT, CONSIDERING OUR ANATOMY ISN'T SUITED FOR IT. YET WE STILL FLY!

WE EVEN HAVE WEATHER MAGIC, YOU AND I!
I HAVEN'T REALLY TRIED IT OUT YET, I REALLY SHOULD DO THAT.
WONDER WHY I HAVEN'T YET? HM

So Jack, th nk the Doc can give you a little history on this Pony world?
-1 DEA WHERE TH S MAG C CAME FROM?
WELL, THAT'S THE THING, I TRIED LOOKING IN TO IT-BUT IT'S SO VERY ANCIENT AND CULTURES ALL ACROSS THE-UNIVERSE HAVE DIFFEREN T MYTHS ABOUT IT'S SOURCE. I'VE LOOKED IN TO PLENTY OF THEM, BUT IT'S ALWAYS JUST MADE-UP LEGENDS.

To solve th s you must know what happened Jack ask him about his past in this world
Jack, have you thought about learn ng more about the p ace the doctors been? Something there might of pushed h m over the edge
SO, YOU'VE TRAVELED AROUND AFTER ALL ?
WHAT HAVE YOU BEEN DOING THIS WHOLE TIME
HOW LONG HAVE YOU BEEN HERE?
OH, NOT LONG, MAYBE A YEAR AND A HALF OR SO FOR ME BUT THERE'S A LOT TO DO IN THAT TIME. I'VE SEEN SO MANY NEW THINGS AND FAMILIAR THINGS AND CHANGED THINGS AND NOT SO GREAT THINGS

NOT SO GREAT ?
NO, IT'S NOT... IMPORTANT.
JUST... THE USUAL. YOU KNOW.

AH LET'S CHANGE THE SUBJECT, THEN
..YES... YES, LET'S..

Maybe a half an hour in the hot tub might do him some good Help him clear his mind a bit
Jack you're spoiling me

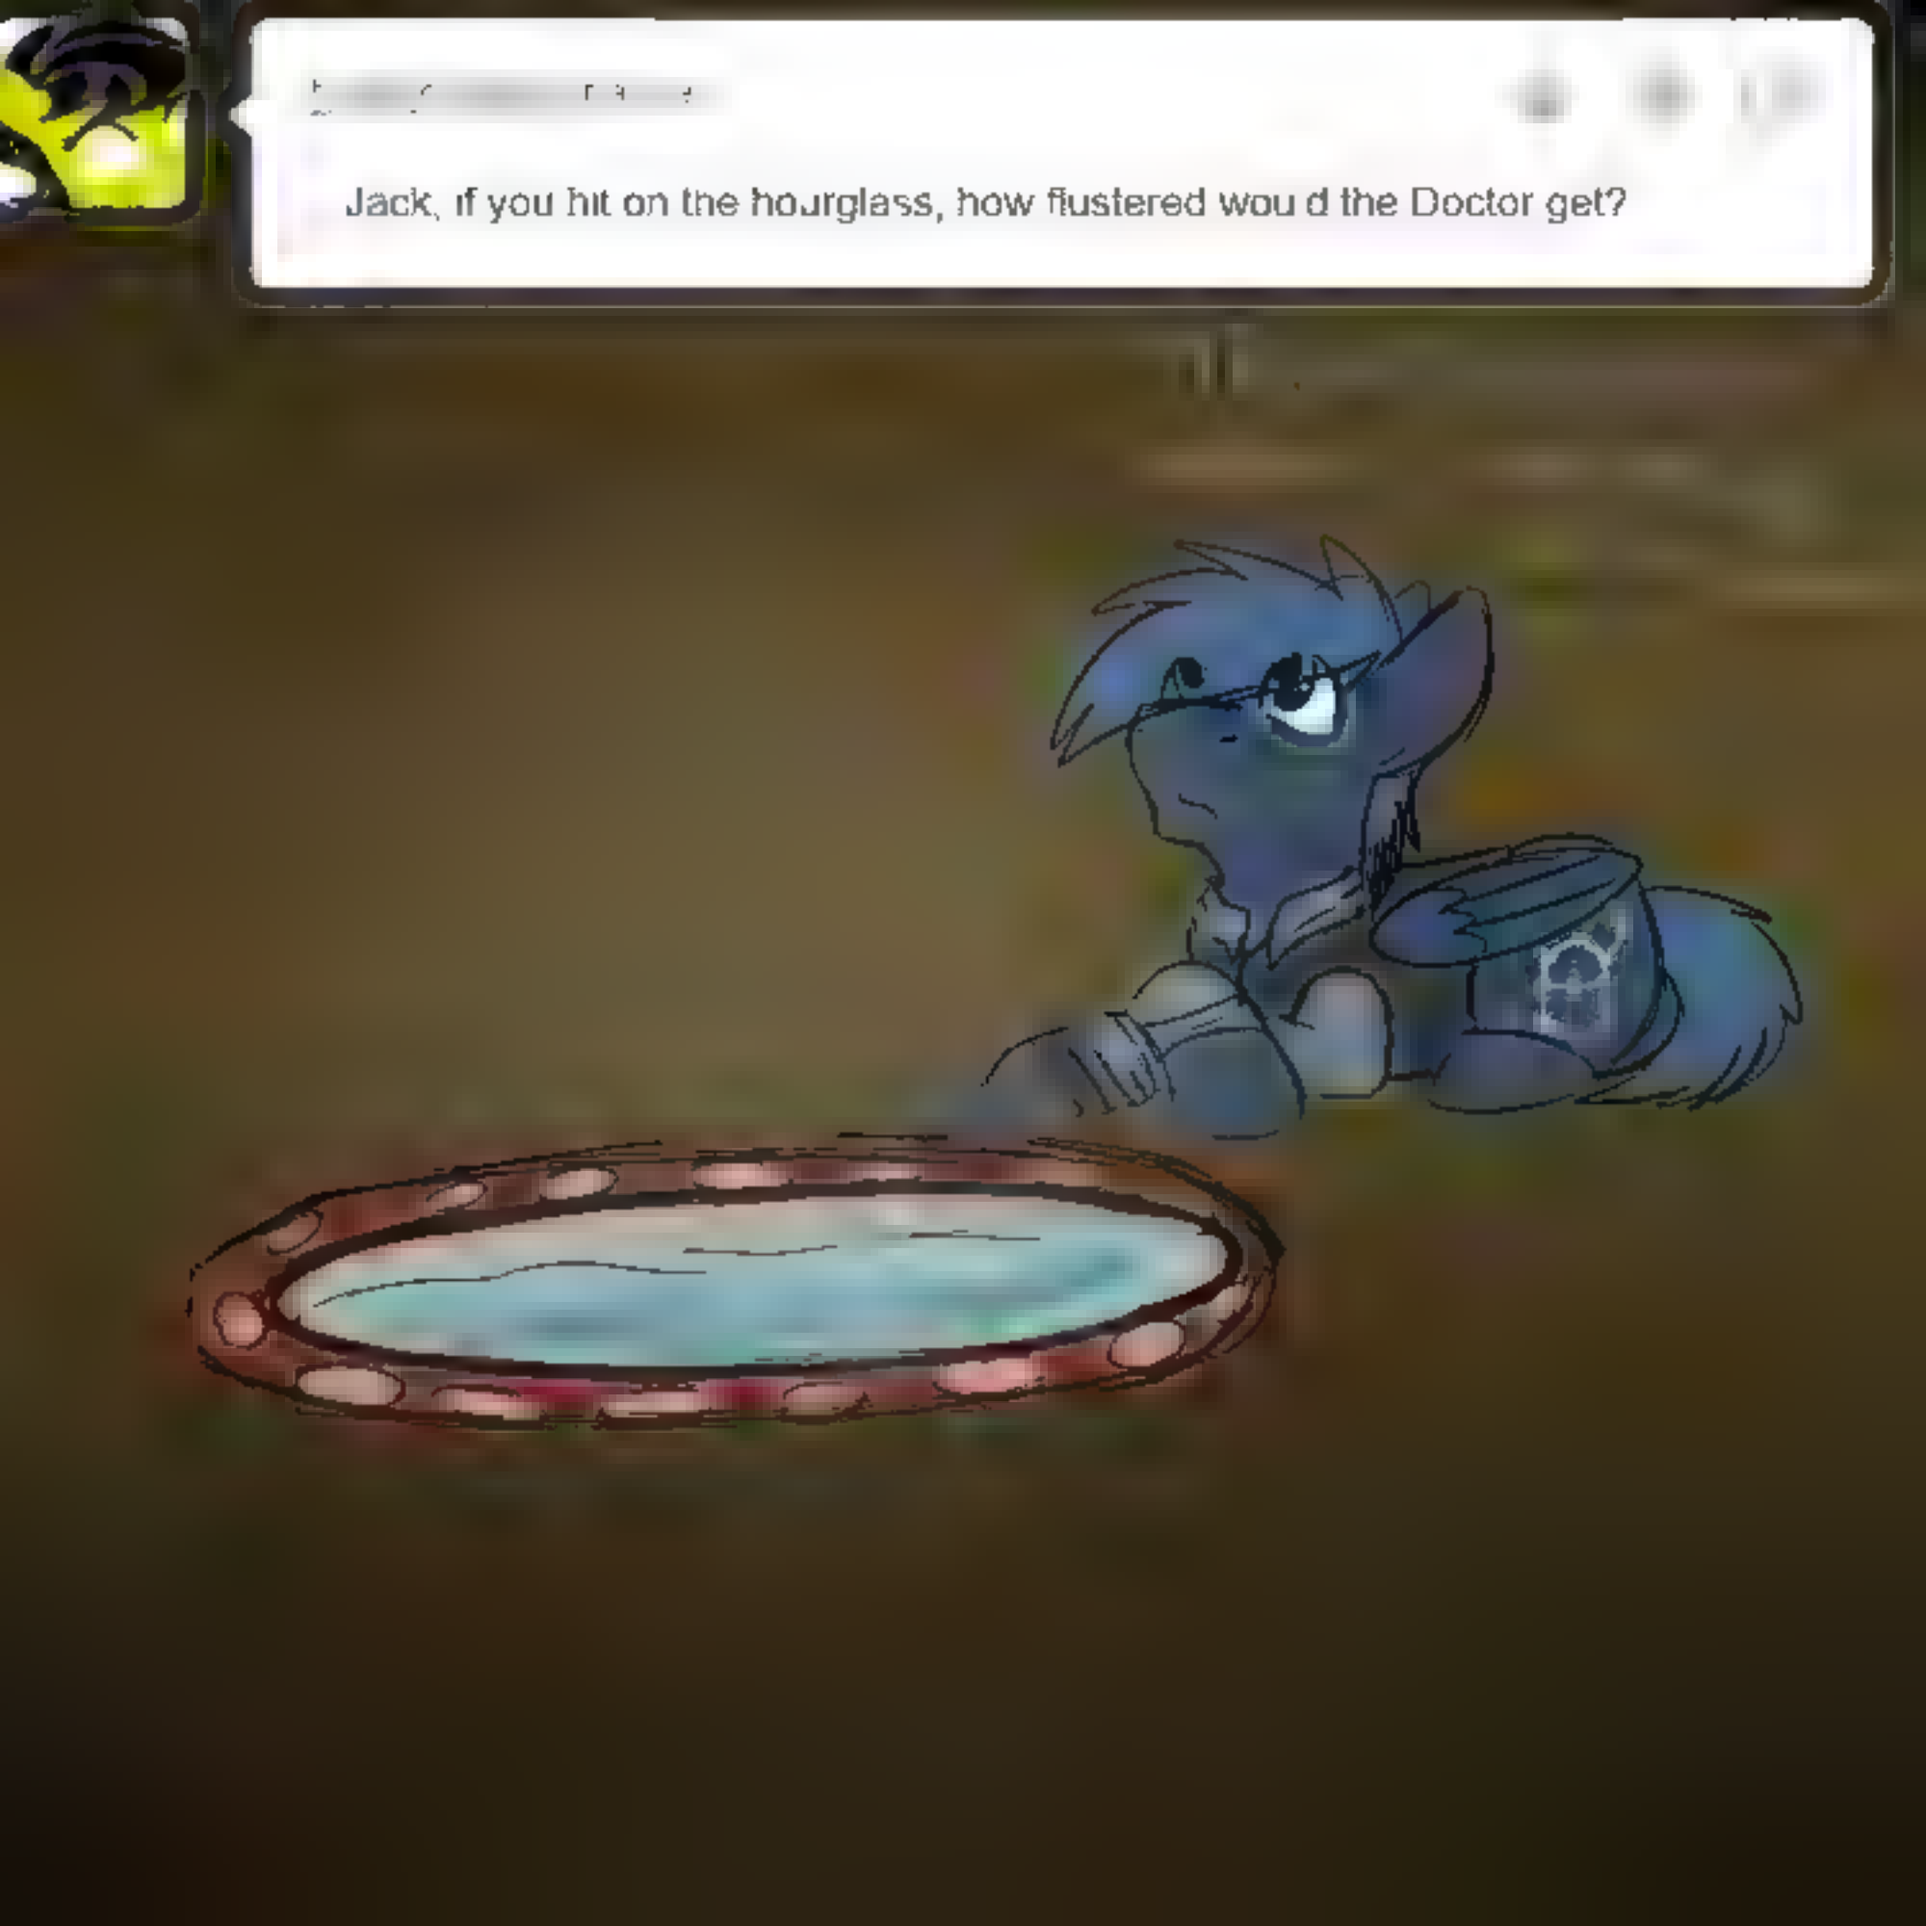
I suppose

So Doctor maybe you can tell us why you didn't help Jack dunng the Abaddon incident, Miracle day or the 456 problem He really needed the help

Jack, I'm sor—
I wasn't—

Doc, you should check on Ananta later on

Jack, have you ever thought about asking Derpy or Twilight about the Doctor's strange behavior?



Jack, if you hit on the hourglass, how flustered would the Doctor get?

Doctor's on
Jaaaaaaa!

Yeah, that's what you bloody get!

Anne Vil Perhaps a break is what he needs Maybe try taking him somewhere seclusive Somewhere he cannot cause any trouble
Considering how excited he got about magic, I'm sure I can convince him to take a breather and show me around. It could do him some good.

Of course a little peer pressure wouldn't hurt.

You should go traveling again get yourself a companion and feel good Don't let your past eat you up run
"What part of traveling with a companion feels good when there's constantly problems?

Doctor Jack why not go on an adventure for a while? It might help the both of you
Is the doctor ready to go on any adventures soon?
I'm really not in an adventure mood, adventure goes with danger and I dont like it.

It looks like you could use a break Doctor Have you tried going on some sort of vacation to take your mind off things?
Maybe you need a vacation from your permanent vacation
A vacation?

Hey, Doctor, maybe you should v sit somewhere away from Equestria A vacat on from the source of your troubles and angst could do you some good
Yeah, come on Doc, a vacation where you can relax and experience some nice new things with all the stress

Know what you and Jack need? A holiday. I hear the Medusa Cascade is nice around this time of year
Well- okay I guess a "vacation" doesn't sound as bad
Exactly, just a harmless vacation. Could be anywhere but here

So, Doctor when do you plan on taking Jack on trip out of the TaRDiS? He has a whole new world to explore now maybe you should let him start
Alright, alright, I guess it wouldn't hurt to show you some basic things...

Perhaps it's time to show Jack around the town, and not just the TARDIS?
Did you know we can walk on clouds?
Seriously?

i get the feeling that you two are going to Cloudsda e? just a thought
PHHHT, no, that's boring!

We're going to the Mediocris Meadows!
WHOA WHOA

So doctor how's that wing of yours holding up ?
DING
I can't fly with it, but I can still walk on clouds, at least.

You should totaly take Jack to walk on the clouds! That would be so cool!

So what do clouds feel like?
It's like walking on slightly damp blankets, hah!
Soft, fluffy, and like walking on morning dew!

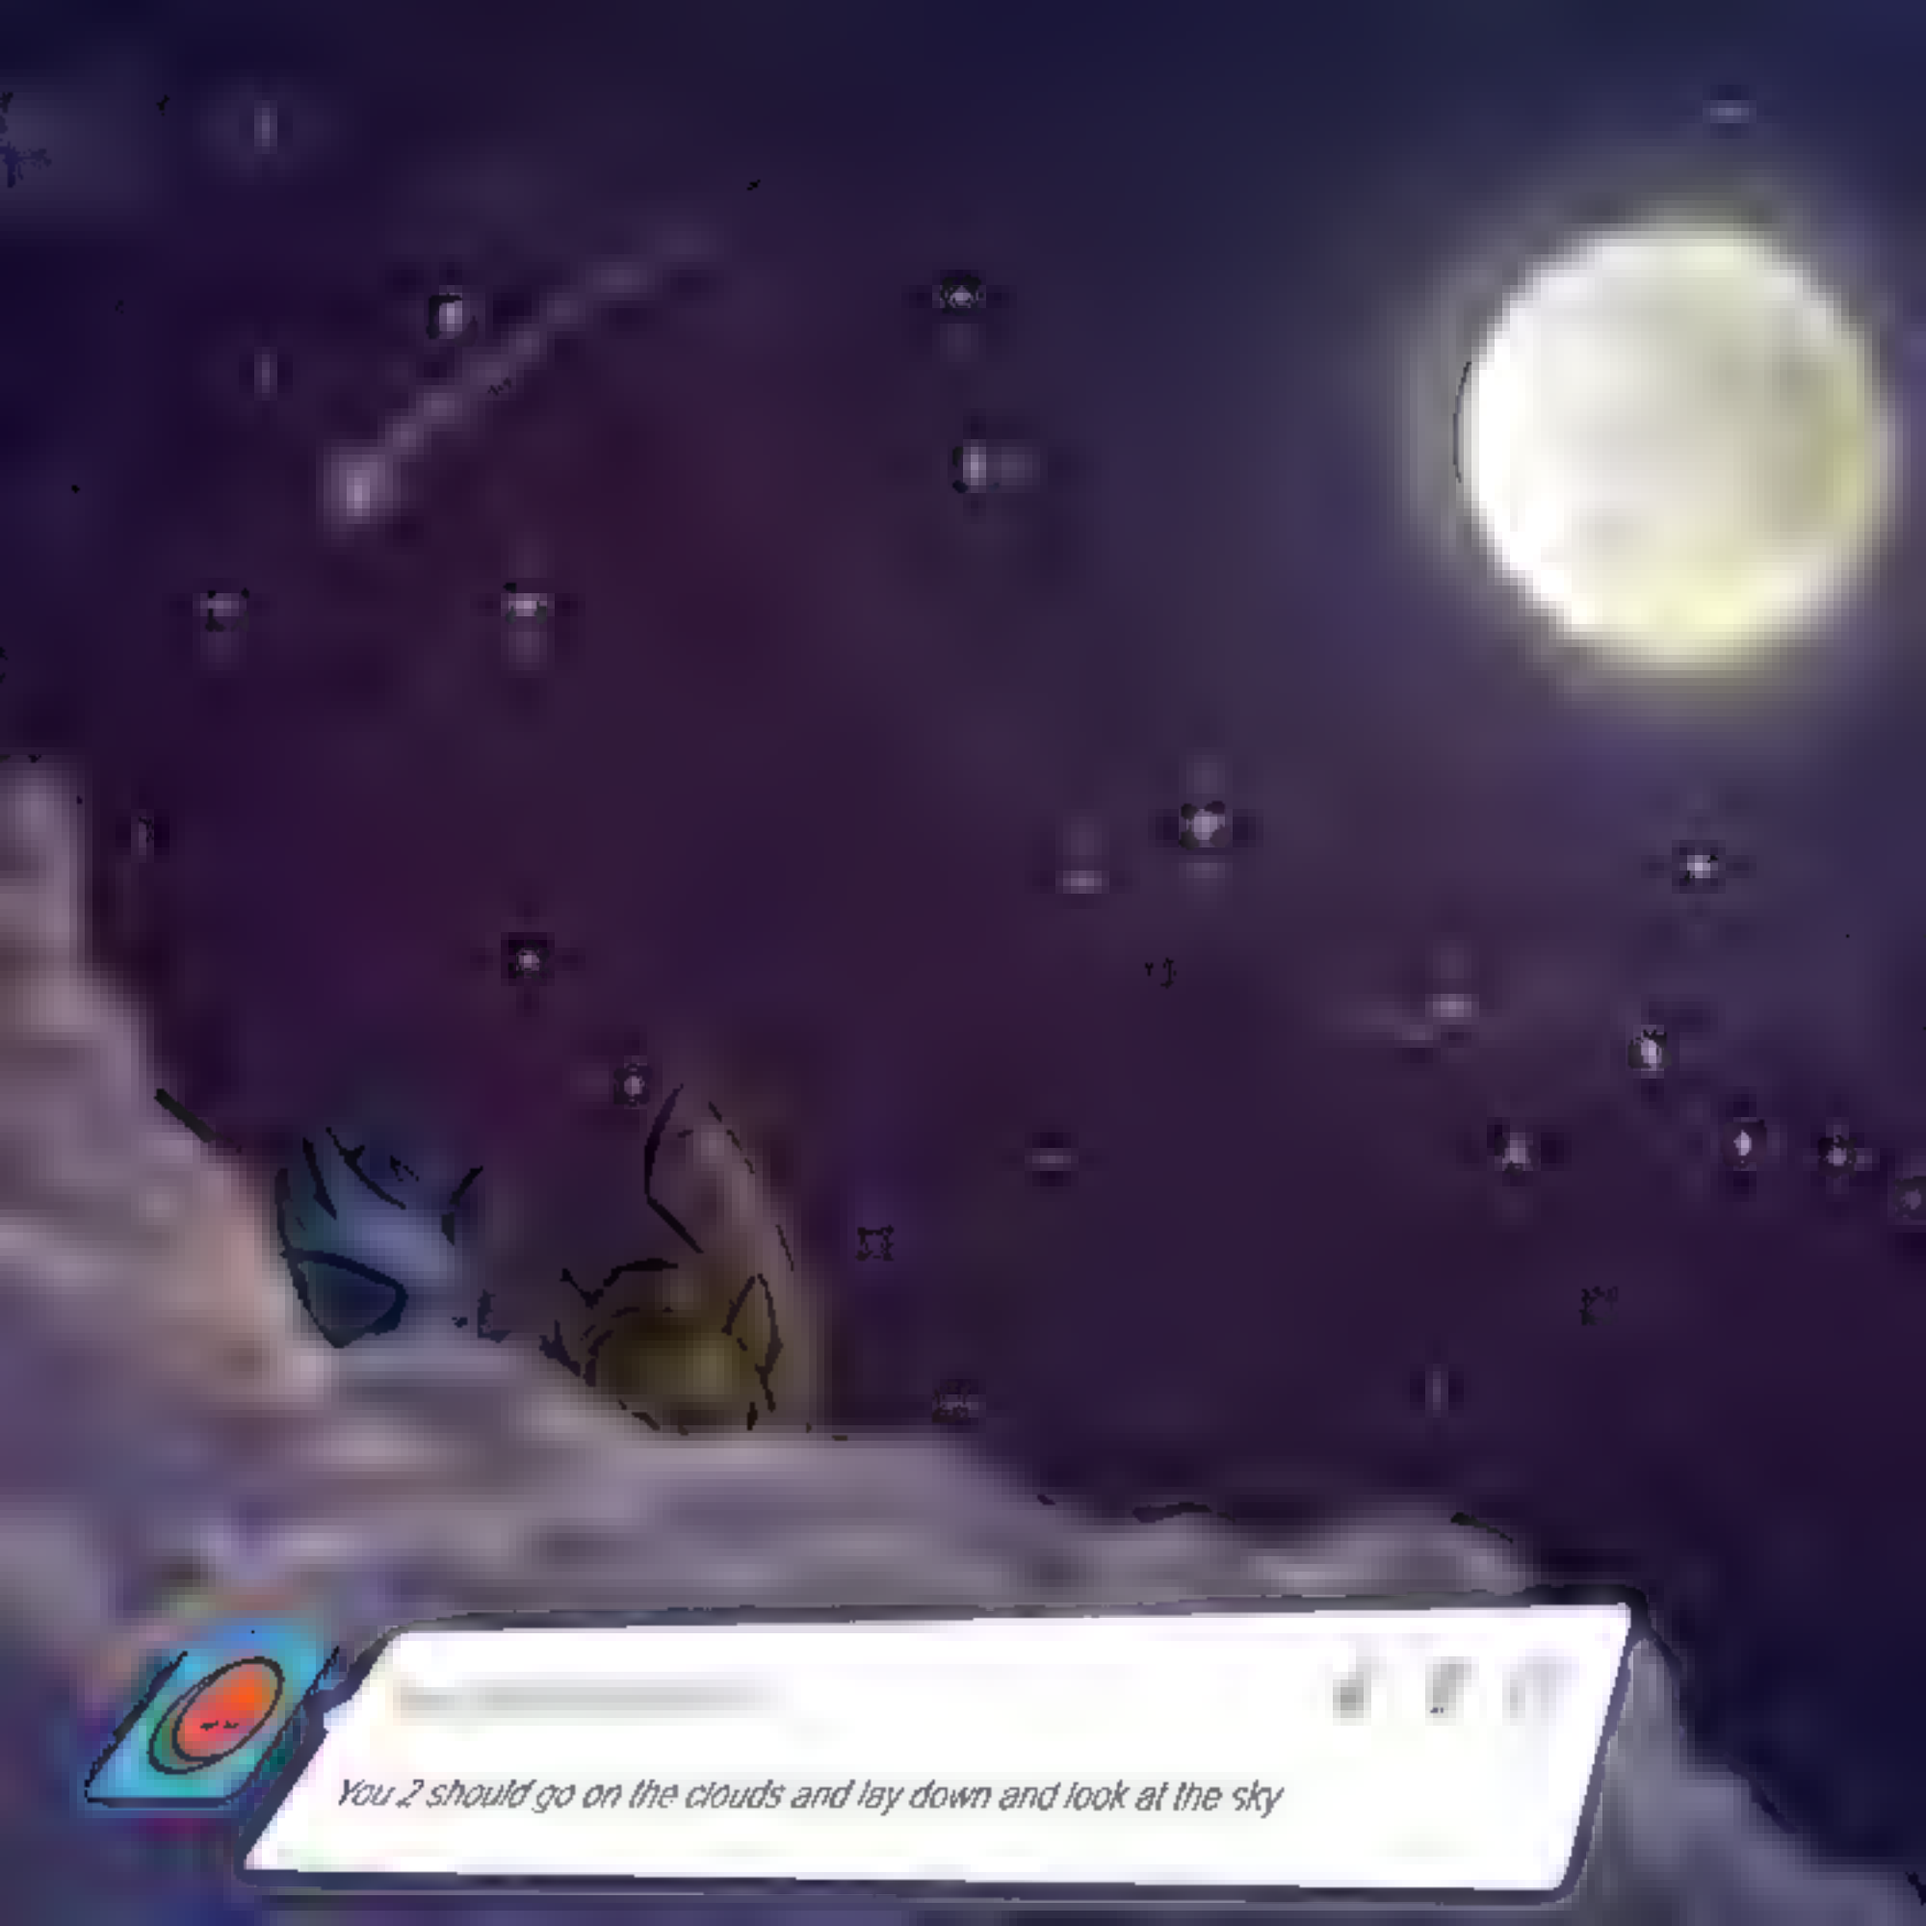
Why don't you show Jack how the weather is made here? I bet Jack hasn't seen anything like it

Doc maybe you should try walking on the clouds with Jack to relax It seems relaxing

asked

Go for a walk On the clouds!

Flying is fun, but RUNNING on clouds is even better! If a vacation in the clouds is what you're interested in, you should definitely give "cloud sprinting" a shot

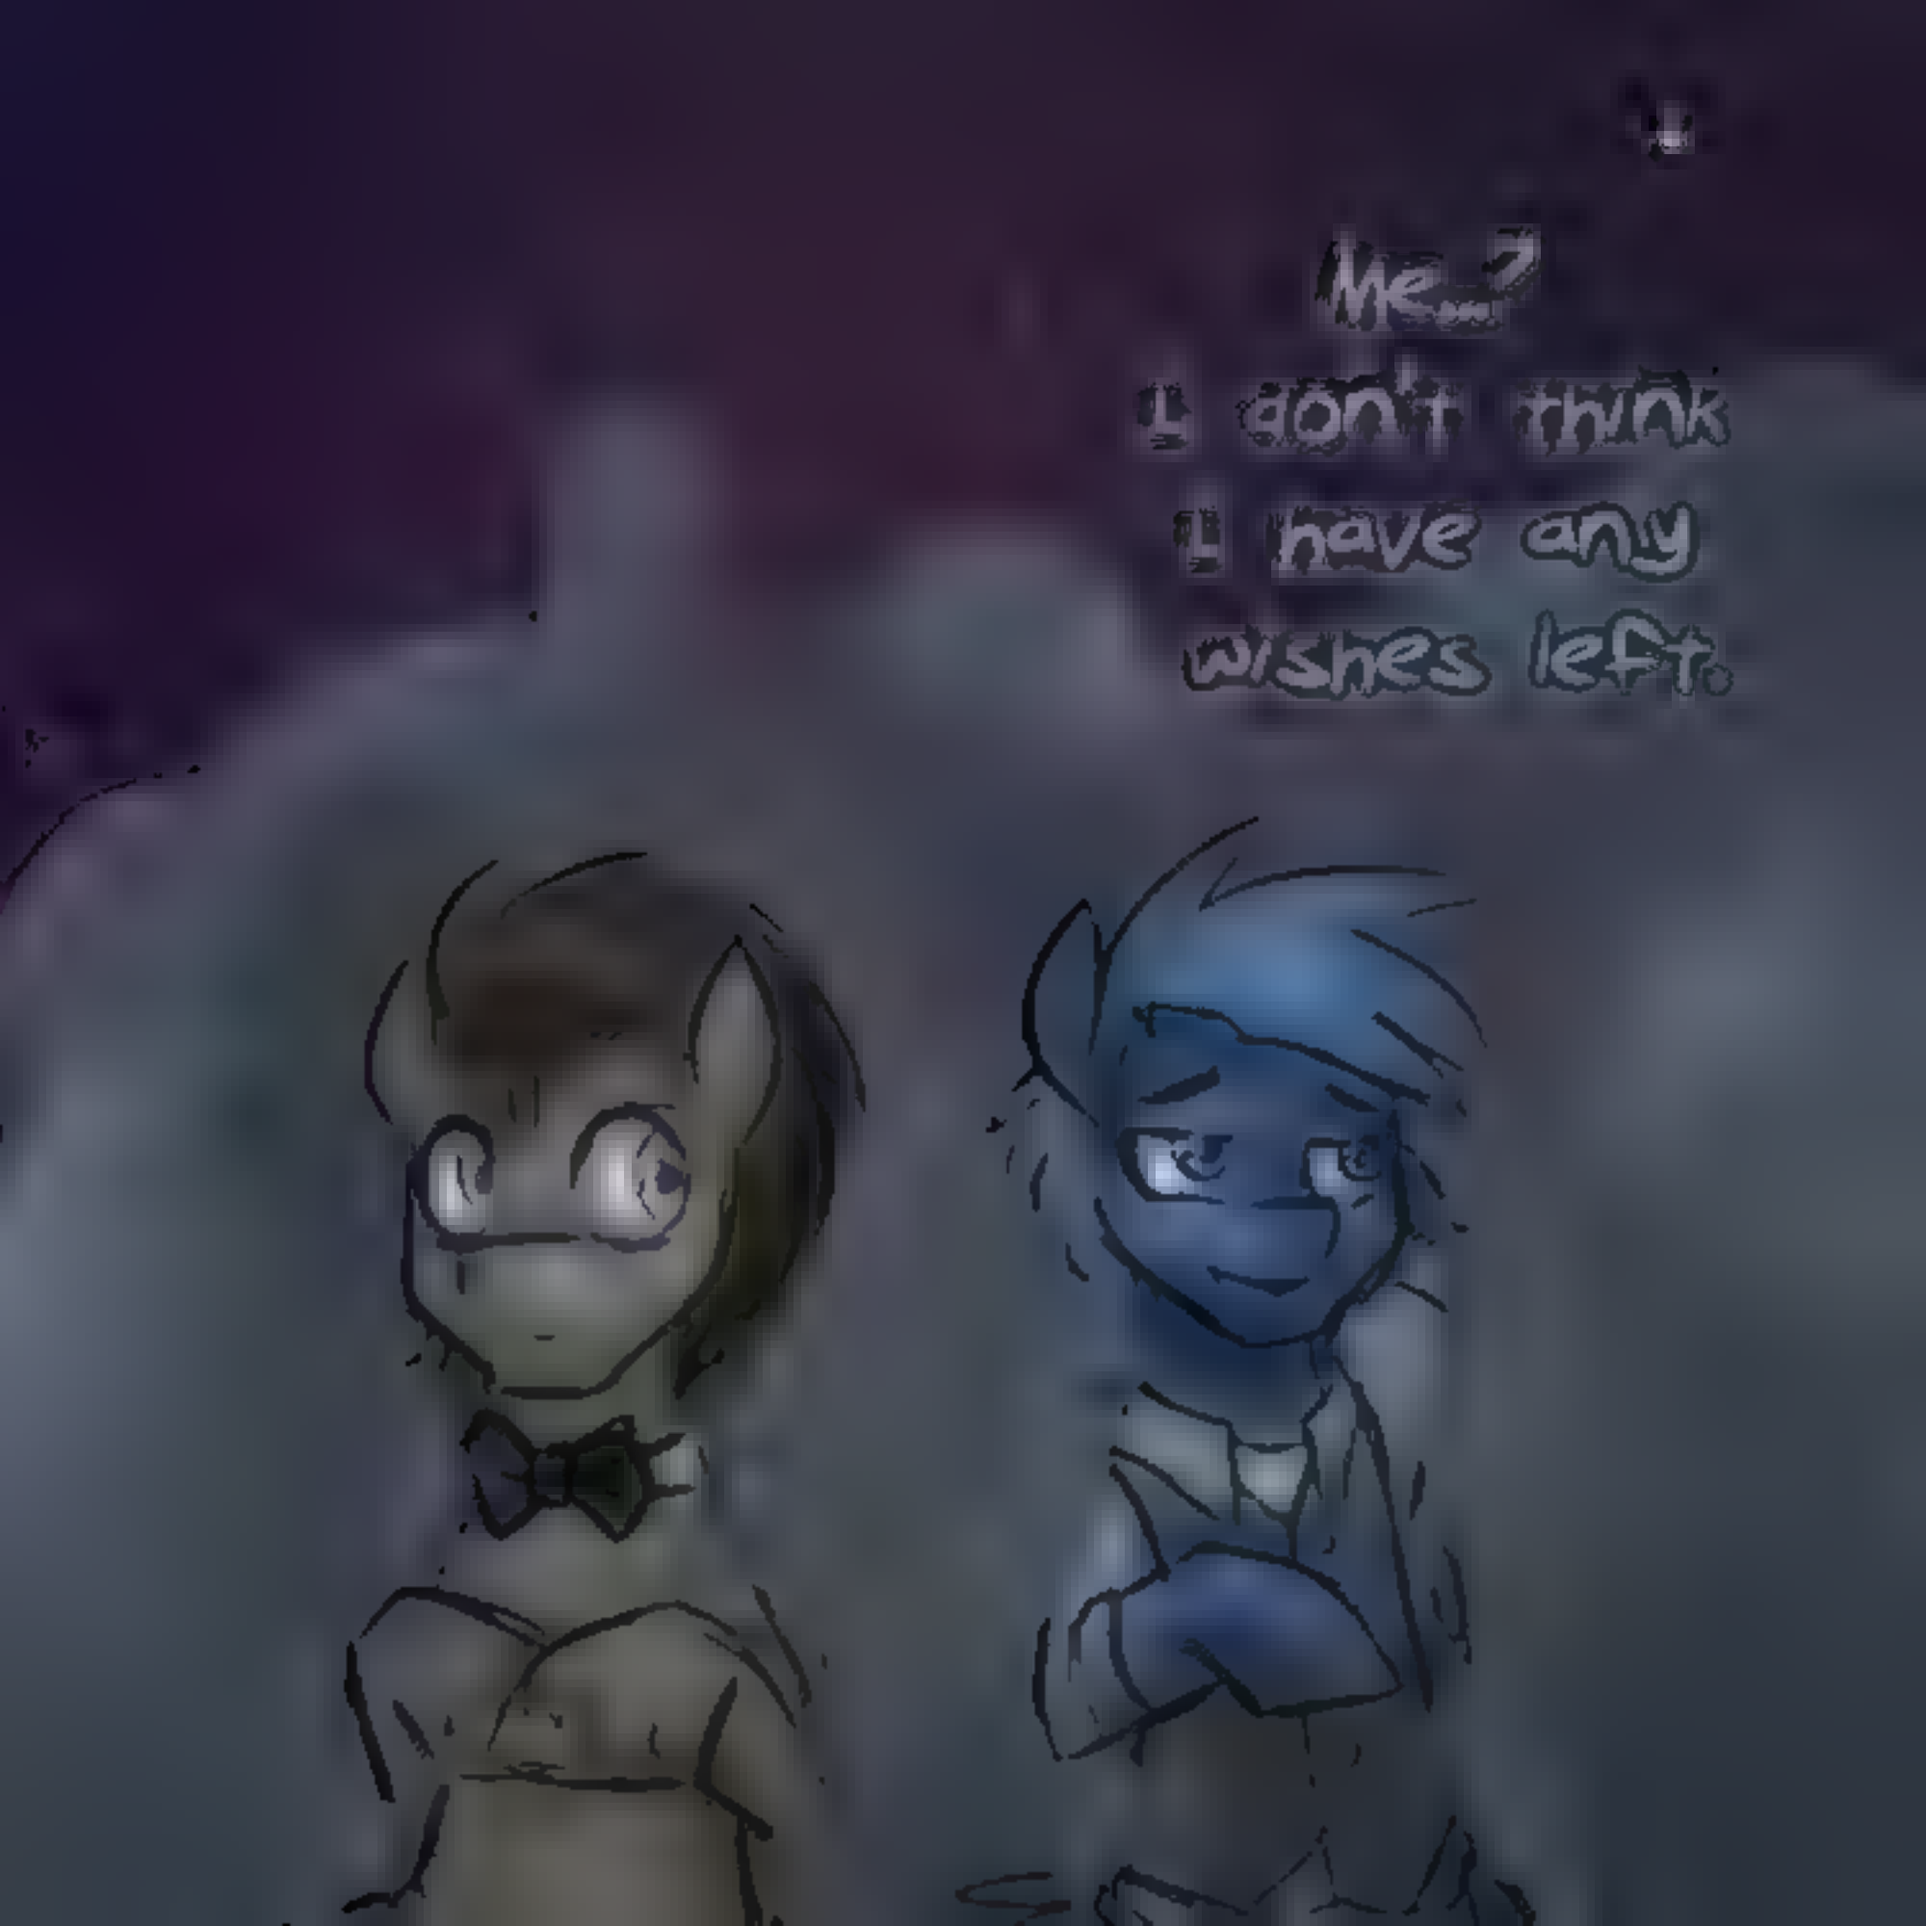


You 2 should go on the clouds and lay down and look at the sky

Jack would you consider going out with the doc as a date?
I can pretend

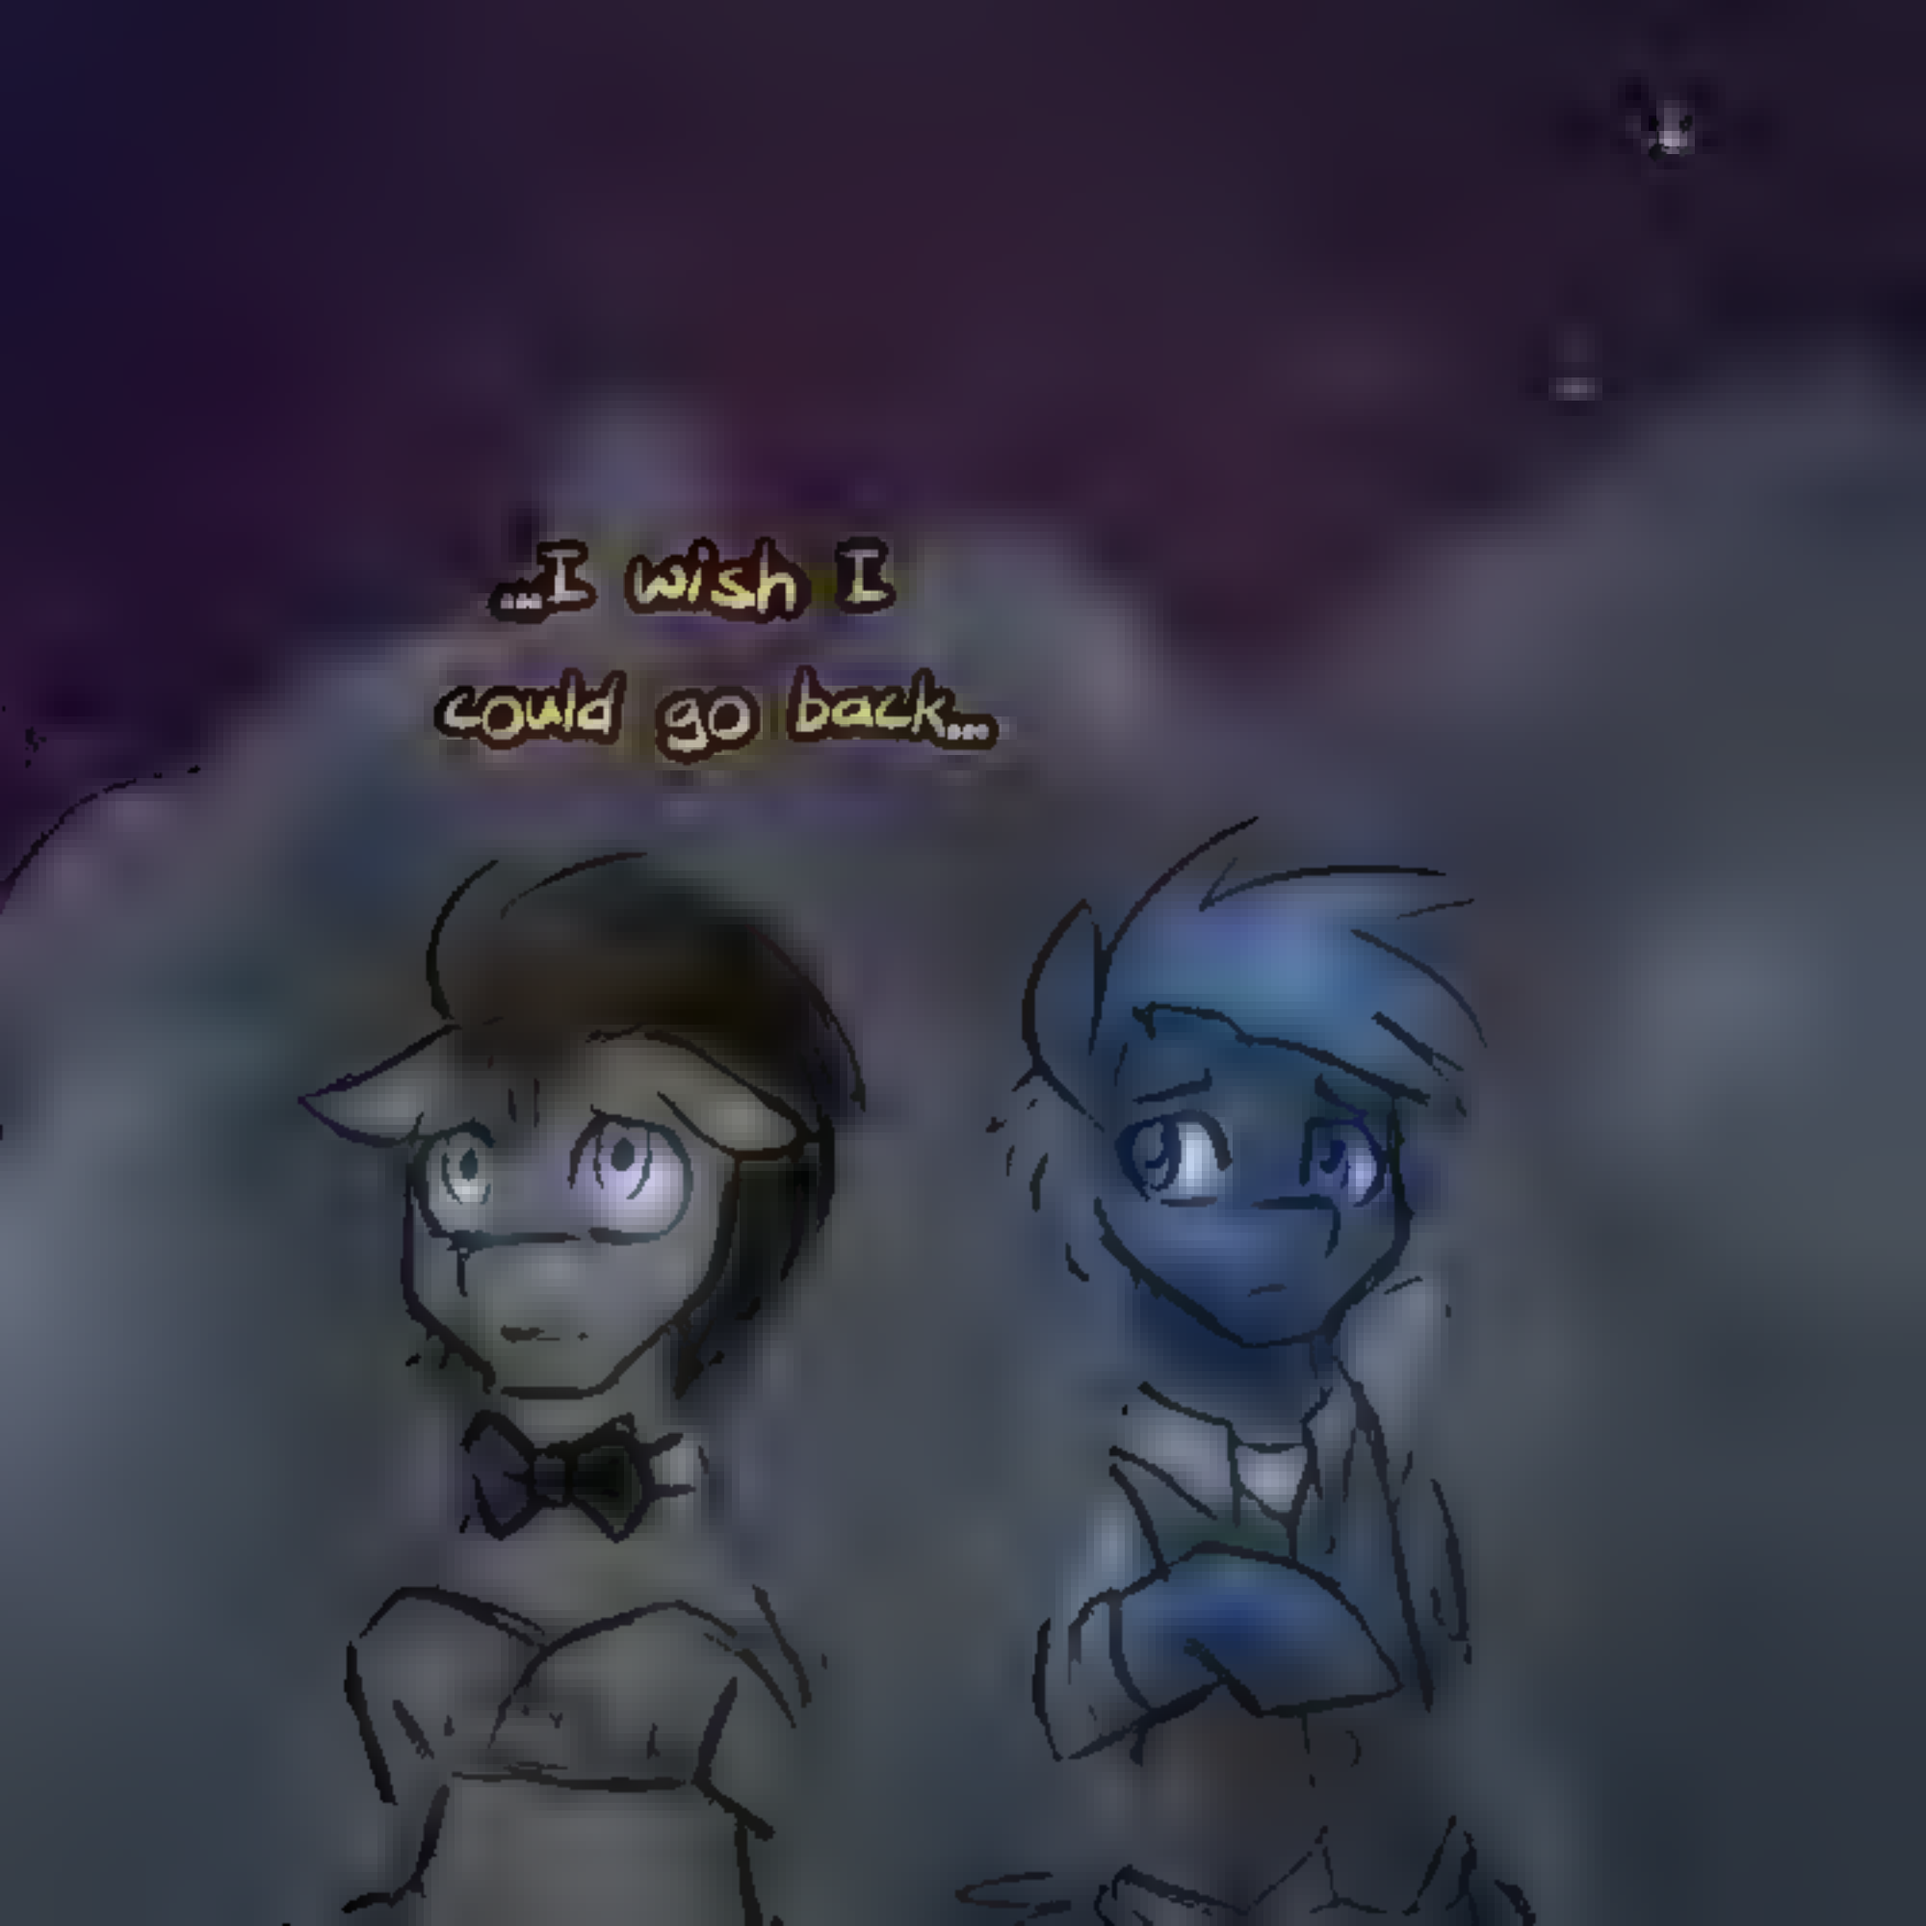
Is that some color I see?
wait, jack, is it just me or does the doctors coat seem to be getting lighter?
Note taken...

Doctor Jack! Make a wish! It's a shooting star!
What do you wish for, Jack?



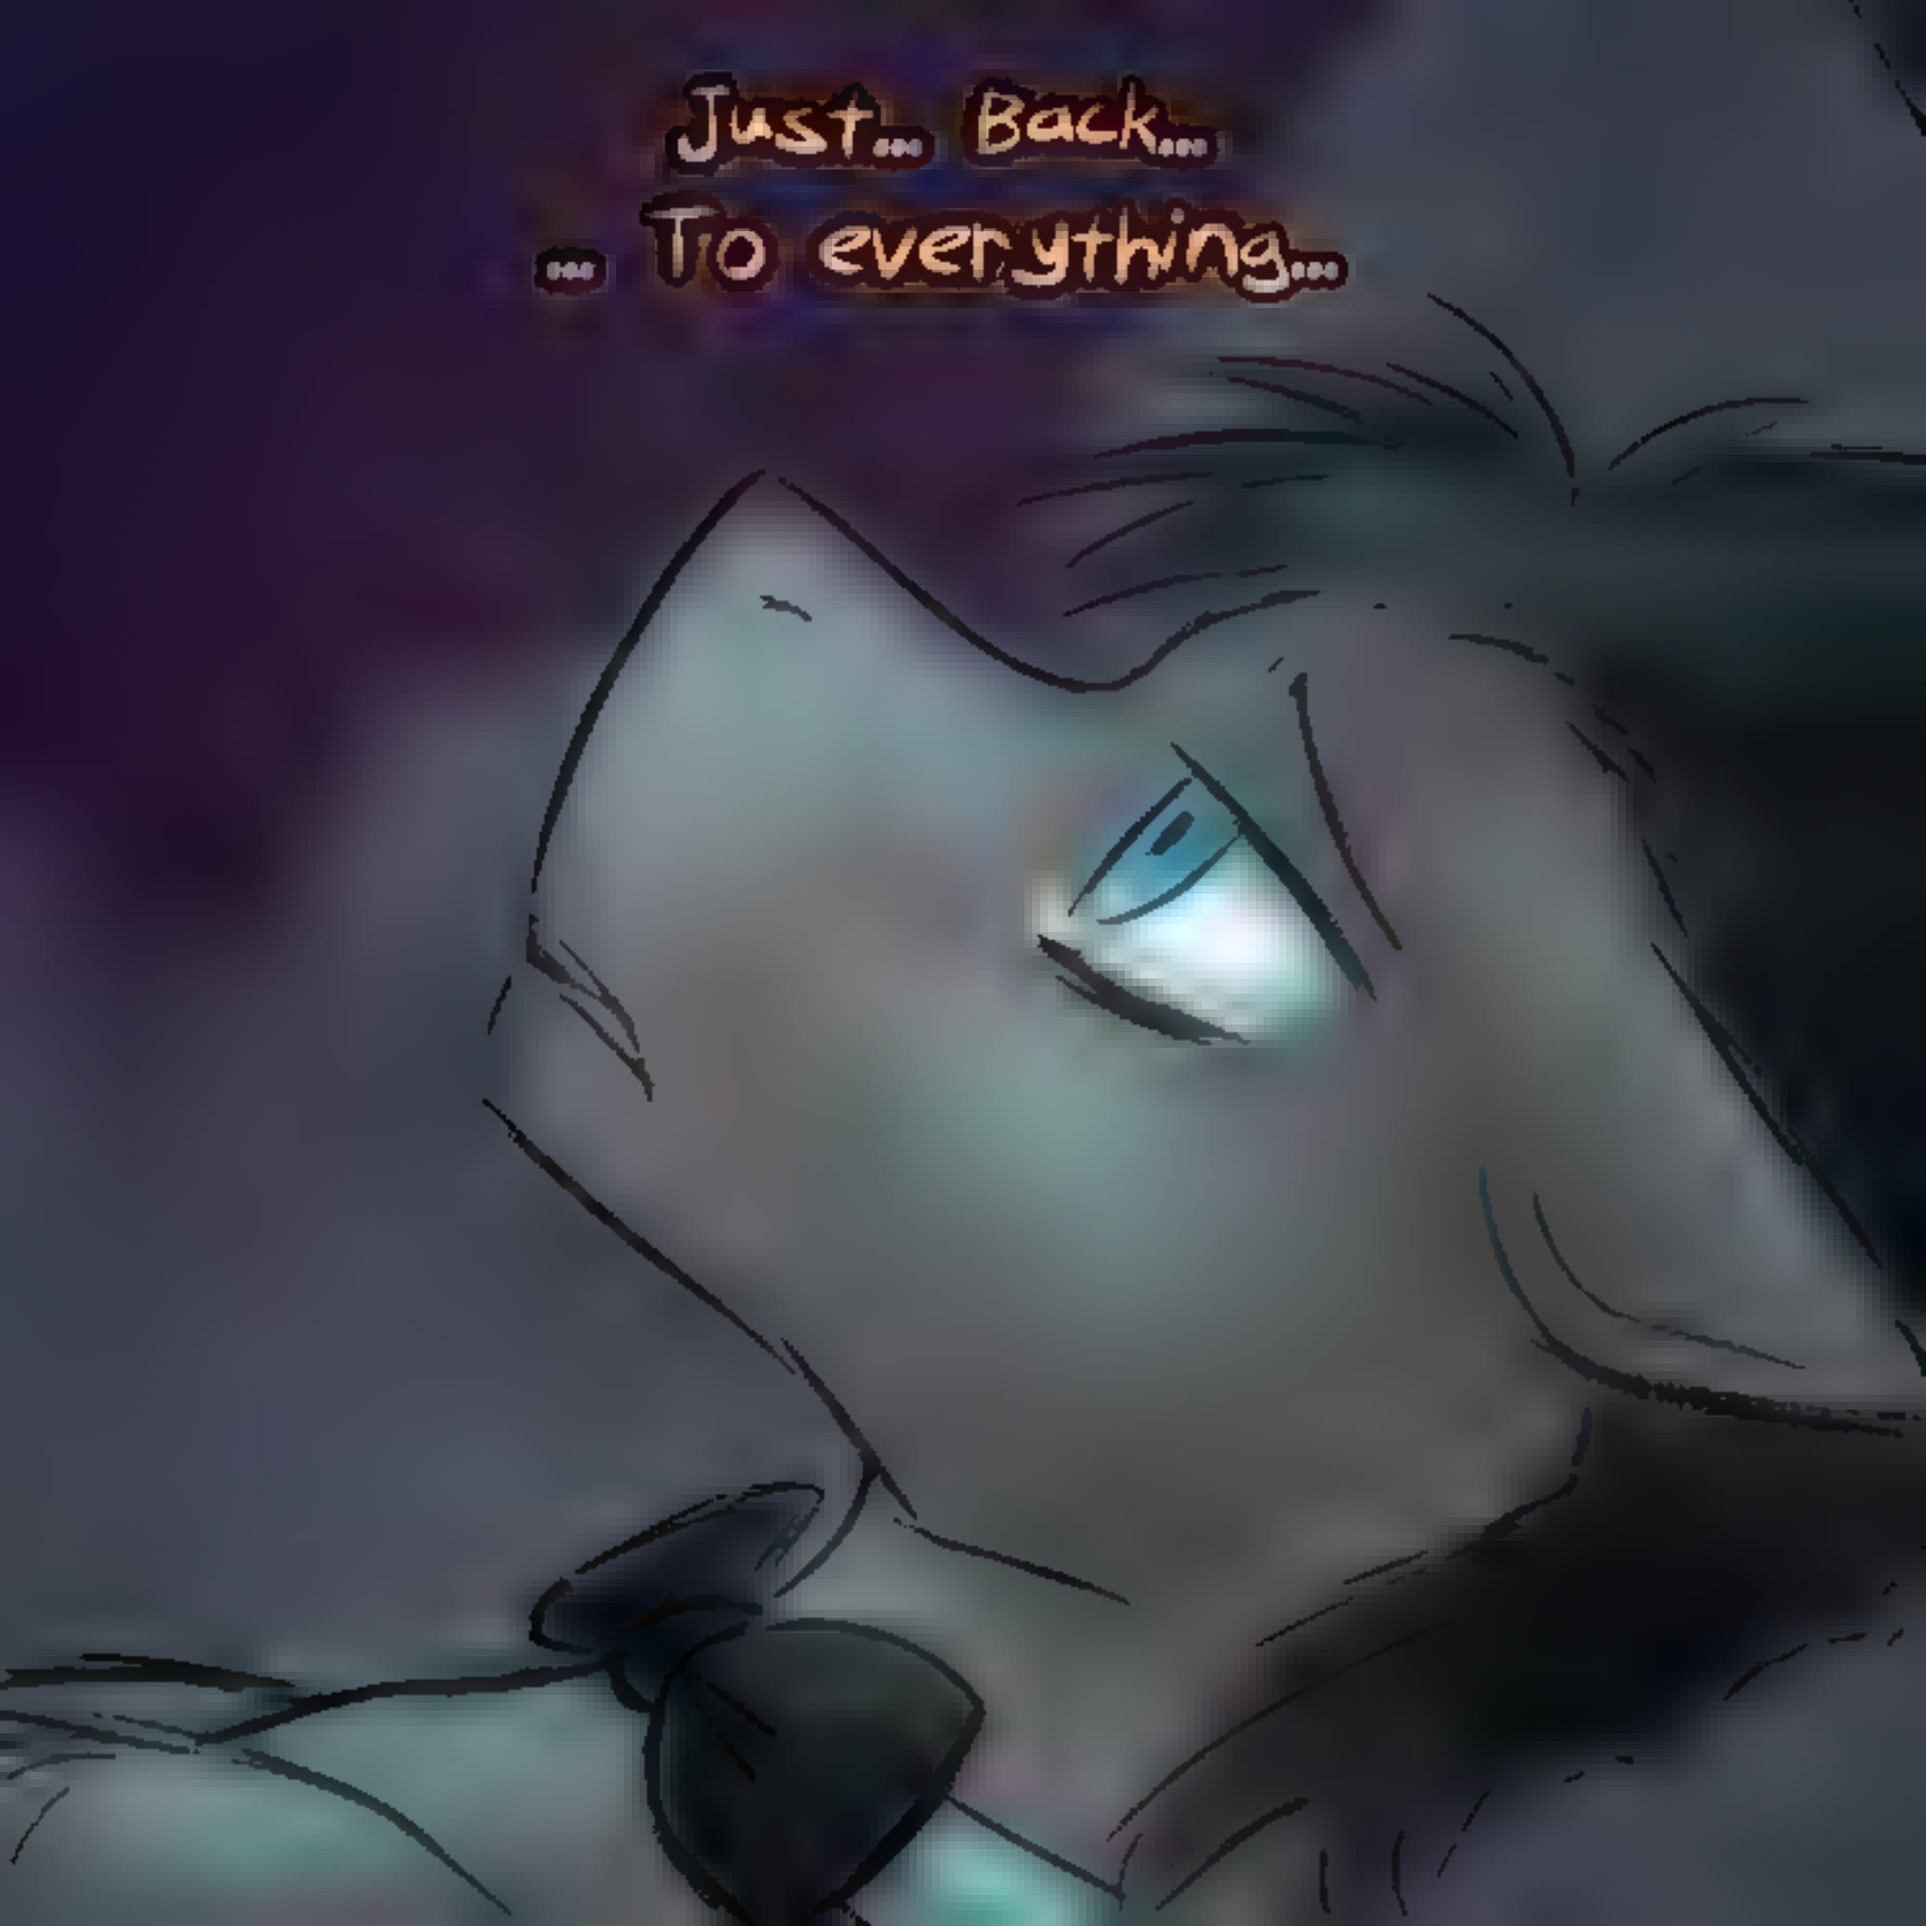
Me...?
I don't think
I have any
wishes left.

Not quite his o d self yet, but it's a start
What about you, do you have a wish?



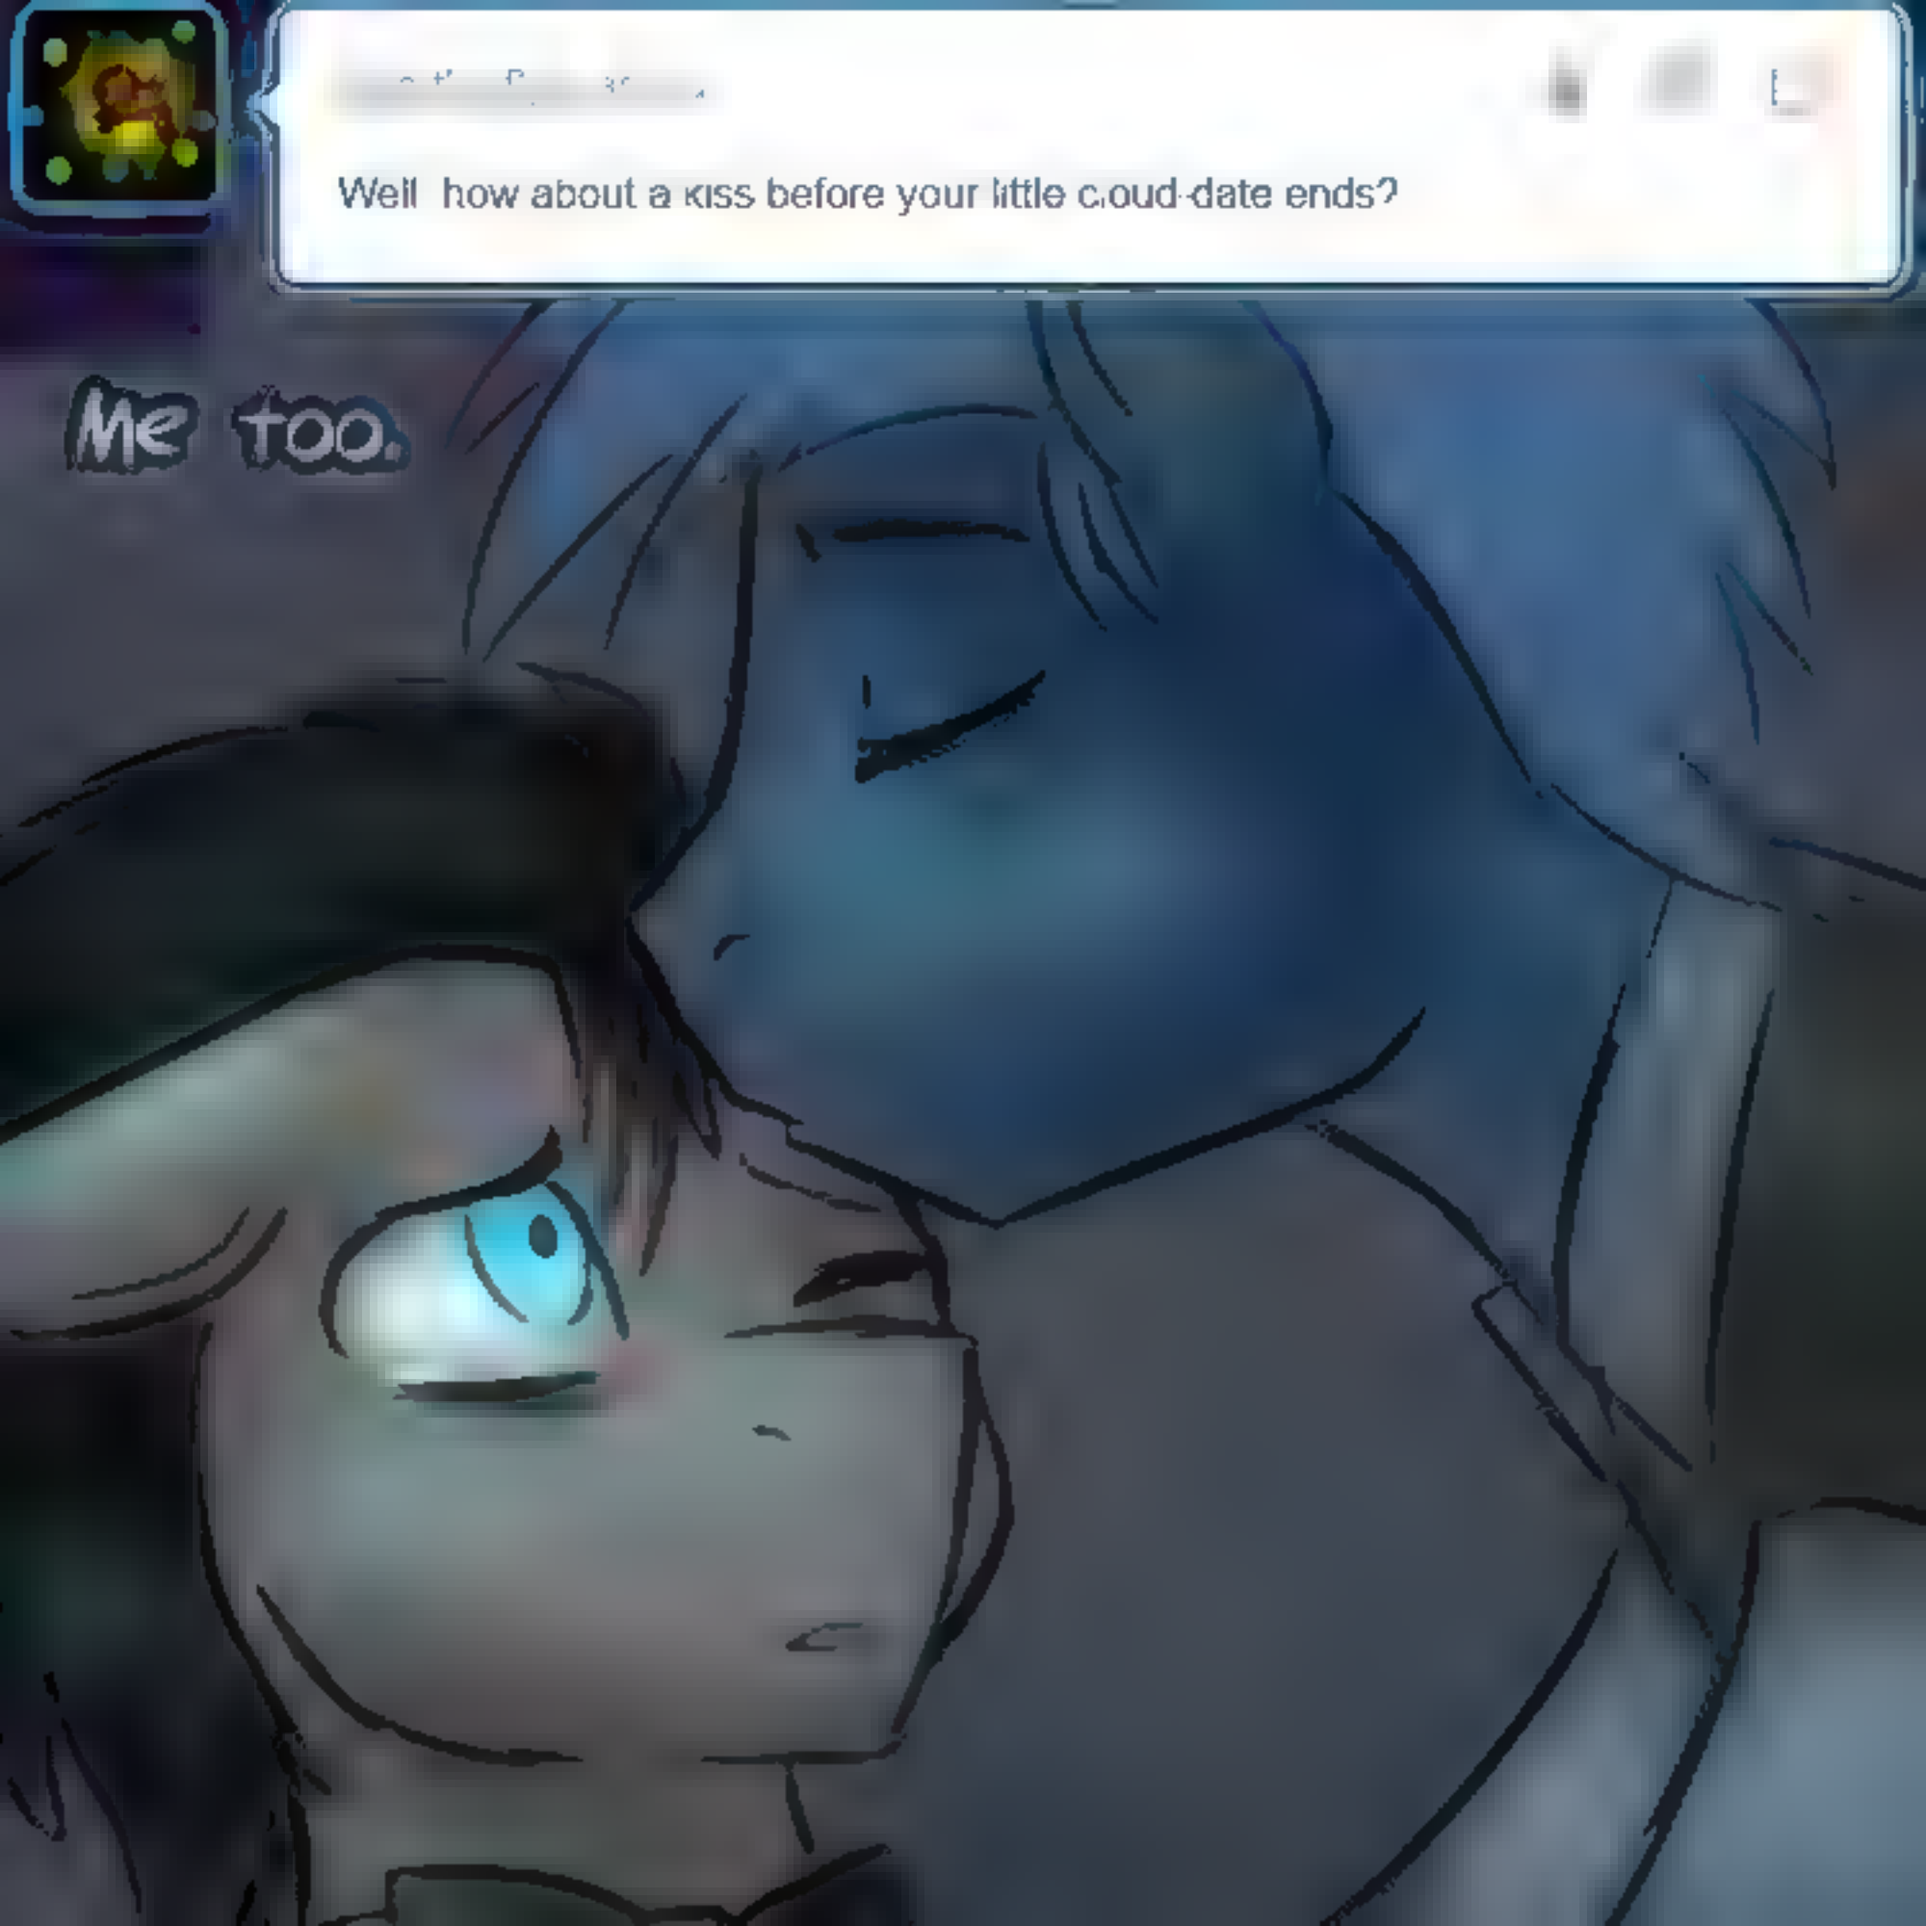
...I wish I
could go back...

..Back where..?



Just... Back...
... To everything...

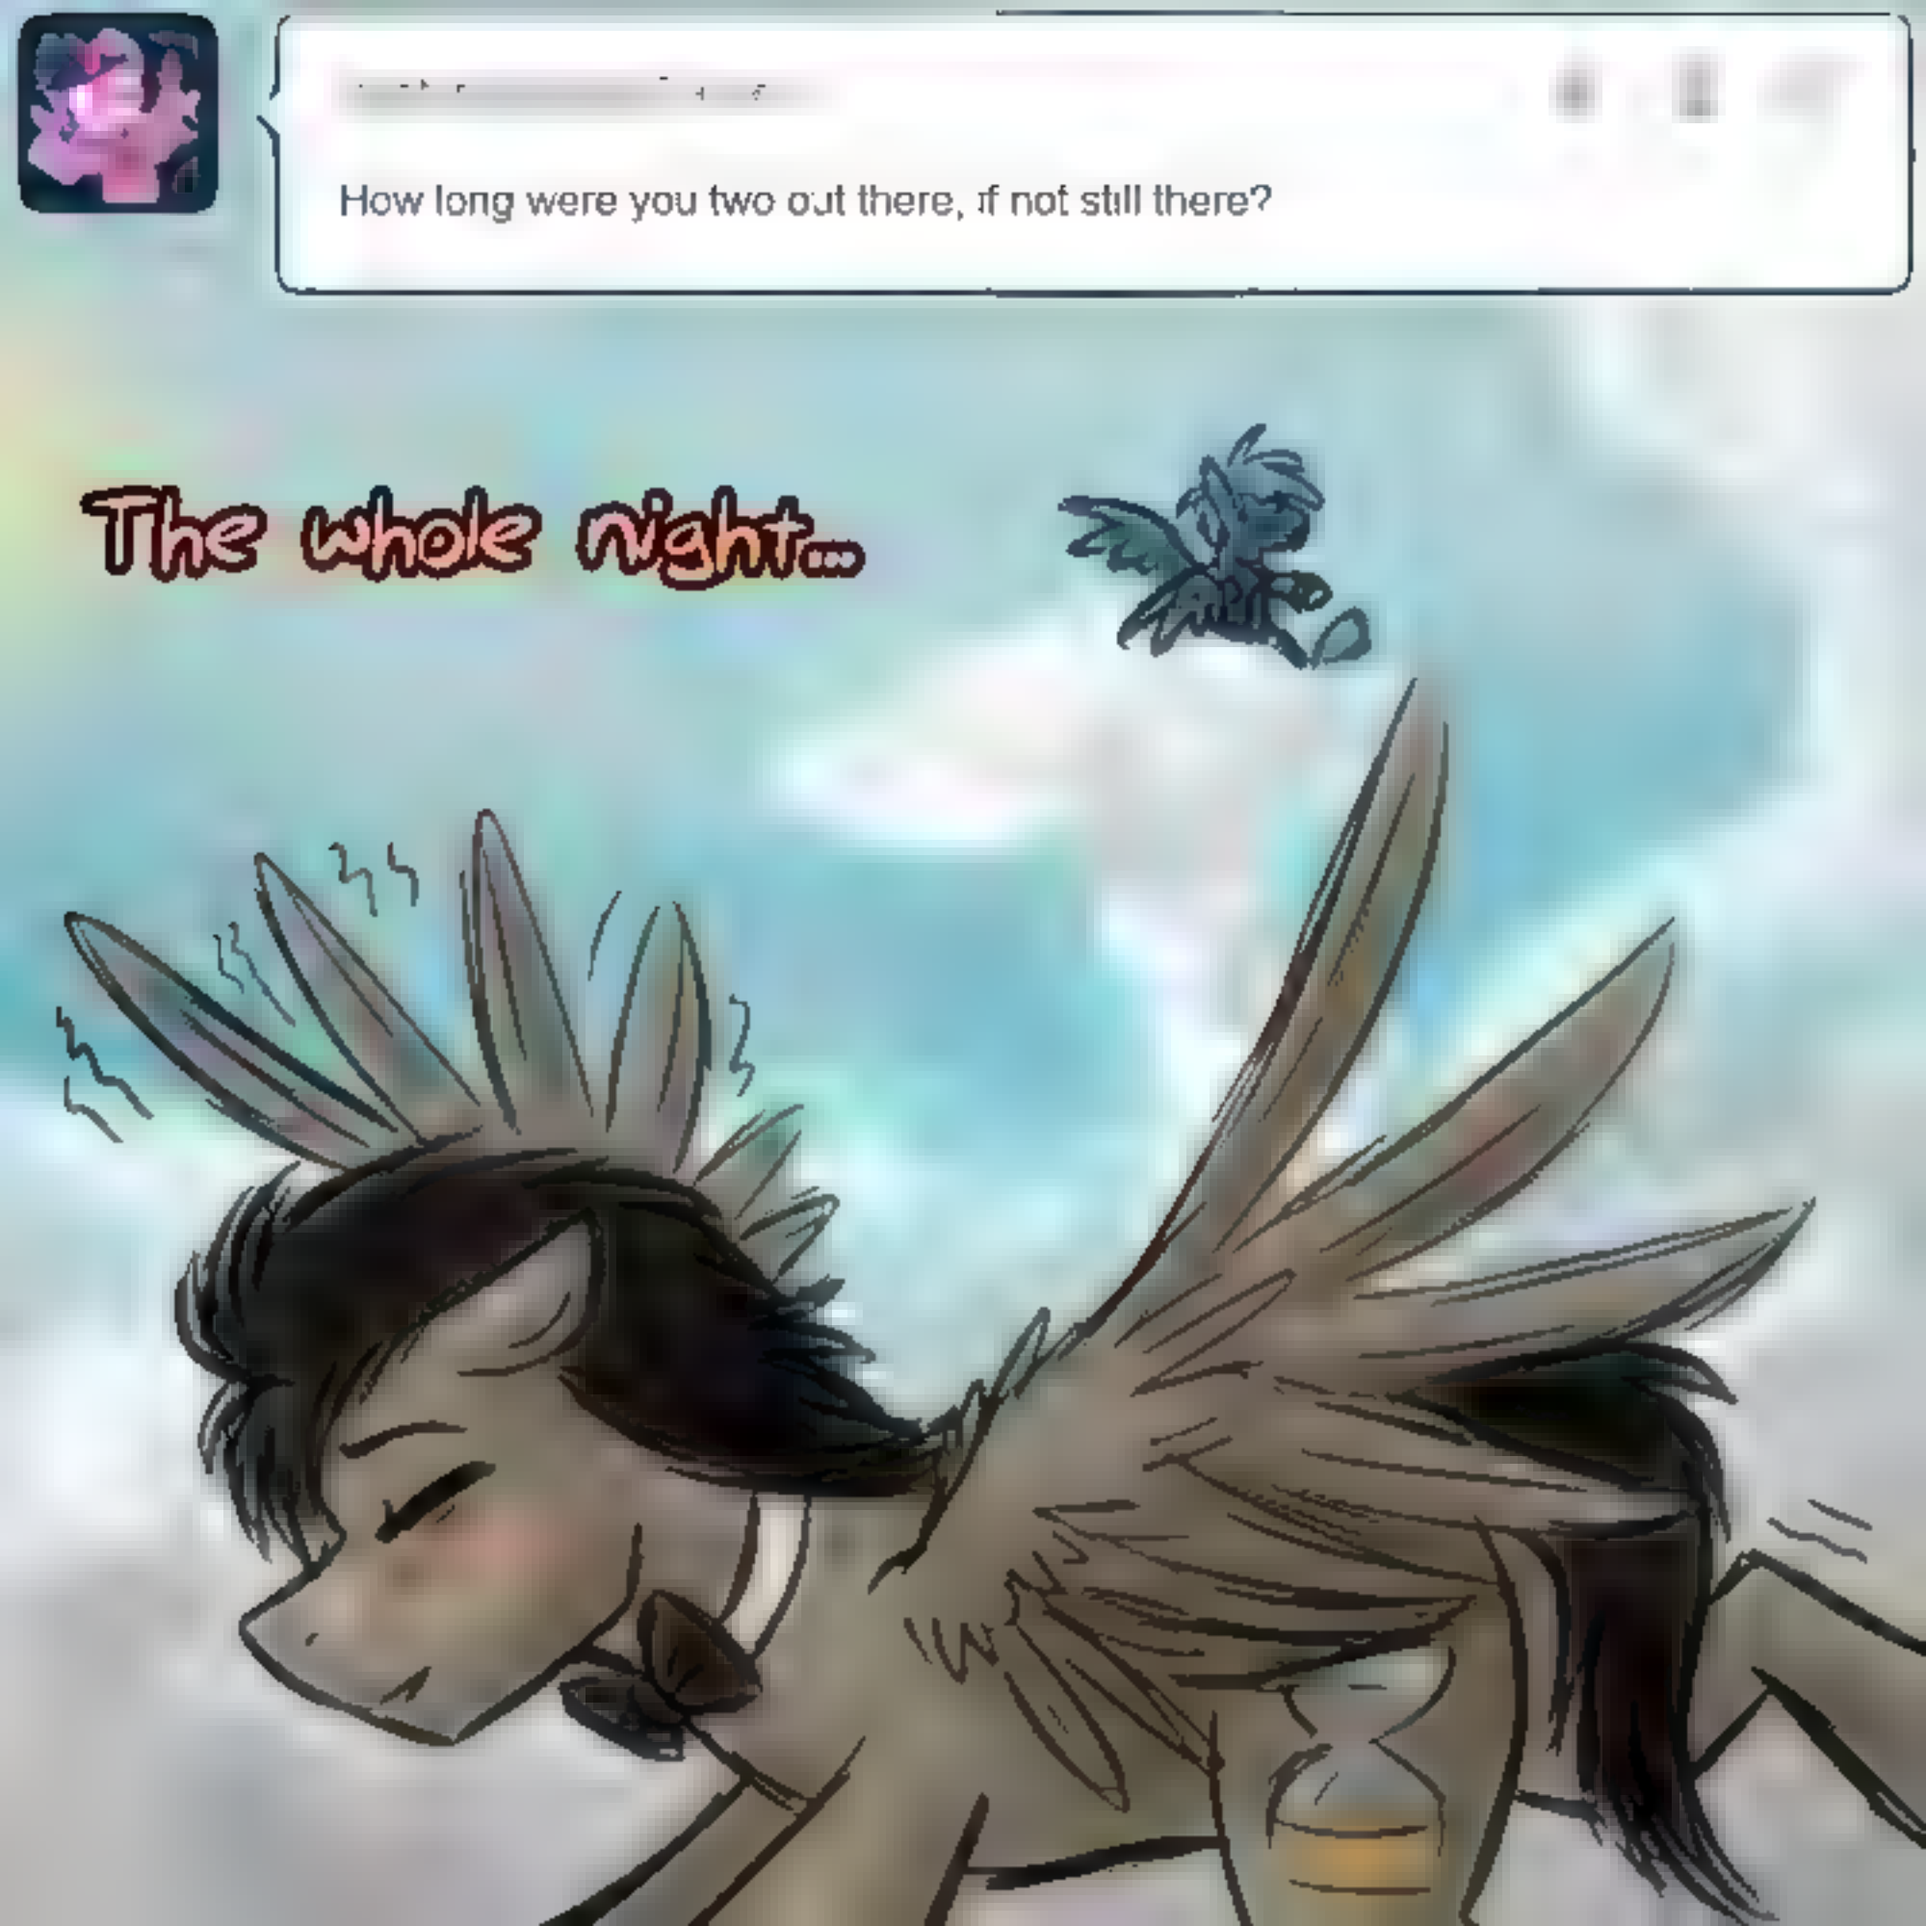
Jack. now would be the perfect time to pounce > 3



Well how about a kiss before your little cloud-date ends?
Me too.

A day amongst the clouds with a good friend. There is truly nothing like it in the world, is there? Such beautiful things. All fleeting. Enjoy them while you can, Doctor. Dark times are never far behind.
But we can only stumble forward.

How long were you two out there, if not still there?



Hey Doctor feeling much more lively now?
Well, I feel rested, if that counts for anything.

You must be having the best time of your life with Jack, huh Doctor?
..Maybe...

Doc, I know you do not want to go "adventuring" anymore, but what if Jack does? Would you let him go explore on his own or will you force him to stay with you like your prisoner? Or will you do neither and instead help him not as the Doctor, but as a friend?

Come on Jack, let's go back to the TARDIS. We'll go somewhere else.

VWORP
3SVROPP

Doctor you still didn't show Jack the Playcolt Mansion
I still think you owe Jack a trip to the Playcolt mansion, don't you Doctor?
Tempting, but no. I'm going to help him learn more about being a pony.

So many places to choose from! Appleloosa? The Crystal Empire? Canterlot? Cloudsdale? The big apple? Some random deserted island? The possibilities are endless!
Even better.
I'm going to show him alternate universes.

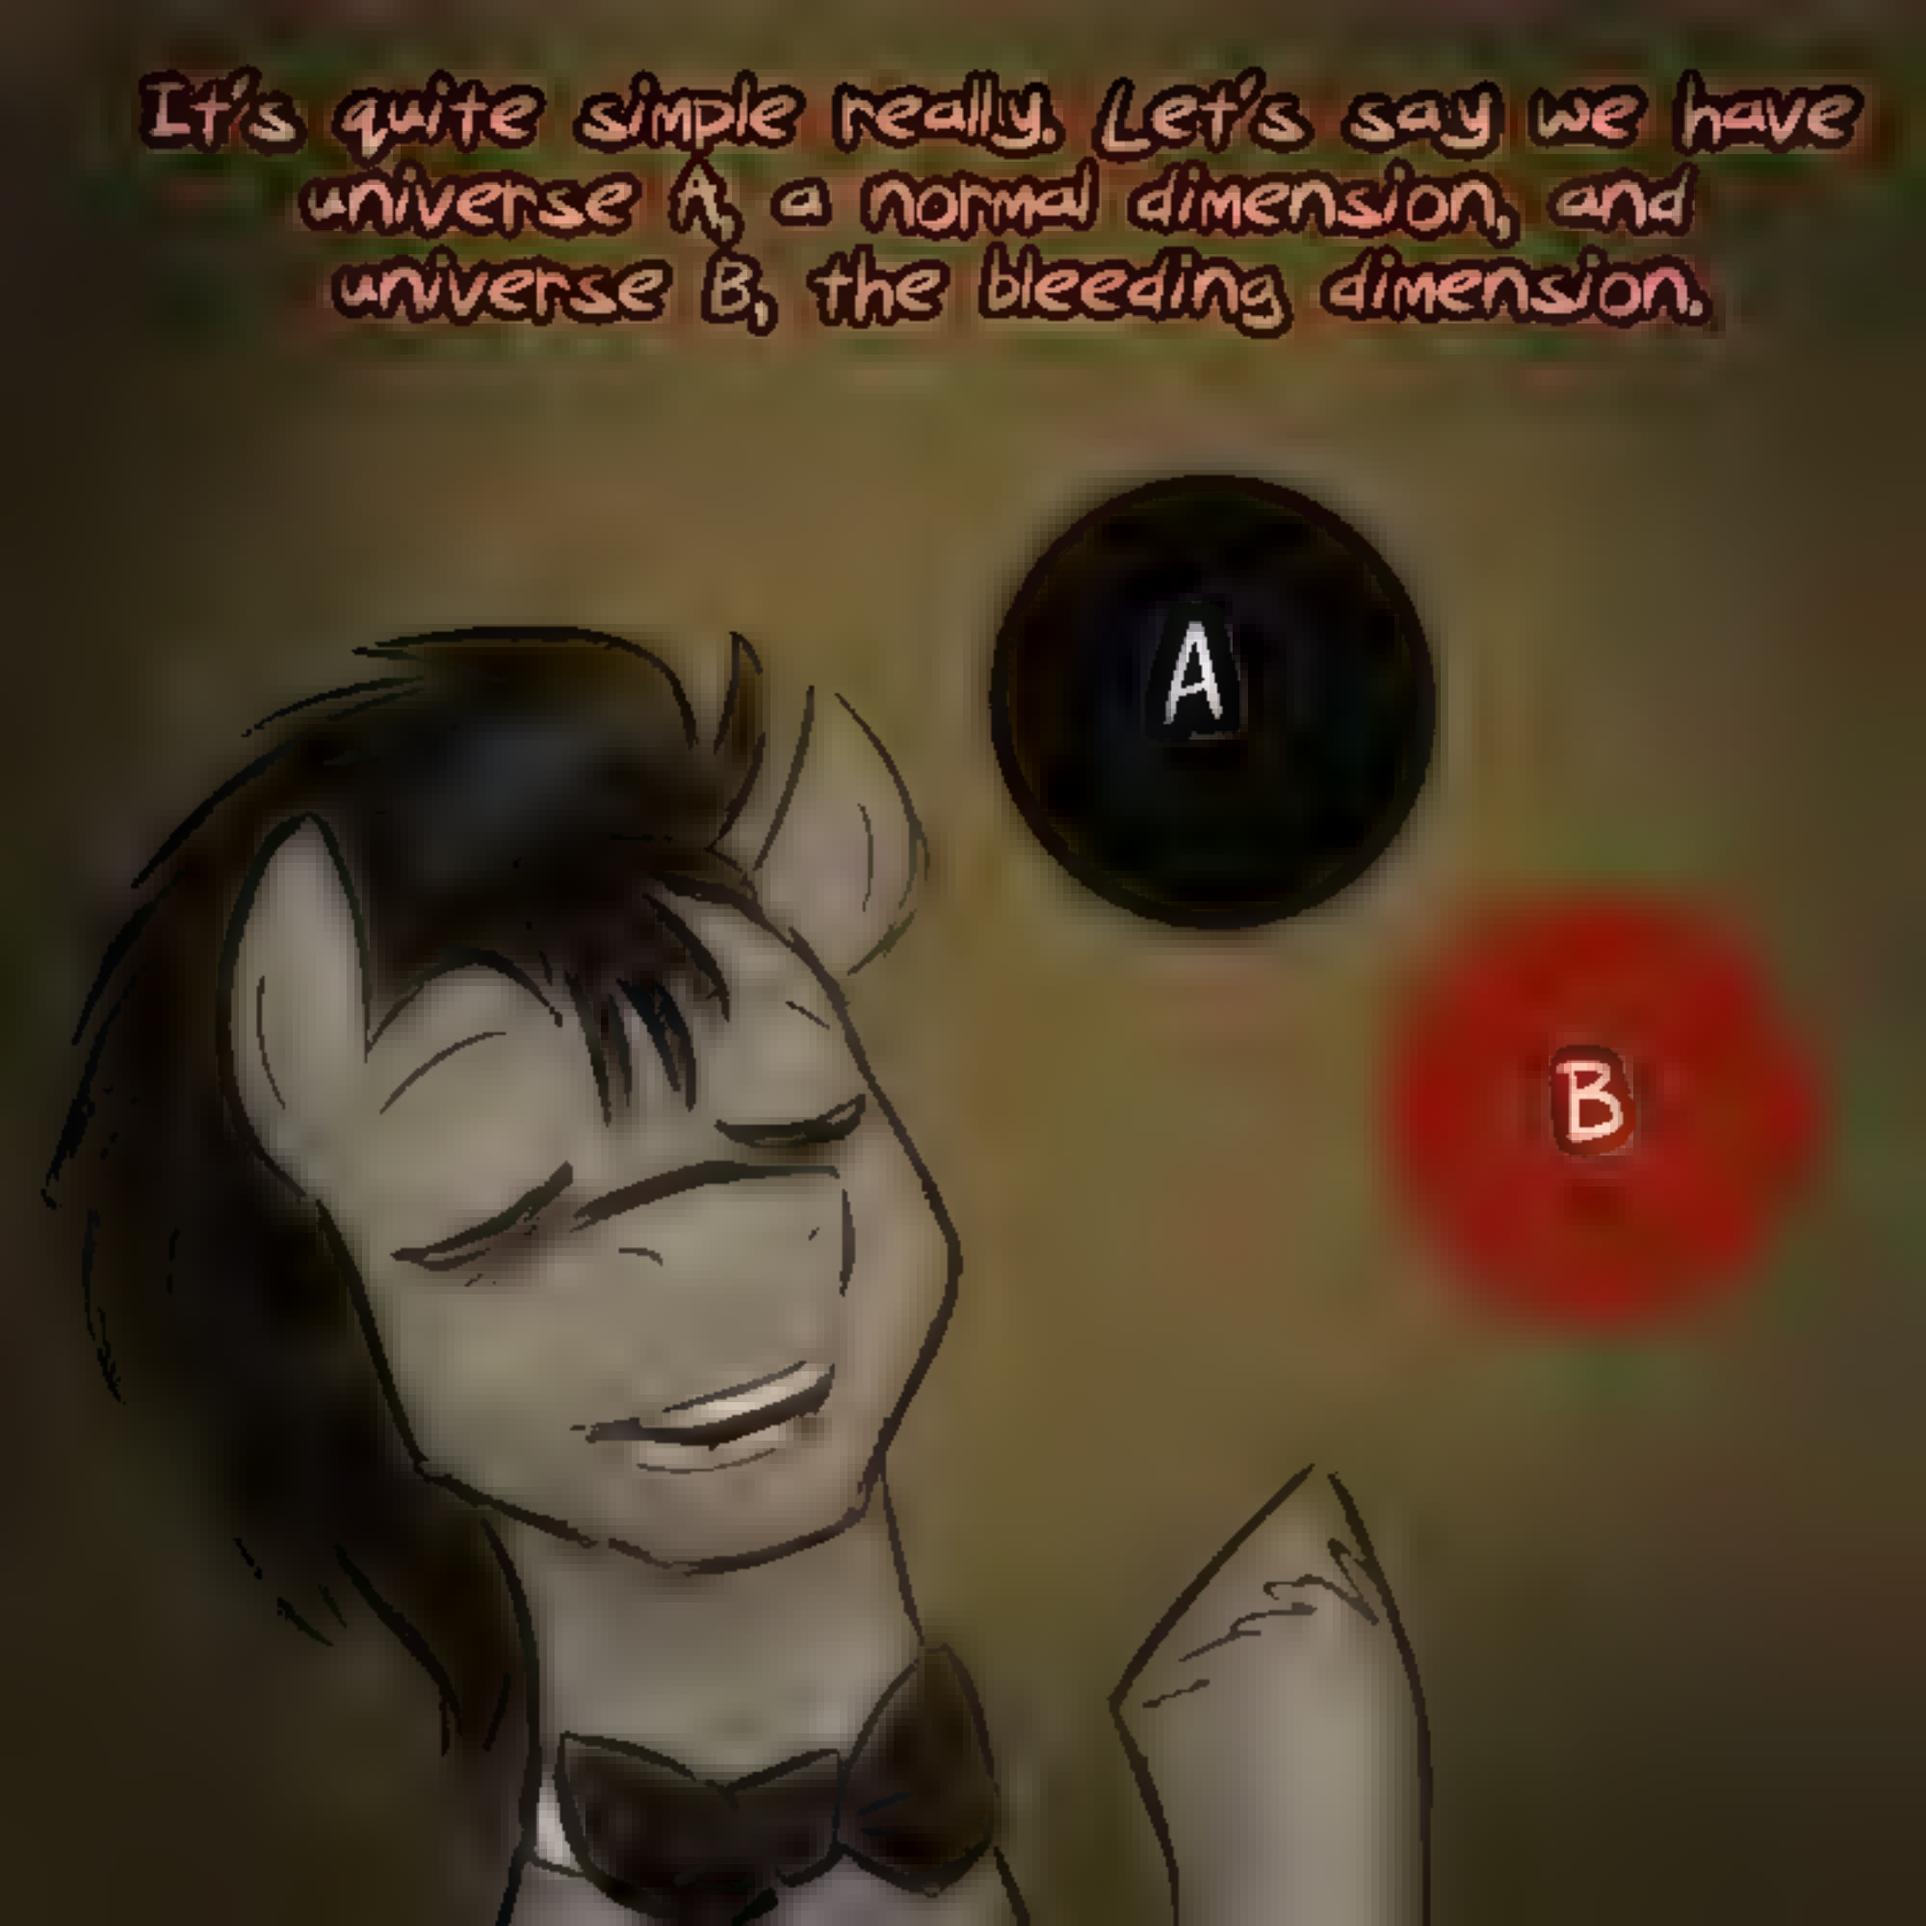
What? But Doc, that's impossible!
Not here, it isn't. The vortex is 'bleeding', you might say.

Speaking of 'bleeding', that sounds like a good place to visit.
A Canterlot in a 'bleeding' dimension.
A what?!

It's not as bad as it sounds. I've found these interesting little dimensions that seem to be mixing up with other dimensions, one 'bleeding' in to another. Their existence is baffling, but for them it's natural.

ARRIBA!
'Arriba...'?

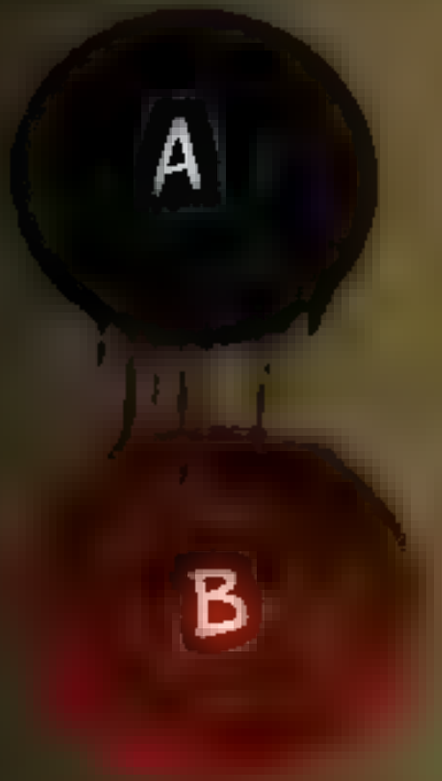
Doc can you te us more what does "Bleeding" means?
I still don't quite understand these 'bleeding dimensions', Doc-



It's quite simple really. Let's say we have universe A, a normal dimension, and universe B, the bleeding dimension.
A
B

Universe A has it's own independent time line, as does Universe B... But sometimes the events in universe A find a way to occur in Universe B.

'A' still keeps moving independently, completely unaffected by universe B, whereas B constantly shifts and adjusts to whatever changes happen to it, adapting to them in its own way.



If the bleeding is bad enough though, sometimes they will combine and create a new, pocket reality that slowly affects the whole.

Doctor, if we can travel dimensions, then can't we go back 'home'...?
No...

Our original universe is so different from the cluster of pony universes. You might say the Ponyverse is an alphabet and the human universe is numbers. You and I aren't supposed to be here, that's why we both died on the way through.

Even on the slim chance
that we could go back,
the truth is I wouldn't
be able to.

...And me?

Let's go to the Canterlot library and find out more about your cutie mark, eh?

Is the Tardis malfunctioning?
She's fighting against something, but I don't know what!

Well that was kind of random. Sorry, but what's the 'cloister bell' ?
What the heck's a cloister bell?
When it goes off it means something REALLY REALLY bad is happening! As in destroy the TARDIS, possibly the universe bad!

aw crap! ts the cloister bel l whats the emergency doc?
Doc, what does the nnging mean? Is that some sort of danger alarm or something?
What's going on with the cloister bell?
That hasn't rung in a while Whats wrong this time?
I don't know,
I don't know,
I don't know!!!

The cloister bell only goes off in the most serious of emergencies! Doctor, you need to get out of there, wherever you are!
BONG
Stop ringing, stop ringing, stop it! Shut up!!
Doc!

Doc get a hold of yourself!
I'm sorry- I'm sorry- There's nothing I can-- I--

Doctor, I'm right here with you just snap out of it and tell me what to do!
A-ah-...!?
SMACK

Y-you're right I
shouldn't panic right now...

Jack stand by
the navigational
panel, we'll fix this.

It's a navigational issue, she's refusing to go to the alternate Canterlot!

What's happening!?! Is th s some new result from cross ng into the 'bleeding' universes!? Has it fina ly strained itself far enough and the whole of reality in each Jn verse crushing in on each other!? D
O-okay we need to readjust the co-ordinates, keep a hoof on the stabilizers!

I'm setting
a new course
to my own Canterlot,
maybe that will-

O-okay another
Canterlot-
another-

None of them are working!

We're going to put her on automatic, it's risky but we'll need to let her land where she feels it's safest!

Quick Doc, do a thing! You're good at doing things!
ANDALE!

CAN SOMEONE TURN OFF THAT INFERNAL RACKET?!
Sh-she landed...
Oh thank goodness...

Doc?!

Jack, the doc has been through some bad things lately the whole incident with the TARDIS must of shaken him up it might best to comfort him now
It's okay Doctor, the bell is gone, we're safe now-
No, no, no, no...

Jack maybe he is just in shock
I think you're right...
I'll just let him rest...
FAINT

Jack, HELP THE DOC UP HE MUST OF CALAPESED CAUSE OF THE STRESS OF THIS ORDEAL AND HIS EARLIER BREAK DOWNIIII P S Keep a close eye on him no telling what can happen in a land where there is bleeding Universe's and magic
Good luck, Doc...

Doctor, close your eyes. Lay down and take a deep breath. Think of nothing. Think of no one. Think that you're inhaling a blue light, and exhaling a golden light. Just empty your mind of thoughts. Relax every muscle in your body. Ignore all the emotions. Now, Doctor, what do you see?
I'm falling somewhere,
I can't stop it...

Are you okay?

No...
I don't want to go there...

How did it feel to have another Doctor moment of brilliance after so long?

Terrible...
There was nothing brilliant about it...

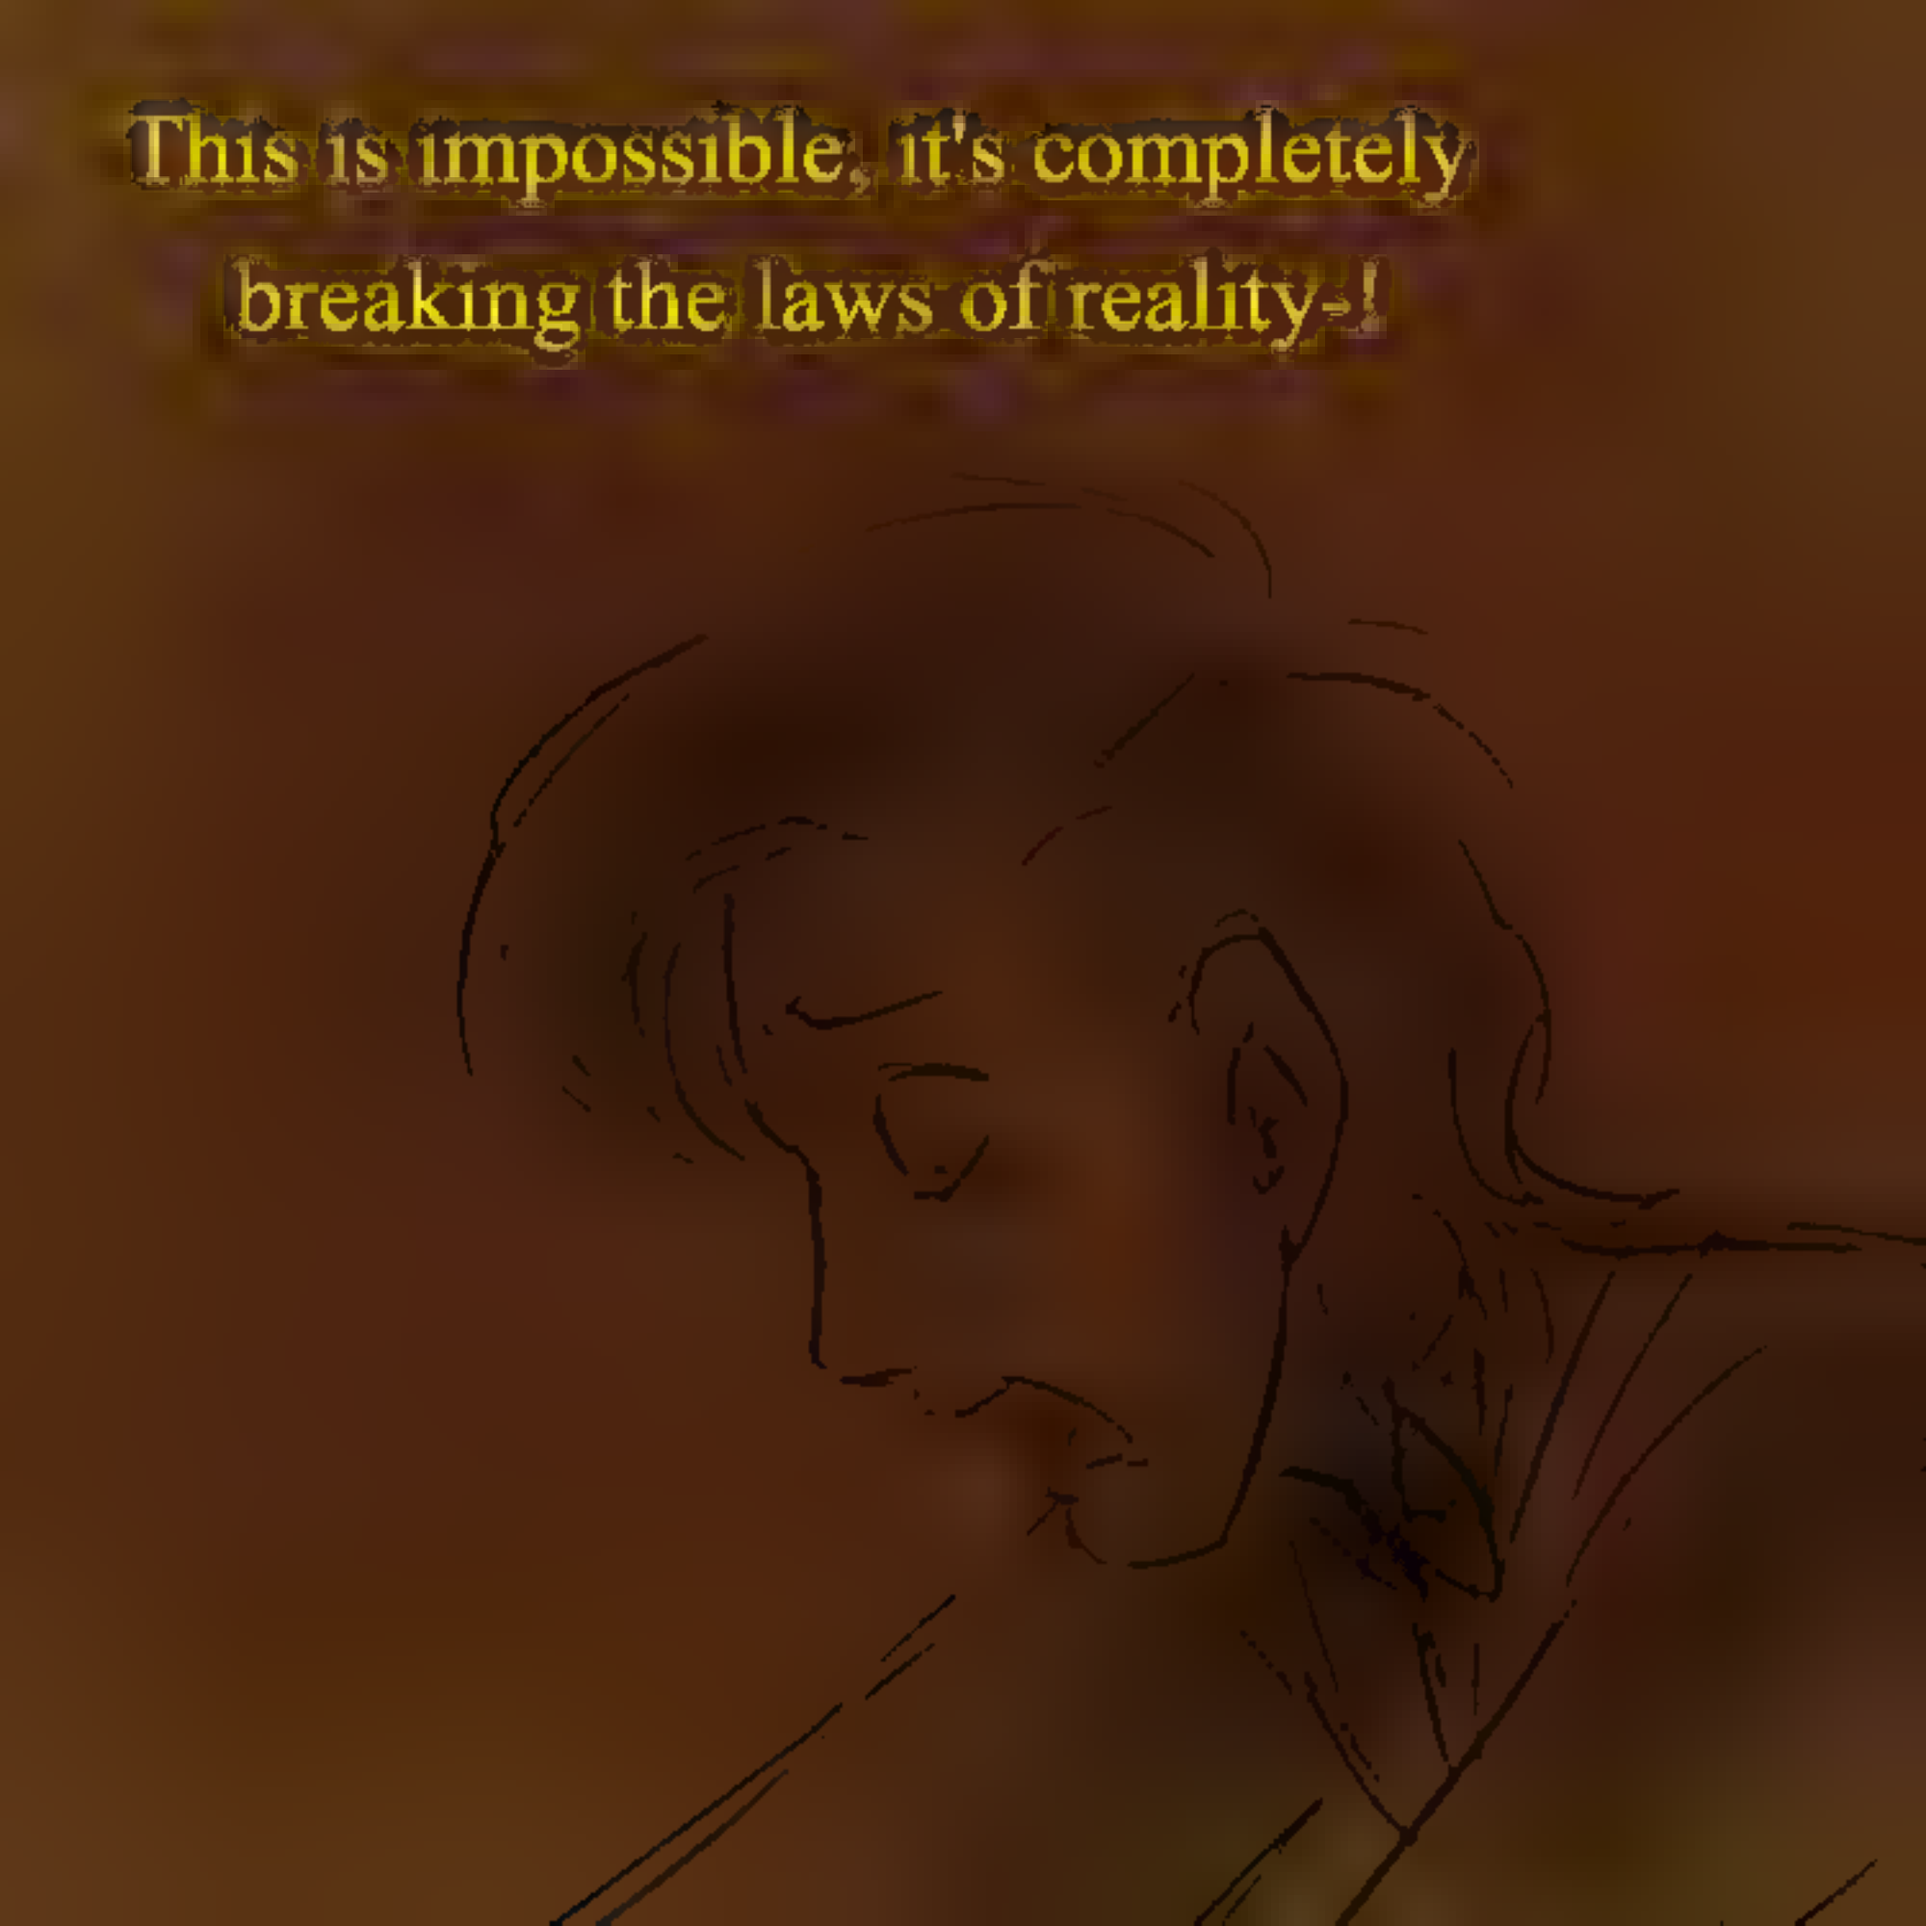
"Okay, explain to me how one day has now turned in to two weeks?"

"So I made a few bad judgments. I'll get it right."

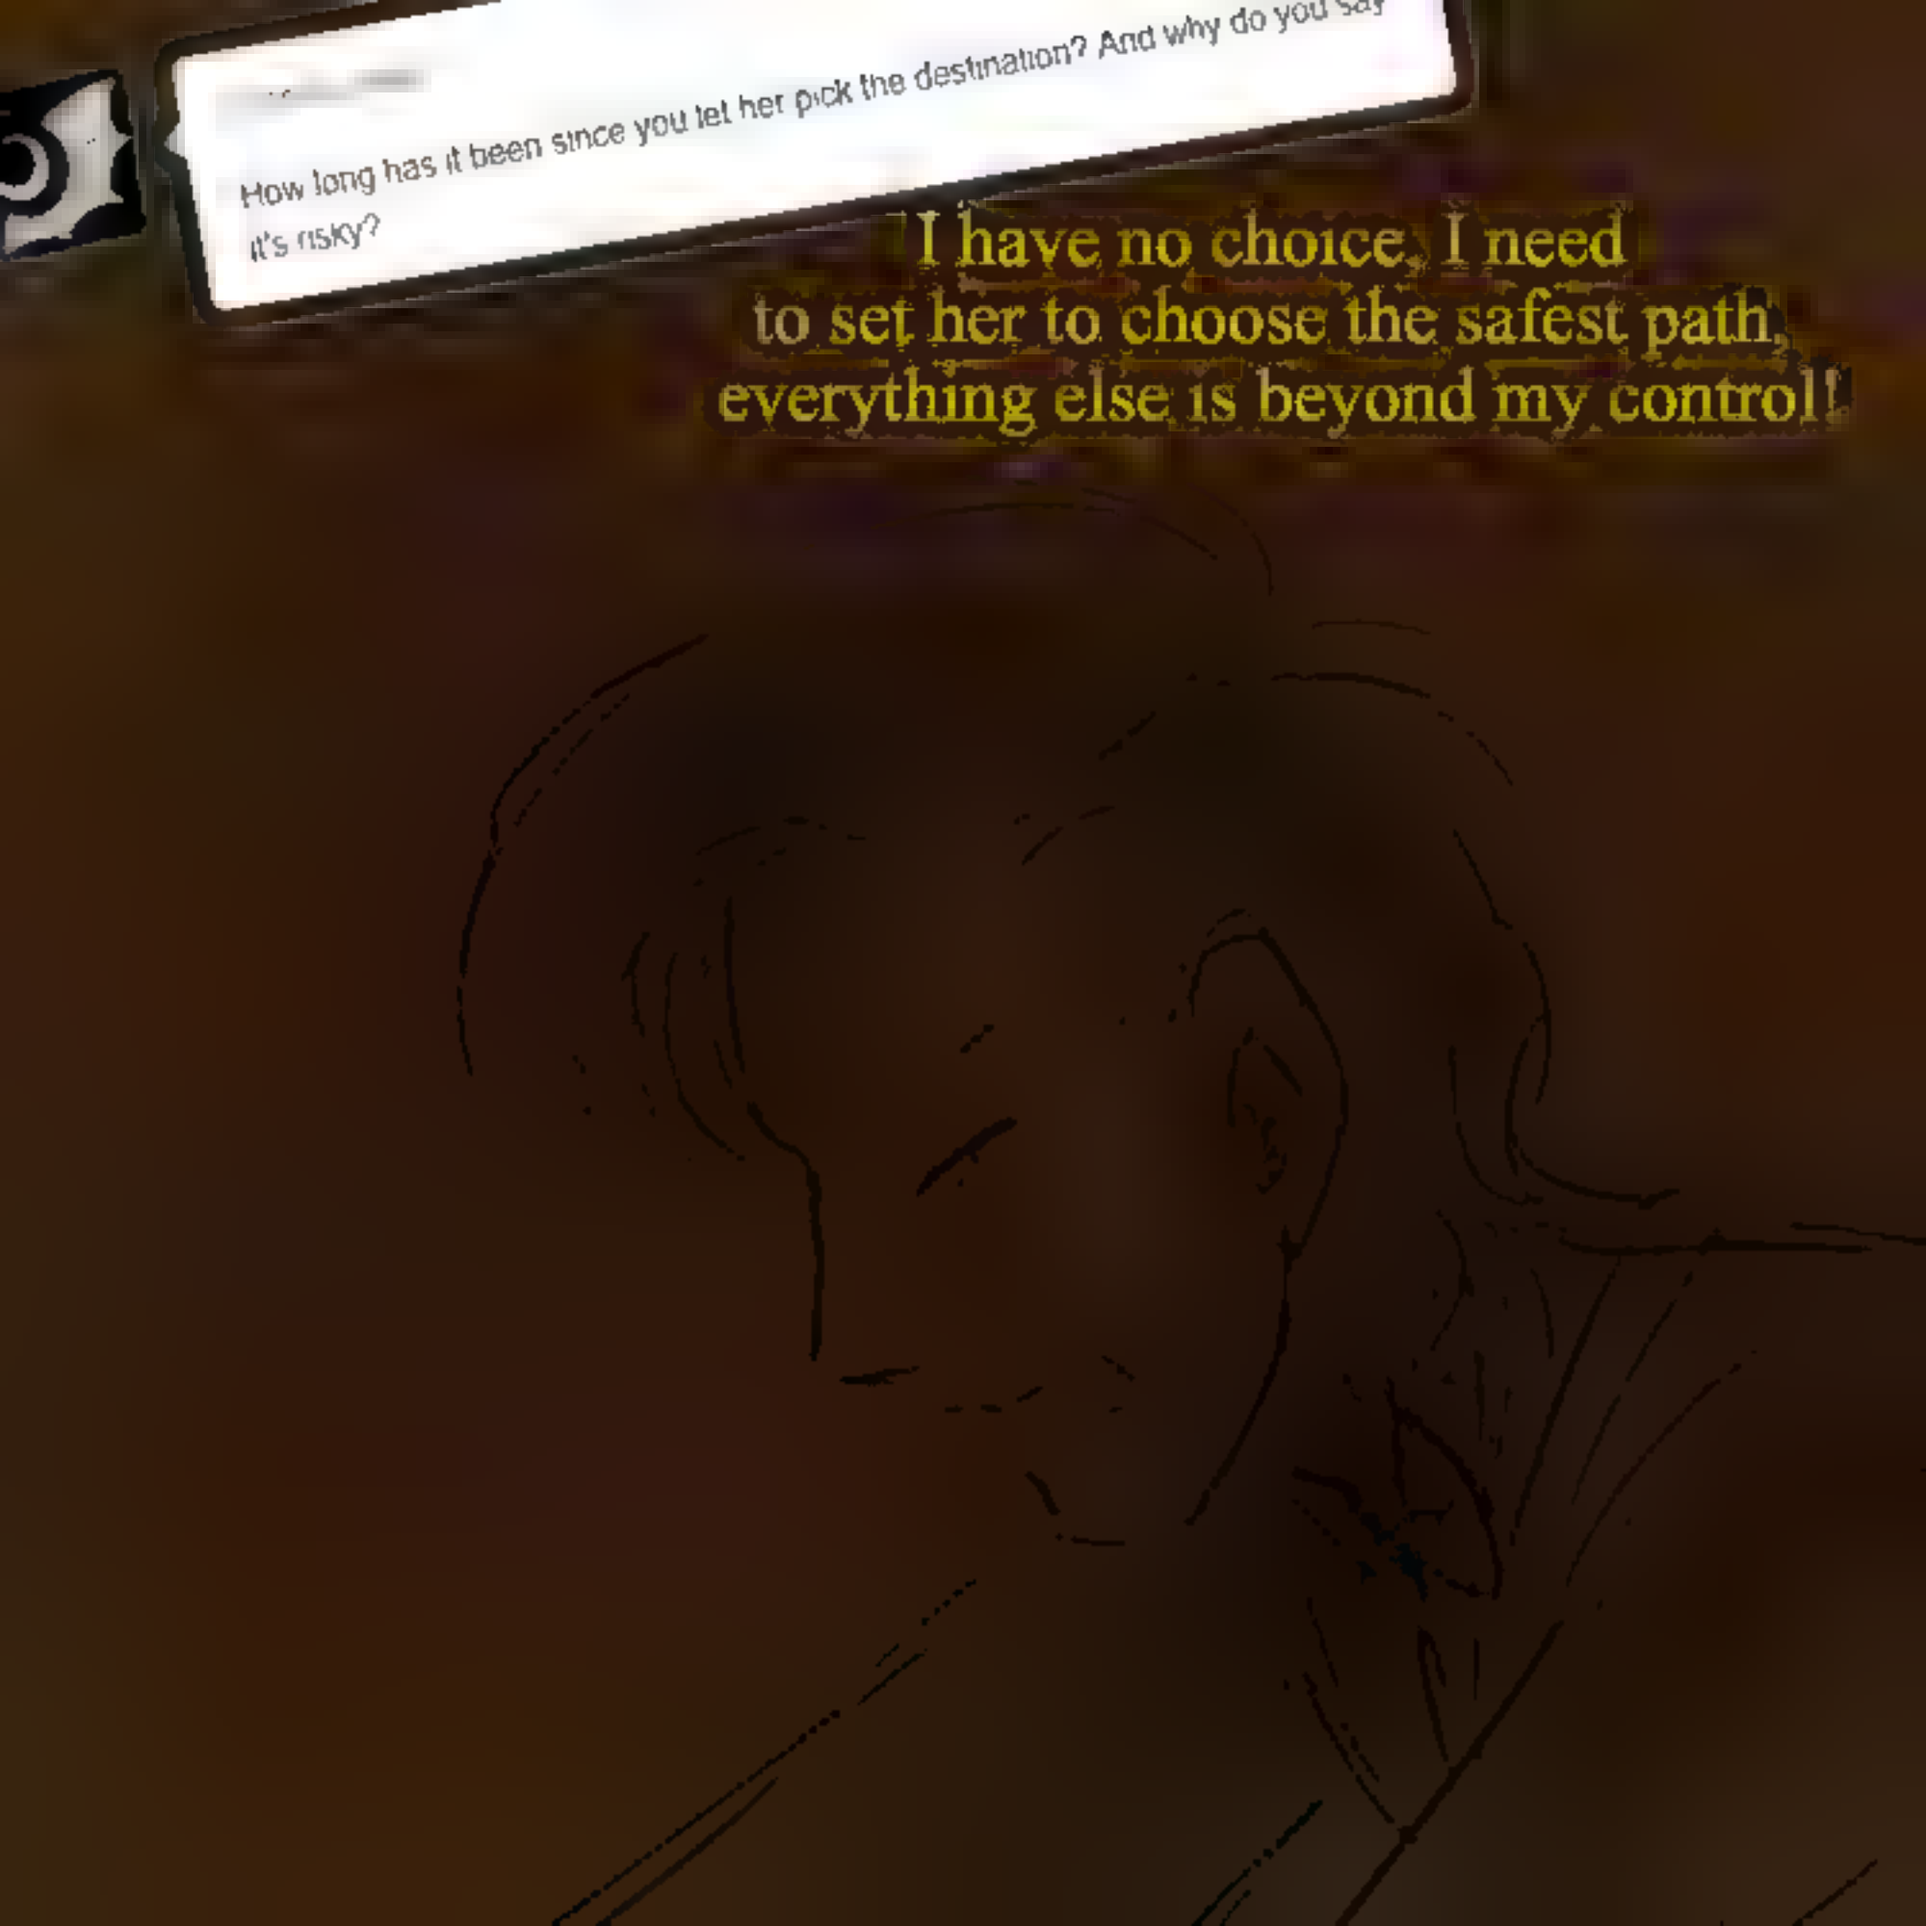
No, not this, anything but this, please...

Relax, relax.
"Arriba!" and

This is your idea of a "pit-stop"!?
No, no, it doesn't make sense,
something is pulling her!
Something immensely powerful!



This is impossible, it's completely breaking the laws of reality-!



How long has it been since you let her pick the destination? And why do you say it's risky?
I have no choice. I need to set her to choose the safest path, everything else is beyond my control!

DOCTOR! IT HURTS!
The TARDIS indeed brought me to the safest place for me...
But the same could not be said for...them...
HELP US!
I can't, I can't!
There's nothing I can do, I'm sorry! I'm sorry!!!

A-Amy- Rory--? No, nononono-
We were all torn apart and re-shaped, but I was only able to make it through alive because of my regenerating...
This universe was not so kind to them. It was one of the most painful and horrifying things I had ever seen.

BOOM
But I still wasn't safe. I wasn't meant to see what happened. I wasn't meant to be caught in the flames with their corpses.

So she
threw me out...

It was too painful.
Hey, are you okay?
I didn't want to remember anything.
Not if it meant remembering my mistake...
So I forgot.
I forgot everything.

Nnn..?

missmorningdew asked:
Captain Jack! You gotta make sure the Doc is okay... He saved your butts back there! Get him some water or something! Make sure he won't be woozy when he recovers!
Here, Doc, you need this...
